

PLANTS FOR  
GROWING  
SUCCESS!

# ONLY THE BEST FROM PANAMERICAN SEED®

PanAmerican Seed® is your global partner for a wide range of high-quality seed products delivered to you on time for a successful growing season. We support you with the right products guaranteed to perform, the best customer service and tech support in the industry, the latest seed technology enhancements and controlled production to help you always grow your best.

## QUALITY BREEDING

Our breeding team is the best in the industry at creating innovative new products to help you build your business. They also fine-tune our products, adding on-trend colours and performance upgrades.

## CONTROLLED PRODUCTION

All of our seed production facilities are constantly monitored to maintain our seed quality. The seed is inspected all the way through our production process, being tested and retested, so we always have a full inventory of high-performance, high-quality seed available when and where you need it.

## ENHANCED SEED TECHNOLOGY

The Premier Lab strives to provide the most superior seed by developing new seed forms, seed-testing protocols, seed quality ratings, plus upgrades such as superior seed coating and pelleting techniques to improve production efficiency for growers.

## CUSTOMER SERVICE

You'll receive personalised, quality care from our Customer Service Representatives. They take the time to get to know our customers so they can provide the right solutions to help your business succeed.

## TECHNICAL SUPPORT

Our technical support team has the expertise to provide support for crop culture, clean environment protocols, plant physiology and pathology, chemical and biological control agents for pests and more, using the most comprehensive resources in the business.

## EVOLVING OUR PRODUCTS

Our 2022 introductions expand our world-renowned collection of plants that provide you with growing solutions, like E3 Easy Wave™ Petunias, an evolution of our Wave program with benefits for grower production and sales.

## EXPANDING OUR CONNECTIONS

We are also pleased to announce our new cut flower venture, BloomStudios<sup>SM</sup>. Our focus is on innovative breeding and technical resources for the professional cut flower grower - we have a lot to offer!

## DEVELOPING NEW SOLUTIONS

In addition, we are offering the Kitchen Minis<sup>®</sup> Collection, a new concept in vegetable growing. It includes edible potted tomato and pepper plants that will entice consumers to buy, eat and repeat these exciting indoor/outdoor tabletop varieties. No garden? No problem!

## RELIABLY DELIVERED ON TIME

Reliable delivery is at the core of our business. Our dedicated team works on your orders to make the delivery as smooth as possible whether your shipment is domestic or international.

The varieties listed with this icon are plants that excel in professional landscape applications, no matter what challenges they face. Whether it's heat and humidity, drought or rain, these plants get the job done. Look for the Pro Landscape Performer icon for plants that will make you look good all season long.

# wave<sup>®</sup>

## EARLY, EFFICIENT, EVOLUTIONARY. E3 EASY WAVE™ DEBUTS!

Continuing over 25 years of innovation and progress, we are announcing a brand-new Wave® series that will be ready at retail to kick off Easy Wave sales even earlier! **NEW E3 Easy Wave** petunias flower at 10 hours daylength and can be grown at lower PGR rates than Easy Wave. With a manageable, uniform plant structure and vigour, this new series is easier to produce, offers lower labour costs and provides beautiful plants that look better longer at retail. With the extraordinary performance that consumers expect from the Wave brand, E3 Easy Wave lives up to its reputation!

# wave<sup>®</sup>

Height: 5-7 in. (13-18 cm)  
Spread: 36-48 in. (91-122 cm)

## UNBEATABLE GARDEN PERFORMANCE

For more than 25 years, Wave has been inspiring growers and gardeners alike with a continually evolving and improving petunia program. With new colours, new series and new promotions, Wave provides easy spreading colour to home gardens around the world. That's what makes Wave the brand known, bought and trusted by name.

Wave includes 5 petunia series, including NEW E3 Easy Wave<sup>™</sup>, along with 1 pansy series, and boasts over 70 colours and mixes. Known for its wide selection of colours and versatility in gardens, baskets and containers, Wave provides the variety and performance consumers expect from plants for their garden today!

## Wake up early season sales!

This brand-new Wave® series flowers at 10 hours daylength, and it will be ready at retail to kick off Easy Wave sales even earlier! With a manageable, uniform plant structure and vigour, this new series offers simple production to save on labour costs. The plants can be grown at lower PGR rates than Easy Wave, so we say it's 'Extra Easy' Wave! The plants stay full and lush longer at retail for increased sell-through and the eye-catching appeal consumers expect from the Wave program.

**NEW**

**Pink**

It's **E**arly, it's **E**fficient, it's the **E**volution of Easy Wave... it's **E3!**

### SPREADING PETUNIA ● *Petunia x hybrida*

#### E3 Easy Wave™ Series F1

**Height:** 6 to 12 in./15 to 30 cm  
**Spread:** 25 to 32 in./64 to 81 cm  
**Flower size:** 2.25 to 3 in./6 to 8 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 4 to 6 weeks  
**Transplant to finish:** Spring 6 to 7 weeks, Summer 4 to 5 weeks

- A new Wave brand series is now available to fulfill sales earlier in the season.
- Flowers at or under 10 hours daylength.
- E3 Easy Wave offers simplified production, as it can be successfully grown at lower PGR rates than Easy Wave (except Blue).

- All E3 Easy Wave varieties have a similar, uniform plant structure and vigour, which means simplified plant management.
- Plant holding capabilities across the series mean better quality over a longer time period for an extended sales window.
- E3 Easy Wave fulfills the Wave brand promise of *easy spreading colour* with superior performance: a manageable spreading habit, long bloom time and sheer colour value!
- Mounding, spreading habit offers a three-dimensional landscape effect, creating impressive baskets and planters.
- Recommended in Wave branded packaging: 6-in./15-cm pots, premium quarts and gallons, 306 premium packs with handle, hanging baskets.

Red, Blue, White

NEW

Red

NEW

White

**New Blue** Requires 10 hours daylength. Most vigorous of the series, so it is recommended to be grown at the Easy Wave PGR rates. Cold durable.

**New Coral** Deep coral-salmon with slight veining. Requires 9.5 hours daylength. Can be produced using the Easy Wave PGR rates or at half the rate. Cold durable.

**New Pink** Mid-true pink colour. Requires 9.5 hours daylength. Can be produced using the Easy Wave PGR rates or at half the rate. Cold durable.

**New Pink Cosmo** Medium pink with deeper pink veins that are more prominent in cooler and lower light conditions. Requires 10 hours daylength. Can be produced using the Easy Wave PGR rates or at half the rate. Cold durable.

**New Red** True deep, vibrant red colour. Requires 9.5 hours daylength. Variety is more receptive to PGRs, so best control is achieved at half the rate of Easy Wave. Cold durable.

**New Sky Blue** Requires 9.5 hours daylength. Flowers will lighten with age and in high light conditions. Can be produced using the Easy Wave PGR rates or at half the rate. Cold durable.

**New White** Pure, clean white. Requires 9 hours daylength. Can be produced using the Easy Wave PGR rates or at half the rate. Cold durable.

PETUNIAS

**Bold and creative!**

You'll always stand out in the petunia market with Easy Wave. Bring in a wide array of decorator colours. Put the huge versatility to work - they're perfect for solo and mixed planters and baskets, gardens and landscapes. Best of all, these all-season salesmakers deliver customer-pleasing performance.

Easy Wave Violet

Grow great-looking Plug & Play® Combos like this with Easy Wave Petunia!

Plug & Play Combo Mad about Red, see page 238.

SPREADING PETUNIA continued

**Easy Wave® Series F1**

**Height:** 6 to 12 in./15 to 30 cm  
**Spread:** 30 to 39 in./76 to 99 cm  
**Flower size:** 2 to 3 in./5 to 8 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 4 to 6 weeks  
**Transplant to finish:** Spring 6 to 7 weeks, Summer 4 to 5 weeks

- Versatile Easy Wave offers simplified production, maximized plug yields and the ability to meet every ship date for every colour. Lets you grow specialty mixes, too!
- More mounded with more controlled spread than Wave® varieties.
- Recommended in Wave branded packaging: 6-in./15-cm pots, premium quarts and gallons, 306 premium packs with handle, hanging baskets.

**Blue** Flowers have some light blue shading.

**Burgundy Star** Pattern is consistent with standard star petunias - some flowers may be more solid or more white.

**Lavender Sky Blue** Shades of lavender to sky blue; colours will be darker under cooler and lower light conditions. Moderate plant vigour. 9.5 hours daylength required. Cold durable.

**Pink Passion** 8 to 10 days earlier than Pink in Spring natural daylength conditions.

**Plum Vein** Slightly more upright than others in the series.

**Rose Fusion** Mid-rose blooms with deep rose veins. Short-day flowering requirement of 9 hours creates early-season sales opportunities.

**Yellow** Better branching with strong rooting compared to vegetative yellow varieties. Flower size is similar to Red.

**Beachcomber Mixture** Blue, Coral Reef, Pink Passion.

**Formula Mixture** Blue, Neon Rose, Pink Passion, Red, Silver, Violet, White.

**Great Lakes Mixture** Blue, Violet, White.

**Opposites Attract Mixture** Coral Reef, Violet.

**Plum Pudding Mixture** Plum Vein, Violet.

**South Beach Mixture** Coral Reef, Red, Violet.

**Starfish Mixture** Burgundy Star, White.

**The Flag Mixture** Blue, Red, White.

SPREADING PETUNIA continued

**Shock Wave® Series F1**

**Height:** 7 to 10 in./18 to 25 cm  
**Spread:** 20 to 30 in./51 to 76 cm  
**Flower size:** 1.5 to 2 in./4 to 5 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 4 to 6 weeks  
**Transplant to finish:** Spring 5 to 6 weeks, Summer 4 to 5 weeks

- Blooms in a 4 to 6-day window.
- Smaller blooms rebound faster from overhead watering and rain than other petunias - stays fresher-looking at retail and outdoors.
- Performs equally well in small spaces, baskets, containers and mixed combos.
- Features a plant structure and shape like E3 Easy Wave.
- Recommended in Wave branded packaging: 4-in./10-cm pots, premium quarts, 306 premium packs with handle, hanging baskets.

**Coral Crush**

Retains colour well in high light.

**Denim** Flowers are dark blue-purple in cool/low light and greenhouse production; change to blue-lavender-silver in high light and hot conditions.

**Pink Vein Spread** is 30 to 36 in./76 to 91 cm.

**Purple Tie Dye** Variable purple-blue and white bicolor pattern is appealing to consumers. Pattern changes based on temperature, light levels and PGRs used; daminozide use will result in more white showing on the blooms. 10.5-hour daylength required.

**New White** Pure white variety requires 10.5 hours daylength for best flowering. Replaces Coconut. Plant vigour is slightly more compact than Red and fits the series well. Cold durable.

**New Spark Mixture Improved** Includes NEW White in place of Coconut, so the mix is more uniform in habit and vigour, making it easier to produce. Also includes Denim and Pink Shades.

**New Volt Mixture Improved** Includes NEW White in place of Coconut, so the mix is more uniform in habit and vigour, making it easier to produce. Also includes Denim and Red.

### Packed with petite blooms!

You've never seen petunia hanging baskets like these - each Shock Wave plant is blanketed with masses of colour from the amazing number of petite, high-impact flowers.

### The Authentic Trailing Petunia

Wave has set the standard for petunia landscape performance and continues to transform gardens around the globe. Pro landscapers and home gardeners alike choose low-growing, wide-spreading Wave varieties for every sunny setting: gardens, baskets, large colour bowls and more.

**Wave Carmine Velour** All-America Selections National Winner US 7,642,436; EU PAF

SPREADING PETUNIA continued

### Wave® Series F1

**Height:** 5 to 7 in./13 to 18 cm  
**Spread:** 36 to 48 in./91 to 122 cm  
**Flower size:** 2 to 2.5 in./5 to 6 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 4 to 6 weeks  
**Transplant to finish:** Spring 7 to 9 weeks, Summer 5 to 7 weeks

- Virtually care-free, the plants bloom like crazy all season, with masses of flowers along the entire length of each branch with no trimming back.
- Wave petunias stand up well to both heat and cooler conditions, and perform better than most petunias when *botrytis* is present.
- Recommended in Wave branded packaging: 6-in./15-cm pots, premium gallons, hanging baskets.

**Carmine Velour** Vivid, hot carmine-cherry colour on vigorous, flat, spreading plants. 13 hours daylength required. Cold durable. *All-America Selections National Winner 2019.*

**Lavender** Timing is similar to Misty Lilac. *All-America Selections National Winner, Fleuroselect Gold Medal.*

**Misty Lilac** Flowers may show appealing white "splashes" when plants are grown in high light or growth regulators are applied. Grows taller than the other Wave colours.

**Pink** Timing is similar to Purple Classic.

**Purple** Begins to flower at 11 hours, and is 12 to 14 days earlier than Purple Classic.

**Purple Classic** Blooms about 1 week later than Lavender, Misty Lilac and Rose. *All-America Selections Classic.*

**Tidal Wave® Series F1**

**Height, spread and spacing:** Growth habit is based on how closely plants are placed – the closer the spacing, the taller the plants.

- Spaced a minimum of 12 in./30 cm apart, Tidal Wave petunias form a dense, mounded hedge, 16 to 22 in./41 to 56 cm tall.
- Grown in a restricted space with support, they grow an extra 2 to 3 ft./61 to 91 cm upward, like a vine.
- Spaced up to 24 in./61 cm apart in the garden, the plants make a floriferous groundcover, spreading up to 5 ft./1.5 m across per plant.

**Flower size:** 2 to 2.5 in./5 to 6 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** Spring 6 to 8 weeks, Summer 4 to 7 weeks

- Largest and most vigorous of the Wave petunia family, Tidal Wave plants provide super-size colour in big spaces, and are suitable for large city baskets and plantings.
- Excellent landscape performer with terrific recovery from rain. Unlike other petunias, Tidal Waves stay together.
- Recommended in Wave branded packaging: 8-in./20-cm pots.

**Tidal Wave Silver & Cherry**

**Big, bold 3D colour!**

Extend your season with this strong finisher. Tidal Wave is the “go-to” for pros and home gardeners looking for fast colour. Hedge, vine or impressive groundcover – Tidal Wave does it all! These fast-fill plants spread out across big spaces, and they crawl along and over walls and fences.

PANSIES®

Twice the spread...  
double the colour!

Wow 'em with Cool Wave - hands down, it's the fastest-growing, longest-lasting, truly trailing pansy for Spring and Autumn.

Cool Wave Red Wing/Sunshine 'N Wine

Blue Skies

Raspberry

**SPREADING PANSY** ●  
*Viola x wittrockiana*

**Cool Wave® Series F1**

**Height:** 6 to 8 in./15 to 20 cm  
**Spread:** 24 to 30 in./61 to 76 cm  
**Flower size:** 2 to 2.5 in./5 to 6 cm

**Seed supplied as:** Primed

**Plug crop time:** 4 to 5 weeks

**Transplant to finish:** Spring 6 to 7 weeks, Autumn 4 to 5 weeks

- The best-performing spreading pansy series delivers easy spreading colour for Spring and Autumn, so you can extend your growing and selling season for the popular Wave® Brand.
- More vigorous with the most prostrate habit of any spreading pansy - great in combos and as groundcover.
- Superior overwintering hardiness - Cool Wave is the earliest pansy to return in the Spring.

**Blue Skies** Cool nights/low PGRs deliver the deepest colour. High temperatures/PGR use show slightly lighter blue colour and broader yellow eye. Small number of blooms show dark purple cap. Matches Golden Yellow for habit and vigour.

**Blueberry Swirl** Cool nights/low PGRs deliver the deepest colour. High temperatures/PGR use show lighter colour and broader yellow eye.

**Fire** Rich dark red with a yellow face brings "fire" to Cool Wave. Shows more red in the face during Winter/Spring production (cool season) and more yellow in the face during Summer/Autumn production (warm season).

**Lemon** Clear, buttery lemon blooms show some genetic dark and light shading.

**Morpho** Cool nights/low PGRs deliver the deepest colour. High temperatures/PGR use shows lighter colour and broader yellow eye.

**Raspberry** Rich, velvety rosy-purple with white around flower centre. Shows more rose/purple in the bloom and less white in the face in Winter/Spring (cool season) production, and more white in the face in Summer/Autumn (warm season) production. Matches Golden Yellow for vigour.

**Raspberry Swirl** Shows more rose cap in Winter/Spring (cool season) production.

**Red Wing** Also known as **Sunshine 'N Wine** in North America.

**Strawberry Swirl** Shows more pink cap in Winter/Spring (cool season) production and more yellow in the flower face in Summer/Autumn (warm season) production.

**Berries 'N Cream Mixture** Purple, Violet Wing, White.

**Pastel Mixture** Frost, Golden Yellow, Lemon and White.

**Maximize your growing success** Find all you need to grow fantastic Cool Wave pansies in the comprehensive Production Handbook. It's available in English and Spanish at [panamseed.com](http://panamseed.com) or ask your preferred distributor for a copy.

Raspberry

Lavender

**Serenita® Series F1**

**Height:** 12 to 14 in./30 to 36 cm  
**Spread:** 12 to 14 in./30 to 36 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 5 to 6 weeks

**Transplant to finish:** 8 to 9 weeks

- Serenita has all the good looks, durability and easy production of Serena - with a few additional benefits.
- Excellent solution where shorter and more manageable material is needed.
- Peak performer in very hot/humid night temps like Florida, southeast Asia and similar southern climates.
- Great for high-density production.
- Grow Serenita with less to no PGRs for cost savings.

**Sky Blue** Colour holds well in high heat/light. Lighter than Serena Blue and distinctive from Serenita Purple. Timing like Raspberry.

**Mixture** Lavender, Pink, Purple, Raspberry, Sky Blue, White.

**ABUTILON**   
*Abutilon x hybridum*

**Bella™ Select Mixture**

**Height:** 14 to 18 in./36 to 46 cm  
**Spread:** 14 to 18 in./36 to 46 cm

**Seed supplied as:** Raw

**Plug crop time:** 3 to 5 weeks  
**Transplant to finish:** Spring 6 to 8 weeks, Autumn 8 to 10 weeks

- Compact variety for outdoor containers; also good in indoor plant programs.
- True dwarf variety germinates easily and needs little or no growth regulators.
- Well-branched plants bloom continuously, even in high heat.
- Large, 3-in./8-cm, bell-shaped blooms “look up” for a good show of colour; under cooler conditions, colours intensify.

**Purple Knight Alternanthera**

**AGERATUM**   
*Ageratum houstonianum*

**High Tide™ Series F1**

**Height:** 14 to 16 in./36 to 41 cm  
**Spread:** 12 in./30 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 4 weeks  
**Transplant to finish:** 7 to 9 weeks

- Dense, mounded hedge of colour is taller and more vigorous than other landscape ageratum.
- Outlasts standard bedding types in gardens and mixed containers.
- Strong branching fills out packs and pots quickly.
- Self-cleaning and easy-care.
- Also well-suited to indoor plant programs.

**Bella Select Mixture**

**High Tide Blue & High Tide White Ageratum**

**ALTERNANTHERA**   
*Alternanthera brasiliana*

**Purple Prince** 

  
**Height:** 10 to 16 in./25 to 41 cm  
**Spread:** 18 to 20 in./46 to 51 cm

**Seed supplied as:** Raw

**Plug crop time:** 4 to 5 weeks  
**Transplant to finish:** 7 to 8 weeks

- First compact seed
- Durable carpet of ruby/burgundy foliage is ready to take on any Summer condition, including drought and rain. Imagine this unique colour accent in large cityscapes and as a “spiller” in high-impact containers!
- Great in low-maintenance landscapes for professionals and home gardeners alike.
- May flower under very short days; light plants at that time of year to prevent bud formation.

**ALTERNANTHERA**   
*Alternanthera dentata*

**Purple Knight** 

  
**Height:** 18 to 36 in./46 to 91 cm  
**Spread:** 24 to 36 in./61 to 91 cm

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 6 to 7 weeks

- Economical, easy-to-produce plant is an ideal accent for mixed containers and excellent in the landscape as a vigorous bedding plant.
  - Also well-suited to indoor plant programs.
  - Very heat tolerant - thrives even in subtropical Summer conditions.
  - Foliage colour is darkest in full sun.
  - Height varies by location; taller in warmer conditions.

**ALYSSUM**   
*Lobularia maritima*

**Clear Crystal® Series**

**Height:** 6 to 10 in./15 to 25 cm  
**Spread:** 12 to 14 in./30 to 36 cm

**Seed supplied as:**  
Coated, Multi-Seed Pellets

**Plug crop time:** 4 weeks  
**Transplant to finish:** 4 to 6 weeks

- Tetraploid alyssums deliver more vigour than standard diploids for reduced loss and increased profits.
- Few PGRs are needed in most markets - cool-season crop can be grown with little or no heat for Spring pack programs.
- More vigorous with larger flowers than Easter Bonnet.
- Fragrant, large blooms and stronger performance in containers, hanging baskets and in-ground plantings.
- Well-matched series includes the first pigmented tetraploid alyssums.

**Easter Bonnet Series**

**Height:** 4 to 10 in./10 to 25 cm  
**Spread:** 10 to 12 in./25 to 30 cm

**Seed supplied as:** Raw, Coated

**Plug crop time:** 4 to 5 weeks  
**Transplant to finish:** 5 weeks

- Offering a full colour range, Easter Bonnet combines uniformity of habit and colour with unsurpassed earliness.
- Covered with dainty, fragrant flowers, plants stay compact and tidy much longer than other alyssums, making these excellent edging plants.

**Snow Crystals**

**Height:** 6 to 10 in./15 to 25 cm  
**Spread:** 12 to 14 in./30 to 36 cm

**Seed supplied as:** Raw

**Plug crop time:** 4 weeks  
**Transplant to finish:** 4 to 6 weeks

- Large, pure white, scented flowers have outstanding sales appeal.
- Tetraploid genetics of Snow Crystals add heat tolerance and vigour.

Pot 'N Patio Mixture Aster

Snowtopia Bacopa

Pot 'N Patio Pink Aster

Pot 'N Patio Scarlet Aster

Blutopia Bacopa

Pinktopia Bacopa

Pot 'N Patio White Aster

Pot 'N Patio Blue Aster

**ASTER** ●  
*Callistephus chinensis*

**Pot 'N Patio Series**

Height: 6 in./15 cm  
Spread: 6 in./15 cm

Seed supplied as: Raw

Plug crop time: 4 to 5 weeks  
Transplant to finish: 8 weeks

- Dwarf plants flower just 90 days from sowing during the short days of Winter and early Spring without additional lighting.
- Performs well in patio pots, colour bowls and mixed containers, producing 2.5 to 3-in./5 to 8-cm, double blooms.
- Not recommended for landscape plantings.

Gryphon Begonia

**F1 BACOPA** ●●●  
*Sutera cordata*

**Blutopia®, Snowtopia® and Pinktopia**

Height: 6 in./15 cm  
Spread: 18 to 24 in./46 to 61 cm

Seed supplied as:  
Multi-Seed Pellets

Plug crop time: 3 to 4 weeks  
Transplant to finish: 4 to 6 weeks

- First-ever bacopas from seed let you fully mechanize production, with easy crop scheduling and quick turns with no pinch.
- Economical for accent plant programs.
- Perform well in large planters and mixed containers.

**Blutopia** Lavender-blue flowers like traditional blue bacopas. Slightly smaller leaves than Snowtopia, typical of vegetative blue bacopas. Mounded habit.

**Pinktopia** Bright pink colour is great for mixed containers and large planters. The leaf size is the same as Snowtopia, but the leaf colour is more bright green than both Blutopia and Snowtopia.

**Snowtopia** White flowers like traditional white bacopas. Larger leaves than Blutopia, similar to vegetative white bacopas. Slightly prostrate.

**FOLIAGE BEGONIA** ●●●  
*Begonia x hybrida*

**Gryphon** 

Height: 14 to 16 in./35 to 40 cm in shade, 12 to 14 in./30 to 35 cm in partial sun; may grow to 30 in./75 cm tall in hot/humid conditions  
Spread: 16 to 18 in./41 to 46 cm

Seed supplied as:  
Multi-Seed Pellets

Plug crop time: 8 to 9 weeks  
Transplant to finish: 5 to 6 weeks

- Easy-care, low-water plant blends beauty with durability to make dramatic mixed or solo containers.
- Fits into existing begonia plug culture; easier and quicker to produce than vegetative foliage types.
- More tolerant of stress than Rex begonias for less shrink.
- Retailers appreciate the longer sales window and versatility for outdoor container and indoor potted plant sales.
- Lets consumers extend their enjoyment by bringing plants indoors at the end of the season.

Use Blutopia Bacopa in stunning Fuseables Combos like this!

Fuseables Healing Waters, see page 234.

Dragon Wing Pink

Dragon Wing Red

**BEGONIA**   
*Begonia x hybrida*

**BabyWing® Series F1**

**Height:** 12 to 15 in./30 to 38 cm  
**Spread:** 10 to 12 in./25 to 30 cm  
**Seed supplied as:** Pelleted

**Plug crop time:** 7 to 8 weeks  
**Transplant to finish:** 5 to 7 weeks

- BabyWing is not daylength sensitive, so it is the first interspecific begonia to market.
- Upright, mounded, controlled plants stand up to shipping.
- Easy, season-long performance in landscapes and containers.
- Heat tolerant and handles stressful conditions well.

**Bicolor** Novel colour pattern with a hint of "orange glow." Slightly smaller flowers than others in the series, but very floriferous for the same overall flower power.

**Red** Green leaves can show red picotee edge when young.

**White** May show a slight pink blush in full sun. Well-matched to Pink.

**Dragon Wing® Series F1**

**Height:** 12 to 15 in./30 to 38 cm  
**Spread:** 15 to 18 in./38 to 46 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 7 to 8 weeks  
**Transplant to finish:** 7 to 9 weeks

- Grows lush and vigorous in southern U.S. heat and under cool, stressful conditions of northern Europe and Canada.
  - Unique and beautiful arching, pendulous habit is spectacular in hanging baskets, large containers and commercial landscaping plantings.
  - Angel-wing leaves and large blooms give Dragon Wing a dramatically different look.
  - Easy to grow from pelleted seed, it surpasses vegetative varieties for branching, vigour and "flower power."
  - Features best-in-class "bulletproof" performance, fast fill-in and an easy-care nature.

Megawatt is retail-ready in 6-in./15-cm pots and larger.

**MEGAsize +  
MEGAcoulour =  
MEGAsales!**

This fresh, high-energy begonia option has quickly proven itself in the marketplace with great timing benefits and ultimate garden power. These bigger-than-life hybrids offer amazing colour to early-bird gardeners.

Look to PanAmerican Seed for your complete interspecific program, starting with fastest-to-market **BabyWing** for day-neutral growing... **Megawatt** for big Spring sales... and main-season **Dragon Wing** to round out the season.

**BEGONIA**   
*Begonia interspecific*

**Megawatt™ Series F1**

**Height:** 20 to 28 in./51 to 71 cm  
**Spread:** 16 to 24 in./41 to 61 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 7 to 8 weeks  
**Transplant to finish:** 7 to 9 weeks

- Striking, non-stop flowers keep plants covered in huge colour from Spring through Autumn... even in heat and drought.
- Sturdy flower stems hold flowers above the foliage for superior show versus others.
- Shows well at retail and perfect for landscapes, baskets, big tubs and borders.

**New Pink Bronze Leaf Improved**  
Features darker bronze foliage and no green leaf off-types, with a more intense pink bloom colour and no shading.

**Pink Green Leaf A** "must-have" colour for retail programs. More uniform than the competition, with similar or earlier timing.

### Big, bold begonias

AmeriHybrid tuberous begonias provide a wide selection of colours, including unique bicouours, along with some of the world's largest blooms! This exciting collection can be sold at a premium price point at retail, and it results in faster turnover in the market.

### TUBEROUS BEGONIA *Begonia x tuberosa*

#### AmeriHybrid® Picotee Series F1

**Height:** 14 to 20 in./36 to 51 cm  
**Spread:** 10 to 12 in./25 to 30 cm  
**Flower size:** 4 to 8 in./10 to 20 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 7 to 8 weeks

**Transplant to finish:**  
11 to 15 weeks

- The AmeriHybrid Picotee varieties have large, 4 to 8-in./10 to 20-cm, bicouour blooms.
- The Picotee Lace types are an inverted variety of a normal picotee; these blooms have light edges on dark-coloured petals.

**Calypso** White with a salmon-coral edge.

**Flamenco** White with a thick, red edge and speckles.

**Lace Apricot** Apricot blooms with a white edge.

**Lace Pink** Pink blooms with a white edge.

**Lace Red** Red blooms with a white edge.

**Sunburst** Yellow and orange/peach/apricot blooms with a red edge.

**White Pink** White with a pink edge.

AmeriHybrid Ruffled Series

World's largest blooms - up to 9 in./23 cm!

Flower size: 5-9 in./13-23 cm

TUBEROUS BEGONIA continued

**AmeriHybrid® Ruffled Series F1**

**Height:** 14 to 20 in./36 to 51 cm  
**Spread:** 10 to 12 in./25 to 30 cm  
**Flower size:** 5 to 9 in./13 to 23 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 7 to 8 weeks  
**Transplant to finish:** 11 to 15 weeks

- At 5 to 9 in./13 to 23 cm each, AmeriHybrid Ruffled begonias boast the largest blooms in the world! That's the result of over 100 years of patient breeding and hybridising.
- Each flower has a highly consistent double shape.

**On Top Fandango**

**On Top Sun Glow**

**Sun Dancer Apricot**

**On Top Melon Lace**

**On Top Sunset Shades**

**Sun Dancer Pink**

**Sun Dancer Scarlet Orange**

**On Top Pink Halo**

**Sun Dancer White**

**Sun Dancer White Pink Picotee**

**On Top® Series F1**

**Height:** 10 to 12 in./25 to 30 cm  
**Spread:** 10 to 12 in./25 to 30 cm  
**Flower size:** 2 to 5 in./5 to 13 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 7 to 8 weeks  
**Transplant to finish:** 8 to 13 weeks

- Offering a collection of novelty colours, the On Top varieties tolerate more heat and sunlight than other begonias.
- Mounded plants show off many 2 to 5-in./5 to 13-cm flowers.
- On Top begonias bloom early and flower longer than other varieties.

**Fandango**  
 White with a salmon-coral edge.

**Melon Lace**  
 Melon with a white edge.

**Pink Halo**  
 White with a deep pink edge.

**Sun Glow**  
 Golden yellow with a red edge.

**Sunset Shades**  
 Yellow with a red edge.

**Sun Dancer™ Series F1**

**Height:** 10 to 12 in./25 to 30 cm  
**Spread:** 12 to 16 in./30 to 41 cm  
**Flower size:** 3 to 6 in./8 to 15 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 7 to 8 weeks  
**Transplant to finish:** 9 to 13 weeks

- Double-flowered plants produce more blooms that are larger than other varieties, with a bloom size of 2 to 5 in./5 to 13 cm.
- Because of its excellent branching habit, Sun Dancer fills a hanging basket quickly and cascades up to 16 in./41 cm.

**Salmon** More vigorous, with longer flower stems compared to the rest of the series.

**Scarlet Orange** More vigorous, with longer flower stems compared to the rest of the series.

**White Pink Picotee**  
 White with a pink edge.

**Yellow Red Picotee**  
 Yellow with a red edge.

**Sun Dancer Red**

**Sun Dancer Yellow**

**Crave™ Strawberry Star F1**

**Height:** 10 to 14 in./25 to 36 cm

**Spread:** 12 to 16 in./30 to 41 cm

**Seed supplied as:** Precision Multi-Pellets

**Plug crop time:** 5 to 8 weeks

**Transplant to finish:** 7 to 11 weeks

- The *first star pattern in seed calibrachoa!* Flower colour may shade slightly. Under warmer night conditions, the strawberry colour may become lighter, while maintaining a consistent star pattern.
- Plants have good vigour, with a uniformly branched and controlled habit.
- Seed form makes it easy to order and ready to ship, fits right into mechanized production and assures easy inventory management.
- Grows more vigorously than the Kabloom varieties.
- Requires 12-hour daylength for best flowering.

Kabloom Cherry, Orange and Yellow

**Kabloom™ Series F1**

**Height:** 8 to 12 in./20 to 30 cm  
**Spread:** 10 to 14 in./25 to 36 cm

**Seed supplied as:**  
 Precision Multi-Pellets

**Plug crop time:** 5 to 8 weeks  
**Transplant to finish:** 7 to 11 weeks

- The first-of-its-kind Kabloom series includes a full range of colours and the convenience of Precision Multi-Pellets.
- The ideal input for grower choice premium quarts. Also well-suited to 4 to 6-in./10 to 15-cm pots, hanging baskets and mixed combos.
- Seed form makes it easy to order and ready to ship, fits right into mechanized production and assures easy inventory management.
- Bushy, trailing plants show off abundant, bright blooms in core solid colours.

**Blue** Clear, mid-blue with a small, yellow throat; darker blue than Denim. Moderate plant vigour. 10.5 hours daylength required.

**Cherry** Warm cherry-rose with a small, rose ring and a small, yellow throat. Colour may become slightly lighter in high light and warm night conditions. Moderate plant vigour. 11 hours daylength required.

**Coral** Warm coral-salmon with a small, yellow throat. Colour can shade to slightly lighter in warmer and higher light conditions. Moderate plant vigour.

11 hours daylength required.

**Denim** Flat, mounded plants produce flowers with darker blue tones under lower light and cooler conditions. The blooms age to silver-blue under higher light and warmer conditions. 11 hours daylength required. The most prostrate in the series, with a height of 6 to 10 in./15 to 25 cm.

**Light Pink Blast** Light pink with a rose-red ring at the base of the petal and a small, yellow throat. Moderate and slightly variable plant vigour. Slight shading from light pink to soft coral-pink. 11.5 hours daylength required.

**Orange** Clear, bright orange with a darker orange ring at the base of the petal and a small, yellow throat. Moderate plant vigour. 10.5 hours daylength required.

**Pink** Vibrant, clear pink with a rose ring and a medium-sized, yellow throat. Moderate vigour with a more upright and mounded plant structure. 11 hours daylength required.

**White** Clear, bright white with a small yellow throat. Moderate plant vigour better matches the series. 10.5 hours daylength required.

**Yellow** More upright plant structure. 10 hours daylength required.

Denim

**Create colourful Fuseables Combos like this with Kabloom Calibrachoa!**

Fuseables Paradise Island, see page 235.

**Ease and efficiency, at your fingertips!**

Kabloom, the first seed calibrachoa, lets you schedule based on your needs, not on cutting availability dates. You can still receive product when the weather holds up vegetative shipments. Best of all...grown side by side with vegetative varieties, it's impossible to tell the difference.

Dracula

**CELOSIA** ●  
*Celosia cristata*

**Dracula**

Height: 8 to 16 in./20 to 41 cm  
Spread: 8 to 12 in./20 to 30 cm

Seed supplied as: Pelleted

Plug crop time: 3 to 4 weeks  
Transplant to finish: 6 to 8 weeks

- First-of-its-kind novelty celosia shows one big flower atop the plant.
  - In the greenhouse, flower is red and foliage is green with some red. Outdoors, foliage is darker and more purple-toned and flower is darker purple.
  - Unusual shape and eye-catching colour add drama to landscapes, gardens and containers.
  - Good mid-height border plant.
- NOTE: Shorter growth in high light.

PanAmerican Seed offers you two distinctive types of *C. plumosa* - our shorter Ice Cream series and mid-height First Flame series - to create a winning lineup that meets your bedding and landscape celosia needs.

**CELOSIA** ●  
*Celosia plumosa*

**First Flame™ Series**

Height: 10 to 14 in./25 to 36 cm  
Spread: 10 to 16 in./25 to 41 cm

Seed supplied as: Pelleted

Plug crop time: 3 to 4 weeks  
Transplant to finish: 8 to 10 weeks

- Excellent, brightly coloured Summer crop finishes 10 to 14 days earlier than competing varieties to reduce production costs.
- Branches like a regular *C. plumosa* to produce full blooms.
- Uniform across all colours for a fuller look in containers.
- Ideal for Asian and southern markets.
- Makes a great border plant; also good in containers.

**Purple** Unique colour to this type of celosia. About 1 week earlier to flower, with a thicker plume compared to First Flame Red, Yellow and Scarlet. Non-fading in high light/high heat.

**Scarlet** Model for the series features outstanding, bright colour and great habit - fits well with Red and Yellow. Colour holds very well in sun/high light levels.

**Mixture** Red, Yellow, Scarlet.

**Ice Cream Series**

Height: 12 in./30 cm  
Spread: 10 in./25 cm

Seed supplied as: Pelleted

Plug crop time: 3 to 4 weeks  
Transplant to finish: Packs, 8 to 10 weeks; 4 to 5-in./10 to 13-cm pots, 9 to 12 weeks

- Heat-tolerant, long-lasting series stands tough when temperatures rise - Ice Cream won't melt in the sun!
  - Early, compact and well-branched plants are stunning in patio planters and gardens.
  - Produces large, tight flower heads in strong colours for striking sales appeal.
  - Versatile - great for bench-run pack and small pot programs.
- Salmon** Clear salmon colour on a very good plant habit - one of the models for the Ice Cream series. Good colour for mixes.

**CUT FLOWER CELOSIA**

**Sunday Series**, page 179.

**CELOSIA (FOLIAGE)** ●

*Celosia argentea*

**Sol™ Collection**

- An attractive late-flowering, foliage celosia collection for the market!
- Offers relatively fast production time and no downy mildew issues.

**Gekko Green**

**Height:** 10 to 14 in./25 to 36 cm  
**Spread:** 10 to 16 in./25 to 41 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 3 to 4 weeks  
**Transplant to finish:** Spring, 7 to 10 weeks

- Foliage tends to be more green when kept indoors, and it turns to burgundy when the plant is left outdoors for at least 1 to 2 weeks.

**Lizzard Leaf**

**Height:** 10 to 14 in./25 to 36 cm  
**Spread:** 10 to 16 in./25 to 41 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 3 to 4 weeks  
**Transplant to finish:** Spring, 7 to 10 weeks

- Foliage tends to be more green when kept indoors, and it turns a vibrant burgundy-red when the plant is outdoors for at least 1 to 2 weeks.
- Lizzard Leaf's foliage tends to curl due to genetic factors and can be modified by the climate conditions found in different locations in different degrees, in both indoor and outdoor environments.

**Sun-loving foliage celosia brings colour and texture to containers**

With limited options for attractive foliage plants from seed, growers often turn to coleus to add interest and texture to containers. The Sol™ Collection is a fantastic foliage celosia with relatively fast production time and no downy mildew issues. It holds well at retail and expands the options for consumers looking for sun-loving foliage accent plants for patio planters with a different texture and look, as well as for quick-growing, low, shrub-like plants that look great at the front of the border.

Crimson Gold

Chocolate Covered Cherry

Chocolate Mint

Dark Chocolate

**PREMIUM SUN COLEUS**    
*Solenostemon scutellarioides*

Show-stopping colours... bold patterns... rich textures: Pro landscapers and gardeners love these centre stage varieties for their great looks and reliable performance in sunny gardens and patio planters. Our Premium Sun Coleus can tolerate full sun in regions of high relative humidity such as Hardiness Zones 9 and 10. Foliage will scorch in full sun with low relative humidity. All are suitable for shade.

All Premium Sun Coleus are supplied as pelleted seed.

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 6 to 8 weeks

**Chocolate Covered Cherry**

**Height:** 12 to 14 in./30 to 36 cm  
**Spread:** 10 to 12 in./25 to 30 cm

- Boldly patterned, multi-coloured foliage makes a great companion to our other "chocolate" coleus: Chocolate Mint and Dark Chocolate.
- Non-fading colour pattern: rose centre on each leaf is surrounded by deep mahogany and edged with green.
- Late flowering and dwarf size are adaptable to pack and pot programs.
- Performs well in planters and small gardens in sun and shade.

**Chocolate Mint**

**Height:** 14 to 20 in./36 to 51 cm  
**Spread:** 12 to 14 in./30 to 36 cm

- Easy-to-grow, dark-leaved plants show off a rich chocolate colour, with each mid-size leaf finely edged in mint green.
- Upright accent plants are well-suited to in-ground plantings and large containers.

**Crimson Gold**

**Height:** 14 to 18 in./36 to 46 cm  
**Spread:** 14 to 18 in./36 to 46 cm

- Well-branched, vigorous plants show off beautiful, bicolor foliage all season.
- Versatile variety thrives in sun and shade.
- Deep red leaves with golden-green edge.
- Late flowering.

**Dark Chocolate**

**Height:** 24 to 30 in./61 to 76 cm  
**Spread:** 18 to 24 in./46 to 61 cm

- Upright accent plants have mid-size leaves in a rich mahogany brown. Slight touches of burgundy appear, especially in full-sun conditions.
- A good choice for large mixed containers and in-ground plantings.
- Rich mahogany brown partners well with many colour schemes.

Lime Delight

**Lime Delight**

**Height:** 28 in./71 cm  
**Spread:** 18 to 22 in./46 to 56 cm

- Bright foliage is the centre of attention in designer gardens.
- Vibrant, lime green to golden colour plays well with others.

**Mighty Mosaic**

**Height:** 18 to 26 in./46 to 66 cm  
**Spread:** 18 to 22 in./46 to 56 cm

- Striking, multi-coloured foliage assures mighty retail appeal.
- Very late-flowering variety is great in the shade and tolerates sun under high humidity.
- Landscape coleus meets retailer and consumer demand for longevity and versatility.

**Watermelon**

**Height:** 20 in./51 cm  
**Spread:** 18 to 22 in./46 to 56 cm

- Watermelon-coloured leaves with green edges in cool conditions mature to deep pink under warmer conditions.
- Can be used in sunny or shady landscapes.
- Beautifully coloured foliage with late flowering.

Mighty Mosaic

**Pineapple Surprise**

**Height:** 18 to 26 in./46 to 66 cm  
**Spread:** 18 to 22 in./46 to 56 cm

- Unique and versatile tricolour pattern: iridescent chartreuse and deep burgundy hearts are splashed with chartreuse and green. The surprise: Up to 3% of plants can show primarily darker green/burgundy bicolor instead of chartreuse.
- Stable colour/pattern all season like similar vegetative varieties.
- Very late flowering for longer-lasting performance and holds very well in extreme weather.

**Rose to Lime Magic**

**Height:** 24 in./61 cm  
**Spread:** 18 to 22 in./46 to 56 cm

- Unique variety changes colour as the season progresses – rose colour in leaves eventually dissolves, exposing green margins and cream centres.
- Bred to perform in full sun and full shade.
- Late to flower, allowing patterned foliage to shine all season long.
- Well-branched and vigorous in the landscape.

**Kong® Series**   

**Height:** 18 to 20 in./46 to 51 cm  
**Spread:** 15 to 18 in./38 to 46 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 3 to 4 weeks

- Extremely large leaves and unique patterns on well-branched plants.
- Excellent shade alternative for large containers, large mixed combos and landscapes.
- Also works in indoor plant programs.
- Prefers full shade for best performance.

KONG Mosaic, Red and Rose are bred by Sakata Seed Corporation.

**Lime Sprite** Can show rose midrib in deepest shade; flowers at the late end of the series, similar to Red.

**Empire Mixture** Contains all 6 colours.

**Kong Jr.™ Series**   

**Height:** 18 to 24 in./46 to 61 cm  
**Spread:** 20 to 35 in./51 to 89 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 3 to 4 weeks

- Kong Jr.'s heart-shaped leaves are 30% smaller than Kong's, but just as stunning. They make Kong Jr. easier to ship, with less breakage and less loss.
- Leaf size is well-matched across the series.
- Well-branched, tidy habit is irresistible to shoppers.
- Performs well in landscapes, patio planters and mixed containers.
- Adds unique colours and patterns not available in Kong series.
- Also works in indoor plant programs.

**Lime Vein** Shows less veining and less to no rose midrib in the mahogany heart under brighter shade. In deeper shade, vein pattern is stronger and rose may appear in the mahogany heart at midrib.

*Solenostemon scutellarioides*

**Black Dragon** 

Height: 12 to 14 in./30 to 36 cm  
Spread: 10 to 12 in./25 to 30 cm

Seed supplied as: Raw

Plug crop time: 5 to 6 weeks  
Transplant to finish: 5 to 6 weeks

- Exotic, serrated leaves and unusual texture set this variety apart from other coleus.
- Deep red colour with a purplish-black edge.
- Outstanding in packs or pots.

**Wizard® Series** 

Height: 12 to 14 in./30 to 36 cm  
Spread: 10 to 12 in./25 to 30 cm

Seed supplied as: Raw

Plug crop time: 5 to 6 weeks  
Transplant to finish: 7 to 9 weeks

- Low-maintenance, uniform and basal-branching plants are late-flowering, extending their landscape value.
- Mid-sized leaves.
- Great for packs.
- Useful for indoor plant programs.

**Coral Sunrise** Can start out salmon-pink under cooler conditions and mature to lighter pink when warmer. Good in sun.

**New Select Mixture Improved** Less sensitive to downy mildew, with a more attractive colour combination and a better colour balance than the competition. Replaces Mixture. Includes Coral Sunrise, Jade, Mosaic, Scarlet, Sunset and Velvet Red.

**COSMOS**   
*Cosmos sulphureus*

**Mandarin**

Height: 10 to 12 in./25 to 30 cm  
Spread: 6 to 8 in./15 to 20 cm

Seed supplied as: Raw

Plug crop time: 3 to 4 weeks  
Transplant to finish: 5 to 7 weeks

- Mandarin has a deeper orange colour, a better habit and is more uniform compared to competing varieties.
- Slightly more compact variety has a more mounded shape.

*Cosmos bipinnatus*

**Sonata™ Series**

Height: 24 in./61 cm  
Spread: 12 to 14 in./30 to 36 cm

Seed supplied as: Raw

Plug crop time: 4 to 5 weeks  
Transplant to finish: 6 to 7 weeks

- The best-performing garden cosmos.
- Extremely easy to grow; professional growers choose Sonata because of its capabilities for blooming in the pack and pot.
- Recommended for 5 to 6-in./13 to 15-cm pots.

**Purple Shades** Unique variety shows off shades of purple that hold colour well in high light.

**Complete Mixture** Offers the most complete colour range in *Cosmos bipinnatus*, adding the unique Purple Shades and Red Shades into the mix.

**Antiquity**

Height: 20 to 30 in./51 to 76 cm  
Spread: 12 to 14 in./30 to 36 cm

Seed supplied as: Raw

Plug crop time: 4 to 5 weeks  
Transplant to finish: 6 to 7 weeks

- 2-in./5-cm flowers open rich burgundy and mature to antique bronze-salmon.
- Very early and floriferous.
- Well-suited to 3.5 to 4-in./9 to 10-cm pots.

**CROSSANDRA** ●

*Crossandra infundibuliformis*

**Tropic Series**

Height: 10 in./25 cm  
Spread: 8 in./20 cm

Seed supplied as: Raw

Plug crop time: 6 to 7 weeks  
Transplant to finish: South, 10 to 11 weeks

- Heat-tolerant continuous bloomer makes a premium landscape plant in tropical and semi-tropical areas from Florida to southern Asia.

**Yellow Splash** Flowers mature quickly to cream with yellow base in Florida trials.

**CUPHEA** ●

*Cuphea ignea*

**Dynamite**

Height: 8 to 10 in./20 to 25 cm  
Spread: 10 to 12 in./25 to 30 cm

Seed supplied as: Raw

Plug crop time: 5 to 6 weeks  
Transplant to finish: 6 to 7 weeks

- Well-suited to solo and mixed containers.
- Also works in indoor plant programs.

**CUPHEA** ●●

*Cuphea ramosissima*

**Pink Shimmer**

Height: 10 to 16 in./25 to 41 cm  
Spread: 12 to 18 in./30 to 46 cm

Seed supplied as: Precision Multi-Pellets

Plug crop time: 4 weeks  
Transplant to finish: 5 to 11 weeks

- Pink Shimmer can be easily sown for efficient plug production.
- Offers improved natural branching over other varieties.
- A profusion of petite flowers cover the delicate leaves all Summer long.
- Great for use in combinations of all kinds.
- This reblooming gem requires no deadheading and looks great even under hot conditions.

**Spread:** 9 to 13 in./23 to 33 cm

**Seed supplied as:** Raw

**Plug crop time:** 8 to 9 weeks  
**Transplant to finish:** 19 to 20 weeks

- Specially bred and selected to deliver the best outdoor performance of any cyclamen.
- Pro landscapers and home gardeners alike can now confidently plant cyclamen in-ground and count on better, longer performance.
- Sow all colours at the same time to ship and sell together.

**Deep Burgundy** Unique colour for the outdoor cyclamen market.

**Deep Rose** Unique colour for outdoor and landscape use. The model for the series, Deep Rose is outstanding in landscape and garden beds.

**Salmon Eye** Large, dark salmon flowers with very nice eye, on a slightly larger plant than the other Dreamscape varieties.

**Dark Flamed Mixture** Well-balanced mix of dark flamed colours.

**New Mixture** An attractive mix of well-matched colours.

**INTERSPECIFIC DIANTHUS** ●  
*Dianthus barbatus interspecific*

**Jolt™ Series F1**

**Height:** 16 to 20 in./41 to 51 cm  
**Spread:** 12 to 14 in./30 to 36 cm  
**Flower size:** 1 in./3 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 4 to 5 weeks

**Transplant to finish:**  
Late Spring through Autumn finish, 11 to 13 weeks; Winter finish, 14 to 18 weeks

- **Shocking Summer Colour** from the most heat-tolerant Interspecific Dianthus!
- Electrifying colours and all-season performance make Jolt stand out in landscapes and premium containers.
- Highly durable plants withstand hot conditions with few disease issues and continue to flower without setting seed.
- Grower-friendly, well-branched plants are easy to produce with less to no PGRs.

- Perfect for Summer premium grower choice quarts and gallons to command a higher price point.
- Strong dark green foliage.
- Performs as a semi-hardy annual in Zone 7 (0°F/-18°C minimum temperature) and milder.
- **All-America Selections National Winner** Jolt Pink continues to stir up consumer excitement with extra publicity and promotion.

**2019 Louisiana State University Super Plant**  
**Pink Magic** Flowers open white, then light pink, and mature to dark pink; optimal colour pattern results from high light and cool night temperatures.

**New Purple** Drive-by bright! Stunning Purple has a bloom size and landscape performance to match the rest of the series.

Dash Mixture

Dash Magician

Dash Pink

Dash Violet

Dash White

Dash Crimson

Dynasty White Blush

**SINGLE DIANTHUS** ●

*Dianthus barbatus*

**Dash™ Series F1**

**Height:** 15 to 20 in./38 to 51 cm

**Spread:** 12 to 14 in./30 to 36 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 4 to 5 weeks

**Transplant to finish:** Late Spring/early Summer, 9 to 10 weeks; late Summer/Winter, 11 to 12 weeks

- The best *D. barbatus* for premium container sizes.
- Well-branched and moderate vigour for fast fill in early Spring and Autumn production. Responds well to PGR where needed.
- Sweet William-type dianthus requires no vernalisation for flowering.
- Produces masses of fragrant blooms.
- Low-energy crop can be grown cool for cost savings.

**Magician** Flowers open white and mature to shades of rose.

**DOUBLE DIANTHUS** ●

*Dianthus barbatus interspecific*

**Dynasty Series F1**

**Height:** 16 to 20 in./41 to 51 cm

**Spread:** 10 in./25 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 4 to 5 weeks

**Transplant to finish:** 8 to 9 weeks

- Very well-branched, upright and strong-stemmed, these excellent landscape and garden performers double as a great backyard cut flower.
- Fast-blooming plants respond well to growth regulators applied for potted plant height and tighter umbels.
- Performs as a perennial in USDA Hardiness Zones 6a to 9b (-10 to 25°F/-23 to -4°C minimum temperature).

**Pink Magic** Flowers open white, then light pink, and mature to dark pink; optimal colour pattern results from high light and cool night temperatures.

**White Blush** White with attractive rosy-pink blush that varies with environmental conditions.

**Crowned with huge flower power**

Wow 'em with the biggest blooms of any dianthus of this type... exceptional flower form... and a palette of showstopping colour choices.

Coronet adds a regal touch to cool-season landscapes, gardens and patio planters.

**SINGLE DIANTHUS** ●

*Dianthus chinensis*

**Coronet™ Series F1**

**Height:** 8 to 10 in./20 to 25 cm

**Spread:** 8 to 10 in./20 to 25 cm

**Flower size:** 2 to 3 in./5 to 8 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 4 to 6 weeks

**Transplant to finish:** 6 to 8 weeks

- At 2 to 3 in./5 to 8 cm, Coronet's blooms are larger than the competition, plus it offers uniform flowering time and habit.

- Produces multiple flowers on a compact, mounded plant.

- Gives its best performance in cool weather, making it great planted along with other cool-season annuals such as pansies.

**Cherry Red** Solid cherry colour; some flowers show a darker red centre.

**Rose** Solid rose colour, with some blooms showing a darker centre.

**Strawberry** Variable pattern in coral/salmon shades. Some flowers are solid coral, some are coral bicolor and some have a darker coral picotee against a lighter background.

**White** Clean, clear white.

**Mixture** Brighten colour bowls and gardens with this mix of Cherry Red, Rose, Strawberry and White. Huge flower size and uniformity make it the best choice in this class of dianthus.

**Figaro™ Series**

**Height:** 14 to 18 in./36 to 46 cm  
**Spread:** 10 to 12 in./25 to 30 cm

**Seed supplied as:** Raw  
**Plug crop time:** 4 to 5 weeks  
**Transplant to finish:** 5 to 6 weeks

- Premium pack item is ideal for borders and containers.
  - Each variety contains several shades of that colour.
- Mixture** Contains 100% semi-double and fully double flowers.

**DICHONDRA**   
*Dichondra argentea*

**Silver Falls**   

**Height:** 2 to 3 in./5 to 8 cm in the ground  
**Spread/Length:** 3 to 4 ft./91 cm to 1.2 m; up to 6 ft./1.8 m in areas with a longer growing season

**Seed supplied as:** Raw  
**Plug crop time:** 5 weeks  
**Transplant to finish:** 6 to 7 weeks

- True cascading habit is excellent for mixed containers or hanging baskets.
- Performs as a low-growing groundcover, but requires well-drained soils.
- Also well-suited to indoor plant programs.
- Very heat and drought tolerant.
- No pinching needed.

**DICHONDRA**   
*Dichondra repens*

**Emerald Falls**   

**Height:** 2 to 4 in./5 to 10 cm in the ground  
**Spread/Length:** 36 in./91 cm

**Seed supplied as:** Multi-Seed Pellets  
**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 7 to 8 weeks

- Denser, tighter and shorter than Silver Falls, without pinching or PGRs.
- Medium green leaves are more rounded and held closer to the stem.
- Good for hanging baskets.
- Also performs well as a heat-tolerant, low-growing groundcover.

**DIGITALIS**  
See Perennials, page 139.

**Spread:** 15 to 24 in./38 to 61 cm

**Seed supplied as:** Raw

**Plug crop time:** 3 to 4 weeks  
**Transplant to finish:** 5 to 8 weeks

- The best variety for in-ground performance.
- Early to flower, with the vigour to hold up to a range of weather challenges.
- An exceptional choice for a 'Baby's Breath Gypsophila' like application in the landscape.
- Use with vigorous plants like Tidal Wave® Red Velour Petunia for a stunning combination in-ground, or weave like a cloud-like hedge through more bold-textured annuals for great contrast.

Glitz Euphorbia

**Glitz F1**  
**Height:** 10 to 14 in./25 to 36 cm  
**Spread:** 12 to 18 in./30 to 46 cm

**Seed supplied as:** Raw

**Plug crop time:** 4 to 5 weeks  
**Transplant to finish:** 5 to 8 weeks

- Delivers the performance of its vegetative counterparts without the headaches.
- The perfect habit for premium mixed containers.
- Easy to grow - no pinching needed.
- Suitable for grower choice premium quarts.

Lucius Luzula

Starhead Juncus

Sirocco Anemanthele

Festina Festuca

Variety/Exposure	Colour group	Height	Spread	USDA Zones	Containers	Plug crop time (weeks)	Transplant to finish (weeks)	Features
<b>LOW HABIT (2 to 8 in./5 to 20 cm)</b>								
<b>Luzula Lucius</b> ●●● <i>L. nivea</i>	Green	6-12 in./ 15-30 cm	18 in./46 cm	4-9	4 in./10 cm, 6 in./15 cm*, Gallon	4-7	8-9	Upright and arching evergreen grass has flat, mid-green leaves fringed in white hairs. Small, white flowers in spiky inflorescences in Spring/early Summer. Flourishes in damp, shady areas.
<b>MEDIUM HABIT (8 to 18 in./20 to 46 cm)</b>								
<b>Juncus Starhead</b> ●●● <i>J. ensifolius</i>	Green	8-10 in./ 20-25 cm	8-10 in./ 20-25 cm	4-10	4 in./10 cm, 6 in./15 cm*, Gallon	6-7	7-8	Compact variety displays green, broad-leaved foliage and long-lasting, dark green star inflorescences.
<b>Anemanthele Sirocco</b> ●●● <i>A. lessoniana</i>	Green/ Brown	12-14 in./ 30-36 cm	22-24 in./ 56-61 cm	7-10	4 in./10 cm, 6 in./15 cm*, Gallon	5-6	6-8	The only pink grass from seed - colour turns to shades of copper and pink under cool conditions, natural sunlight and maturity. Adds movement and texture to landscapes, gardens, mixed containers and baskets.
<b>Festuca Festina</b> ●●● <i>F. cinerea (F. glauca)</i>	Green	12-18 in./ 30-46 cm	10-15 in./ 25-38 cm	4-10	4 in./10 cm, 6 in./15 cm*, Gallon	6-7	6-7	Very cold-hardy variety produces dense, compact tufts of blue-green, with small, upright brown plumes from Summer to Autumn.

In addition to our ColorGrass Collection, PanAmerican Seed offers Juncus Fuseables Twisted Arrows (page 235).

ColorGrass ornamental grasses bring patios and landscapes to life.

Pony Tails Stipa with Emerald Falls and Silver Falls Dichondra and New Day Clear Orange Gazania

Blue Dart Juncus

Twister Juncus

Pony Tails Stipa

Variety/Exposure	Colour group	Height	Spread	USDA Zones	Containers	Plug crop time (weeks)	Transplant to finish (weeks)	Features
<b>MEDIUM HABIT (8 to 18 in./20 to 46 cm)</b>								
<b>Juncus Blue Dart</b> ●● <i>J. tenuis</i>	Green	14-16 in./ 36-41 cm	10-12 in./ 25-30 cm	4-10	4 in./10 cm, 6 in./15 cm*, Gallon	6-7	7-8	Linear blue foliage adds texture to small containers and in-ground planting. Strong vertical habit - faster, more reliable alternative to spike dracaena. Easy-care and adaptable to a wider range of conditions, including standing water and drought. Attractive indoor or water plant. Great retail shelf life.
<b>Juncus Twister</b> ●● <i>J. effusus spiralis</i>	Green	12-14 in./ 30-36 cm	12-14 in./ 30-36 cm	5-9	4 in./10 cm, 6 in./15 cm*, Gallon	7-8	6-7	Unusual juncus is economical and easy to grow - a fun addition to mixed containers. Shoppers love the small, curly green leaves of this upright plant. Can be grown as a "mini" for expanded sales opportunities. Also thrives in wet conditions, making it a useful pond plant.
<b>TALL HABIT (18 in./46 cm and taller)</b>								
<b>Stipa Pony Tails</b> ● <i>S. tenuissima</i> (Mexican Feather Grass)	Green	16-24 in./ 41-61 cm	24 in./61 cm	6-10	4 in./10 cm, 6 in./15 cm*, Gallon	5-6	7-10	Upright grass has fine, needlelike green foliage, with silky green flowers in July that mature to golden blonde.

New Day Bright Mixture

**GAZANIA** ●  
*Gazania rigens*

**New Day® Series F1**

**Height:** 8 to 10 in./20 to 25 cm

**Spread:** 6 to 8 in./15 to 20 cm

**Seed supplied as:** Coated

**Plug crop time:** 4 to 5 weeks

**Transplant to finish:** 8 to 9 weeks

- More uniform flowering than competing varieties, with larger flowers and better plant habits.
- Compact, sturdy, high-quality plants are easy to produce and super-holdable at retail.
- Bred to deliver shorter peduncles and beefier-looking plants.
- Well-suited to high-density pack and small container production.
- Drought-tolerant series performs beautifully in containers and baskets, and as a garden edging or groundcover.

**Bright Mixture** Bronze Shades, Yellow, Clear Orange, Pink Shades.

**Tiger Mixture** Red Stripe and Rose Stripe.

Fireworks Gomphrena

QIS Carmine Gomphrena  
Fleuroselect Quality Mark

Sunshine Mixture Gazania

QIS Orange Gomphrena

QIS Red Gomphrena

**TETRAPLOID GAZANIA** ●  
*Gazania rigens*

**Sunshine Mixture**

Height: 12 in./30 cm  
Spread: 6 to 8 in./15 to 20 cm

Seed supplied as: Raw

Plug crop time: 4 to 5 weeks  
Transplant to finish: 9 to 10 weeks

- Long-blooming mix includes cream, yellow, orange, pink and red shades, with some striped flowers.
- Upright plants are excellent for the bedding market as a landscape-performing garden plant, with larger flowers and robust growth.

**GOMPHRENA** ●  
*Gomphrena haageana*

**QIS Series**

Height: 24 to 26 in./61 to 66 cm  
Spread: 8 to 10 in./20 to 25 cm

Seed supplied as: Raw

Plug crop time: 5 to 6 weeks  
Transplant to finish: 10 to 12 weeks

- Versatile series works well for landscape and garden use.
- Vivid colour range makes these a Summer-long standout.
- Also as a first-class professional cut flower for greenhouse and outdoor production; suited to fresh and dried use.

Also available: **Mixture**

**GOMPHRENA** ●  
*Gomphrena pulchella*

**Fireworks**

Height: 36 to 48 in./91 to 122 cm  
Spread: 48 in./122 cm

Seed supplied as: Coated

Plug crop time: 5 to 6 weeks  
Transplant to finish: 8 to 9 weeks

- More blooms per plant and unique "scaffolding" habit make Fireworks sparkle at retail, then explode with colour in landscapes and containers.
- Vigorous, "tough as nails" plants are drought tolerant, low maintenance.
- Attractive architectural element for landscapes; also excellent for mixed cut flower bouquets.
- Easy to produce - stays compact as a plug.
- Well-suited to high-margin gallon programs; suitable for field or garden cut flower production.

Silver Mist Helichrysum

Mahogany Splendor Hibiscus

Dakota Gold Helenium  
US PVP 20060009

**HELENIUM** ●  
*Helenium amarum*

**Dakota Gold** 

**Height:** 12 to 14 in./30 to 36 cm  
**Spread:** 24 to 28 in./61 to 71 cm

**Seed supplied as:**  
Multi-Seed Pellets

**Plug crop time:** 3 to 4 weeks  
**Transplant to finish:** 5 to 7 weeks

- Easy-care variety performs from hot and dry to cool and rainy.
  - Strong-growing and compact, mounded plants are covered with bright golden yellow blooms over fine-textured foliage.
  - Quick crop time.
  - Grow under long days for the best habit and vigour.
- North Texas Winner's Circle Award; Japan Flower Selections Certificate of Merit as Best Flower Award*

**HELICHRYSUM** ●  
*Helichrysum microphyllum*  
(*Plectostachys serpyllifolia*)

**Silver Mist** 

**Height:** 6 to 8 in./15 to 20 cm  
**Spread:** 18 to 24 in./46 to 61 cm

**Seed supplied as:**  
Multi-Seed Pellets

**Plug crop time:** 6 to 7 weeks  
**Transplant to finish:** 8 to 9 weeks

- Accent plant for mixed containers and landscapes, as well as an indoor plant.
- Full, mounded and spreading plants branch well without pinching.
- Silver colour intensifies with more light; under lower light, foliage appears more green.

**HEUCHERA**  
See **Perennials**, page 145.

**HIBISCUS** ●  
*Hibiscus acetosella*

**Mahogany Splendor** 

**Height:** 36 to 60 in./91 to 152 cm  
**Spread:** 24 to 30 in./61 to 76 cm

**Seed supplied as:** Raw

**Plug crop time:** 2 to 3 weeks  
**Transplant to finish:** 5 to 6 weeks

- Adds awesome colour and dramatic height to landscapes and containers.
  - Deep burgundy, maple-shaped leaves with serrated edges.
  - Drought and heat tolerant; combines well with other vigorous sun-loving plants in containers.
  - Can be grown directly in the water as a pond plant.
- NOTE:** Foliage will have green/rust tones in the greenhouse, but matures to burgundy in full sun outdoors.

Purple Lady Iresine

**IRESINE**   
*Iresine herbstii*

**Purple Lady** 

**Height:** 6 to 8 in./15 to 20 cm  
**Spread:** 36 to 48 in./91 to 122 cm

**Seed supplied as:** Raw

**Plug crop time:** 4 to 5 weeks  
**Transplant to finish:** 5 to 6 weeks

- Ideal for mixed containers, "solo" hanging baskets or planters, and as a groundcover.
- Also well-suited to indoor plant programs.
- Low and prostrate, spreading plant fills in nicely and cascades as branches get longer and heavier.
- Can withstand more sun in humid areas like Florida.

**ISOTOMA (LAURENTIA)**   
*Isotoma hybrida*

**Gemini Blue F1**

**Height:** 8 in./20 cm  
**Spread:** 10 to 14 in./25 to 36 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 4 to 5 weeks  
**Transplant to finish:** 9 to 10 weeks

- Vigorous, free-flowering variety delivers excellent garden performance, yet keeps a controlled, mounded habit in containers.
- Easy to grow - early and uniform.
- Works well in premium pack and 3.5 to 4-in./9 to 10-cm programs.
- Single, star-shaped blooms over finely cut foliage.

Beacon Series

### High resistance to Impatiens downy mildew!

Bring *Impatiens walleriana* back into production without the risk of disease! Beacon impatiens offers **high resistance** to the currently known and widely prevalent populations of *Plasmopara obducens*, which cause **Impatiens downy mildew**. For lasting colour, you can rely on Beacon impatiens to thrive. Visit [BeaconImpatiens.com](http://BeaconImpatiens.com) for more information.

*Impatiens walleriana*

**Beacon® Series F1**

**Height:** 14 to 18 in./36 to 46 cm  
**Spread:** 12 to 14 in./30 to 36 cm  
**Flower size:** 1.25 to 1.5 in./3 to 4 cm

**Seed supplied as:** Coated

**Plug crop time:** 4 to 5 weeks  
**Transplant to finish:** 3 to 4 weeks

- Beacon impatiens exhibits high resistance to the currently known and widely prevalent populations of *Plasmopara obducens*, which cause Impatiens downy mildew (IDM).
- Beacon impatiens offers the opportunity to bring back into production a well-known, in-demand, easy-to-grow and versatile product for increased sales.
- Extensive trialing has proven that Beacon impatiens provides genetic high resistance to IDM. Beacon is not immune to IDM; there are scenarios where preventative IDM fungicides may be recommended.
- With a plant structure, flowering time, flower size and crop culture that is similar to Super Elfin, Beacon impatiens is easy to incorporate into production planning.
- Fast-filling, season-long colour for gardens and landscapes.

**AFRICAN (AMERICAN) MARIGOLD** ●

*Tagetes erecta*

**Taishan® Series F1**

**Height:** 10 to 12 in./25 to 30 cm  
**Spread:** 8 to 10 in./20 to 25 cm

**Seed supplied as:**  
 Coated, De-tailed

**Plug crop time:** 3 weeks  
**Transplant to finish:** Spring 5 to 6 weeks, Summer 7 to 8 weeks

- Best dwarf African marigold for landscapes - 20% shorter peduncles and 15% thicker stems assure less stretch and breakage.
- Big, tightly petalled blooms on super-strong stems look terrific at retail with less waste, better overhead watering tolerance and longer shelf life.
- Better branching with more aggressive side branching fills packs quickly and delivers a healthier look.
- Larger flowers hold their doubleness and shed water well.
- Performance is so spectacular that Taishan was featured in landscapes at the 2008 Olympic Games in Beijing, China.

**Plug crop time:** 3 weeks  
**Transplant to finish:**  
Premium packs, 3 to 4 weeks;  
Quarts or multi-plants in  
larger pots, 4 to 6 weeks

- Meet the "New World marigolds" - Fireball and companion Strawberry Blonde introduce germplasm never seen before in African or French marigolds that puts multicolour blooms on the same plant.
- Completely new look for premium packs, pots and decorative containers.
- In early Spring growing conditions, flowers age and change colour more slowly for maximum contrast. In warmer conditions, colour changes faster with less distinct contrast.

**Flamenco**

**Height:** 10 to 12 in./25 to 30 cm  
**Spread:** 6 to 8 in./15 to 20 cm  
**Flower size:** 2 to 3 in./5 to 8 cm

**Seed supplied as:**  
Coated, De-tailed

**Plug crop time:** 3 to 4 weeks  
**Transplant to finish:** 3 to 4 weeks  
(cell pack); 4 to 5 weeks  
(quart, 4 in./10 cm)

- With its yellow centre and red-tipped petals, this novelty colour will look great in patio containers and gardens alike.
- This standalone variety in the French Marigold assortment calls out its unique pattern, similar to Fireball and Strawberry Blonde.
- Flamenco is in line with the Bonanza series for habit; flowering time is a few days later.

FULLY DOUBLE  
FRENCH MARIGOLD

**Gate Orange**

**Height:** 10 to 12 in./25 to 30 cm  
**Spread:** 6 to 8 in./15 to 20 cm

**Seed supplied as:** Raw, De-tailed

**Plug crop time:** 3 weeks  
**Transplant to finish:** 4 to 5 weeks

- A good choice for commercial landscapes, featuring round, fully double, 3-in./8-cm flowers that look like small African marigolds.
- Recommended as Summer pot annuals.

**Spread:** 10 to 12 in./25 to 30 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 4 weeks  
**Transplant to finish:** 5 to 7 weeks

- Uniform, grower-friendly varieties in bright colours are ideal for Spring and Autumn premium pack and 4-in./10-cm pot programs.
  - Branches very well without pinching to produce bushy plants that fill out fast and full.
  - Winter flowering will occur in milder temperatures; will also flower lightly in warmer conditions in partial shade.
- NOTE: It is recommended to sow 4 pellets per cell.

**NEMESIA** ●  
*Nemesia strumosa*

**Sundrops Mixture**

**Height:** 10 in./25 cm  
**Spread:** 8 to 10 in./20 to 25 cm

**Seed supplied as:** Raw

**Plug crop time:** 4 weeks  
**Transplant to finish:** 8 weeks

- Diverse colour range - gold, rose, red shades and white - in a wide array of patterns.
- Early-blooming, compact plants are ideal for small containers.
- Useful as a cool-season crop to accompany Spring pansies.
- Timing fits into the cineraria/calceolaria crop time.

**ORNAMENTAL MINT** ●●  
*Mentha requienii*

**Mini Mint**

**Height:** 1 to 2 in./3 to 5 cm  
**Spread:** 6 to 12 in./15 to 30 cm

**Seed supplied as:** Multi-Seed Pellets

**Plug crop time:** 2 to 3 weeks  
**Transplant to finish:** 3 to 4 weeks

**USDA Hardiness Zones:** 6a to 9b (-10 to 25°F/-23 to -4°C minimum temperatures)

- Easy, economical way to grow and sell this attractive, highly fragrant groundcover or small potted plant.
  - Each multi-seed pellet contains 8 to 12 seeds - one plug in a 4-in./10-cm pot delivers a nice fast fill. Can be direct sown.
  - Eliminates dividing, rooting cuttings and broadcasting seed.
  - Healthier, more uniform plants make great-looking 4-in./10-cm pots, mix components and garden specimens. Can also be marketed as a lawn replacement.
- NOTE: Leaves are non-toxic but do not have a palatable flavour.

**ORNAMENTAL OREGANO** ●  
*Origanum x hybrida*

**Kirigami**

**Height:** 8 to 10 in./20 to 25 cm  
**Spread:** 12 to 14 in./30 to 36 cm

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 9 to 11 weeks

- The perfect patio plant, this eye-catching, non-culinary oregano features large purple-green bracts, rose flowers and clear, light green foliage, with a delicious fragrance to attract pollinators.
- Dense, mounded, slightly trailing plant has a tighter and fuller habit than standard vegetative varieties, so it holds better in shipping and on the retail bench.
- Heat and drought tolerant, with an eye-catching display of texture from Spring until Autumn.
- Also perfect for hanging baskets, or in borders and rock gardens; can also be dried for use in dried flower arrangements.
- Higher light and cooler night temperatures accent the purple bract colour.

Copper Prince

Jade Princess

Jester

Purple Baron

Purple Majesty All-America Selections National Winner

**ORNAMENTAL MILLET** 🌈

*Pennisetum glaucum*

Unique accent plants are appealing at retail and make a dramatic statement in mixed containers, gardens and landscapes.

**Copper Prince F1** 🌈

**Height:** 24 to 36 in./61 to 91 cm  
**Spread:** 18 to 24 in./46 to 61 cm

**Seed supplied as:** Raw

**Plug crop time:** 2 to 3 weeks

**Transplant to finish:**  
4 to 5 weeks (green)

- Exciting colour for the only ornamental millet seed assortment on the market. Copper Prince begins as a light caramel colour, deepening to copper as it sends up rosy, foxtail-type panicles.
- Rose-bronze panicles add late Summer interest.
- Wide blades and excellent tillering plus height and spread like Jade Princess make this variety perfect for large containers and landscapes.

**Jade Princess F1** 🌈

**Height:** 24 to 30 in./61 to 76 cm  
**Spread:** 18 to 24 in./46 to 61 cm

**Seed supplied as:** Raw

**Plug crop time:** 2 to 3 weeks

**Transplant to finish:**  
4 to 5 weeks (green)

- Intense chartreuse foliage and rich brown, pollenless panicles have a controlled, mounded shape that is more compact than others in the assortment, so plants ship well.
  - Economical grower option – seed can be direct-sown into finish containers, plants are well-suited to pot sizes up to gallons, and the crop finishes fast.
  - Great tillering, leading to a bushy plant habit that's perfect for large containers and landscapes.
- NOTE: Jade Princess requires warmer temperatures (above 60°F/16°C) than other millets to perform well.

**Purple Majesty** 🌈

**Height:** 48 to 60 in./122 to 152 cm  
**Spread:** 8 to 12 in./20 to 30 cm

**Seed supplied as:** Raw

**Plug crop time:** 2 to 3 weeks

**Transplant to finish:**  
4 to 5 weeks (green)

- Young plants are green. Stem and midrib of the foliage first turn purple after about 8 leaves have developed. Foliage turns dark purple when plants are moved from the greenhouse outside into full sun.
- Also makes a good cut flower.

**Jester F1** 🌈

**Height:** 36 to 48 in./91 to 122 cm  
**Spread:** 10 to 14 in./25 to 36 cm

**Seed supplied as:** Raw

**Plug crop time:** 2 to 3 weeks

**Transplant to finish:**  
4 to 5 weeks (green)

- Young leaves are chartreuse with a subtle burgundy overlay; mature foliage becomes dominantly burgundy especially in full sun. Plants end the season with nearly the same bronze-purple colour as Purple Majesty.
- Jester flowers 7 to 10 days later than Purple Baron and Purple Majesty, and stays compact longer.
- Best grown warm.

**Purple Baron F1** 🌈

**Height:** 30 to 40 in./76 to 102 cm  
**Spread:** 10 to 14 in./25 to 36 cm

**Seed supplied as:** Raw

**Plug crop time:** 2 to 3 weeks

**Transplant to finish:**  
4 to 5 weeks (green)

- Large, thick flower spikes on plants that are better-branched at the base than Purple Majesty.
- Slightly darker purple than Purple Majesty, with leaves that are shorter and wider for easier shipping, on a plant that is about two-thirds the mature height.
- Young plants are green; stem and midrib begin to develop purple colour as they mature.
- Shows best colour in full sun.

**MYOSOTIS**

See **Perennials**, page 153.

**OSTEOSPERMUM** *Osteospermum ecklonis***Akila® Series F1****Height:** 10 to 14 in./25 to 36 cm**Spread:** 14 to 20 in./36 to 51 cm**Seed supplied as:** Raw**Plug crop time:** 4 to 5 weeks**Transplant to finish:** Spring 10 to 12 weeks, Autumn 7 to 9 weeks

- "Sow easy, so awesome": The most compact seed series matches or surpasses any vegetative series for easy, no-pinch production; terrific uniformity and top-selling colours.
- Delivers 5% higher germination than competitors for higher yields - it's the best seed-grown osteo for both habit and seed quality.
- Excellent branching assures better pot fill and great bench-to-garden performance.
- Well-suited to mechanized production and high-density programs.
- Plants branch without pinching, all colours flower within a 7 to 10-day window across the Akila series and no vernalisation is needed.
- Full, well-branched plants are drought-tolerant once established.

**Daisy White**

Petals have a yellow back.

**Sunset Shades** Multicolour segregating mix includes popular colours like yellow, magicians and rose-reds, plus salmon, apricot and orange shades. A gorgeous mix of the colours of the setting sun.

**Grand Canyon Mixture**

First multicolour segregating mix includes popular colours like yellow, magicians and rose-reds, as well as purple, lavender, creams and whites.

**Make your life easier**

Matrix is your best option for longer days and warmer growing. Uniformity of timing and plant habit simply can't be beaten by any other varieties in the marketplace. Only Matrix has a tight bloom window in Autumn production that allows every colour to ship the same week.

**PANSY**   
*Viola x wittrockiana*

EXTRA-LARGE FLOWERED PANSY

**Matrix® Series F1**

**Height:** 8 in./20 cm  
**Spread:** 8 to 10 in./20 to 25 cm  
**Flower size:** 3.5 in./9 cm

**Seed supplied as:** Raw, Primed

**Plug crop time:** 5 weeks  
**Transplant to finish:** Spring 6 to 8 weeks, Autumn 4 to 6 weeks

- Matrix offers less handling, less waste and exceptional holding power for higher profitability.
- 7-day bloom window across all colours in Autumn production makes scheduling and growing easy.
- Extra-large flowers hold up to the heat and PGR stress in Summer/Autumn production.
- Low-maintenance series gives pro landscapers the best choice for uniform colour striping, plus the most flowers per plant of any large-flowered pansy.

**Midnight Glow** Features a yellow centre with a deep violet halo around it. Great for Autumn programs.

**Red Wing** Good branching and a mounding habit.

**Solar Flare** Blooms show more red in cool temperatures and more yellow in warmer temperatures.

**Yellow Purple Wing** Yellow face with a purple cap is a perfect colour addition for Autumn programs.

Frizzle Sizzle Mixture

## RUFFLED PANSY

**Frizzle Sizzle Series F1**

Height: 6 to 8 in./15 to 20 cm

Spread: 8 to 10 in./20 to 25 cm

Flower size: 2.5 in./6 cm

Seed supplied as: Raw, Primed

Plug crop time: 5 weeks

Transplant to finish: Spring 6 to 8 weeks, Autumn 4 to 6 weeks

- PanAmerican Seed is the only professional supplier of this unique, frilly flower form - count on reliable seed supply.
- Great for cool-season Winter and early Spring end cap displays.
- Looks great in containers and "close-up" landscapes.
- Stronger ruffling occurs in cool conditions; Spring production is recommended.

**Mixture** Also includes lavender shades (not available separately).

Frizzle Sizzle Burgundy Pansy with Clear Crystals White Alyssum

Spring Matrix Series

**Your simplest solution for Spring**

If you're using another pansy series and you're not happy with the uniformity or plant habit, try Spring Matrix. Spring Matrix is designed for cool-season, short-day growing conditions - or when you need a large bloom that maintains good presentation under cold, dark, wet Winter production.

LARGE-FLOWERED PANSY

**Spring Matrix™ Series F1**

**Height:** 8 in./20 cm  
**Spread:** 8 to 10 in./20 to 25 cm  
**Flower size:** 3 in./8 cm

**Seed supplied as:** Raw, Primed

**Plug crop time:** 5 weeks

**Transplant to finish:** Spring 6 to 7 weeks, Autumn 4 to 5 weeks

- *Your best option for shorter days and cool growing* - plants look better, last longer and have the tightest flowering window for less dump.
- Most uniform Spring-flowering series produces large blooms that maintain good presentation under cold, dark, wet Winter production.
- Superior branching without stretching puts more flowers on every plant.

**Blue Wing** Displays stronger blue colour under cool temperatures.

**Ocean** Can contain a small percentage of white with blotch.

**Daffodil Mixture**  
 Deep Orange, Lemon, Yellow, White.

**Tricolor Mixture**  
 Blue, Lemon, Purple.

Panola XP True Blue

MULTIFLORA PANSY

**Panola® XP Series F1**

**Height:** 6 to 8 in./15 to 20 cm  
**Spread:** 8 to 10 in./20 to 25 cm  
**Flower size:** 2 to 2.25 in./5 to 6 cm

**Seed supplied as:** Raw, Primed

**Plug crop time:** 5 weeks  
**Transplant to finish:** Spring 4 to 5 weeks, Autumn 3 to 4 weeks

- Panola XP genetics come with a tight 5 to 7-day flowering window, very uniform habit and shorter peduncles across a broad array of colours.
- Both Panola XP and standard colours outperform standard medium-flowered varieties in all kinds of conditions.
- Exceptional overwintering ability makes Panola the best choice for overwintering guarantee pansy programs.
- Free-flowering, well-branched and compact, the early-blooming plants maintain their garden height with less stretch in warm climates.
- Plants produce an abundance of blooms for good flower show in the landscape.
- Landscaper-friendly clear colours are perfect for mixing custom blends.

Lucky Star Series

Lucky Star Series

**Stays in colour... Really!**

Lucky Star is bred for the fastest follow-up blooming of any full colour series pentas on the market. Nonstop colour means plants look better getting off the truck and they just keep getting better in the store! Plus, this colour-rich series has a tight, compact habit that keeps them looking tidy with virtually no effort.

**PENTAS** ●  
*Pentas lanceolata*

**Lucky Star® Series F1**  
 **PRO LANDSCAPE PERFORMER**

**Height:** 12 to 16 in./30 to 41 cm  
**Spread:** 12 to 14 in./30 to 36 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 6 to 7 weeks

**Transplant to finish:** 7 to 8 weeks

- With the fastest follow-up blooming of any full colour series pentas on the market and a 1-week bloom window, Lucky Star maintains a consistent show of colour from retail through end-of-season.
  - Follow-up blooms do not eclipse the prior flush, so plants stay compact, tight and ready for sale at retail with minimal work.
- Violet** Faster secondary, follow-up blooming and a darker color intensity than other violet pentas on the market.

Use Lucky Star Pentas to create star-studded Plug & Play Combos like this!

PENTAS continued

**Glitterati™ Series F1**

**Height:** 12 to 22 in./30 to 56 cm  
**Spread:** 10 to 18 in./25 to 46 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 6 to 7 weeks  
**Transplant to finish:** 8 to 10 weeks

- A sure winner! Combines a unique look for pentas, while still offering the heat/humidity performance this class is known for.
- Distinctive star pattern combines easily with other varieties, adding an exciting component for warm/hot season combinations.
- Finishes fast for speed to market, and follow-up blooming keeps the plants in full colour and looking good all season.

**Red Star** Distinctive, patented star pattern combines red and white and is great for Summer patio pots and combinations. Complements Glitterati Purple Star, which was introduced in 2018.

**Butterfly™ Series F1**

**Height:** 12 to 22 in./30 to 56 cm  
**Spread:** 10 to 18 in./25 to 46 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 6 to 8 weeks  
**Transplant to finish:** South 8 to 10 weeks, North 10 to 12 weeks

- Hybrid vigour provides better stress tolerance than open-pollinated varieties.
- Gives pro landscapers and gardeners alike a mid-size, full-sun series that flourishes in high heat/humidity and tolerates Summer rains well while still showing colour.
- Can be sold as a late Spring to Summer item in cooler areas.
- Large, star-shaped umbels - up to 3 in./8 cm across - attract butterflies and hummingbirds.

**ORNAMENTAL PEPPER** ●

*Capsicum annuum*

**Seed supplied as:** Raw

**Plug crop time:** 4 to 5 weeks

**Black Pearl**

**Height:** 14 to 18 in./36 to 46 cm; may grow to 3 ft./91 cm or more in warmer areas with longer growing seasons

**Spread:** 12 to 16 in./30 to 41 cm

**Seed supplied as:** Raw

**Transplant to finish:** 6 to 7 weeks for Autumn finish (no mature fruit)

- The first black-leaved ornamental pepper is ideal for landscapes and mixed containers.
  - Bushy, upright, well-branched plants have greenish foliage when young that matures to glossy black with high light and heat.
  - In the landscape, plants develop rounded, shiny black fruit that matures to dark red.
  - Best in 6 and 8-in./15 and 20-cm pots, gallons and Mum Pals programs.
- NOTE: Fruit is hot.

**Calico F1**

**Height:** 10 to 12 in./25 to 30 cm

**Spread:** 14 to 16 in./36 to 41 cm

**Transplant to finish:** 6 to 7 weeks for Autumn finish (no mature fruit)

- High-appeal, strongly variegated foliage of purple, cream and green.
  - Compact, well-branched and rounded accent plants are uniform in size across the crop for easy production.
  - Extremely heat-tolerant - great for landscaping and mixed containers.
  - Best in 6 and 8-in./15 and 20-cm pots, gallons and Mum Pals programs.
- NOTE: Fruit is hot.

**Midnight Fire**

**Height:** 9 to 12 in./23 to 30 cm

**Spread:** 14 to 16 in./36 to 41 cm

**Transplant to finish:** 7 to 13 weeks for Autumn finish

- Distinctive dark black foliage is accented by purple fruit which mature to bright red - this eye-catching combination is sure to result in fast sell-through.
- Well-branched plants are perfect for stunning Autumn combination planters and large container programs at retail.
- Best in 6 and 8-in./15 and 20-cm pots, gallons and Mum Pals programs.

**Purple Flash**

**Height:** 13 to 15 in./33 to 38 cm

**Spread:** 19 to 21 in./48 to 53 cm

**Transplant to finish:** 6 to 7 weeks for Autumn finish (no mature fruit)

- Striking colouration and interesting plant architecture enhance gardens and mixed containers through the toughest conditions, including heat.
  - Layered, scaffolding habit creates an exotic look.
  - Compact, mounded plants are uniform in size across the crop for easy production.
  - Best in 6 and 8-in./15 and 20-cm pots, gallons and Mum Pals programs.
- NOTE: Fruit is hot.

**Sangria F1**

**Height:** 10 to 12 in./25 to 30 cm

**Spread:** 16 to 18 in./41 to 46 cm

**Transplant to finish:** 7 to 13 weeks for Autumn finish

- Child-safe, non-pungent fruit is great for public plantings indoors and out.
- Indeterminate plants always have both purple and red peppers for continuous, eye-catching displays.
- Well-branched and somewhat spreading, the uniform, full-bodied plants are ideal for filling in landscapes and containers.
- Best in 6 and 8-in./15 and 20-cm pots, gallons and Mum Pals programs.

**Sedona Sun**

**Height:** 9 to 12 in./23 to 30 cm

**Spread:** 14 to 16 in./36 to 41 cm

**Transplant to finish:** 7 to 13 weeks for Autumn finish

- Here's another opportunity to expand Autumn sales - this time in your large pot and home gardener landscape programs.
  - Masses of distinctive lemon yellow and carrot orange fruit put a brilliant, multicolour display on every plant.
  - Indeterminate habit like Sangria, with similar timing.
  - Best in 6 and 8-in./15 and 20-cm pots, gallons and Mum Pals programs.
- NOTE: Fruit is hot.

**COMPACT GROWING PETUNIA**

Grandiflora Ez Rider and multiflora Lo Rider put flexibility at your fingertips and cost savings in your pocket, thanks to their matched and manageable growth from bench to retail. These genetically shorter, more controlled plants need less PGRs and are perfect for high-density programs. The two series solve the seasonal, geographic and control challenges of traditional petunias - they're perfect for growing and selling high-density cell packs to "promo" hanging baskets.

- Up to half the amount of PGRs are needed - or none under some growing regimes.
- Suitable for cold growing.
- Tight bloom window lets you ship and sell all series colours at the same time.
- Better branching with improved airflow reduces the probability of disease, especially *Botrytis*.
- Available in the top-selling colours that make up 75% of petunia sales.
- Enhanced, longer garden performance in containers and gardens - plants hold together and don't lodge later in the season like traditional petunias can.

**Ez Rider® Grandiflora Series F1**

**Height:** 6 to 10 in./15 to 25 cm  
**Spread:** 8 to 12 in./20 to 30 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 4 to 5 weeks

**Transplant to finish:** 5 to 6 weeks

• **Deep Pink** Colour is similar to Rose in low light; in higher light, colour is lighter than Rose.

• **Rose** Colour is similar to Deep Pink in low light; in higher light, colour is deeper than Deep Pink.

**Lo Rider™ Multiflora Series F1**

**Height:** 7 to 10 in./18 to 25 cm  
**Spread:** 8 to 12 in./20 to 30 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 4 to 5 weeks

**Transplant to finish:** 5 to 6 weeks

• **Violet** Times like Blue in cold production conditions and like Pink in Spring natural daylength. Also available: **Mixture**

Lo Rider Rose

Lo Rider Violet

Lo Rider Red

Lo Rider Blue

**Pretty Grand Flag Mixture**

**Pretty Grand Formula Mixture**

**Pretty Grand Midnight**

**Pretty Grand Purple**

**Pretty Grand White**

**Pretty Grand Coral**

The Pretty collection needs fewer to no PGRs and is suitable for cold growing. Naturally better branching with shorter internodes keeps plants manageable longer. The controlled habit assures tidier baskets than traditional petunias - plants hold together and don't lodge later in the season like standard petunias can. Better branching and flowers above the foliage minimize Botrytis risk. Offers a tight bloom window and longer performance in beds and landscapes.

DOUBLE PETUNIA

**Bonanza Mixture F1**

**Height:** 10 to 15 in./25 to 38 cm

**Spread:** 10 to 12 in./25 to 30 cm

**Seed supplied as:** Raw, Pelleted

**Plug crop time:** 4 to 5 weeks

**Transplant to finish:** 5 to 6 weeks

- Combines the beauty of double flowers and prolific flowering of multifloras.
- Formula blend has 2 to 2.5-in./5 to 6-cm blooms on mounded plants.
- A favourite among home gardeners.

MULTIFLORA DOUBLE PETUNIA

**Duo Series F1**

**Height:** 10 to 15 in./25 to 38 cm

**Spread:** 10 to 12 in./25 to 30 cm

**Seed supplied as:** Raw, Pelleted

**Plug crop time:** 4 to 5 weeks

**Transplant to finish:** 5 to 6 weeks

**Not available for sale in North America.**

- Excellent seed quality, germination and young plant performance.
- Compact series produces masses of double, 2 to 2.25-in./5 to 5.5-cm flowers on well-branched plants.
- Superb for use in large mixed containers, baskets and beds.

GRANDIFLORA  
DOUBLE PETUNIA

**Double Cascade Series F1**

**Height:** 10 to 15 in./25 to 38 cm

**Spread:** 10 to 12 in./25 to 30 cm

**Seed supplied as:** Raw, Pelleted

**Plug crop time:** 4 to 5 weeks

**Transplant to finish:** 6 to 7 weeks

- Huge, 3 to 3.5-in./8 to 9-cm, double flowers resemble carnations.
- Outstanding habit and good branching.
- Excellent program for late Spring sales.
- Well-suited to larger containers, mixed combination planters and beds.

**Valentine** Beautiful red blooms can have splashes of white appear on some of the tips. Smaller flowers than the rest of the series.

**Mixture** Includes Valentine.

**Glorious Mixture F1**

Height: 10 to 15 in./25 to 38 cm  
 Spread: 10 to 12 in./25 to 30 cm

Seed supplied as: Raw, Pelleted

Plug crop time: 4 to 5 weeks  
 Transplant to finish: 6 to 7 weeks

- Bright mix of solids and bicolours.

**Pirouette Series F1**

Height: 10 to 15 in./25 to 38 cm  
 Spread: 10 to 12 in./25 to 30 cm

Seed supplied as: Raw, Pelleted

Plug crop time: 4 to 5 weeks  
 Transplant to finish: 6 to 7 weeks

- Eye-catching, very double, fringed flowers in distinctive bicolour picotee patterns.

21st Century Scarlet

**PHLOX** ●

*Phlox drummondii*

**21st Century Series F1**

Height: 10 in./25 cm

Spread: 10 in./25 cm

Seed supplied as: Primed

Plug crop time: 4 to 5 weeks

Transplant to finish: 6 weeks

- The world's first F1 phlox delivers outstanding showiness, hybrid germination and vigour.
- Daylength-neutral plants finish fast and uniformly across all colours.
- Vigorous lateral branching makes full, mounded plants, with strong flower power from Spring until frost.
- Outstanding bedding plant also works well in containers.

Use 21st Century Phlox in dreamy Plug & Play Combos like this!

Plug & Play Combo Lemon Dream, see page 239.

**Ethnie Series**

Height: 8 in./20 cm  
Spread: 8 in./20 cm

Seed supplied as: Raw

Plug crop time: 4 to 5 weeks  
Transplant to finish: 6 to 7 weeks

- Genetically compact series is an excellent choice for pot and pack programs, delivering uniform habit and earliness.
- Crop time is just 10 to 12 weeks.
- No PGRs are needed in production.

**Promise Mixture**

Height: 8 in./20 cm  
Spread: 8 in./20 cm

Seed supplied as: Raw

Plug crop time: 4 to 5 weeks  
Transplant to finish: 7 to 8 weeks

- Very floriferous plants feature double and semi-double flowers held well above the foliage.
- Strong outdoor vigour assures long-lasting garden performance.
- Well-suited to large pack and pot production.

**Grammy Pink & White F1**

Height: 8 to 10 in./20 to 25 cm  
Spread: 10 in./25 cm

Seed supplied as: Primed

Plug crop time: 4 to 5 weeks  
Transplant to finish: 7 to 8 weeks

- The most compact F1 phlox.
- Excellent uniformity makes it very manageable in packs and pots.
- Vigorous, free-flowering plants produce one-of-a-kind bicolor blooms all season in mixed containers, gardens and planters.

Silver Crest Plectranthus

**PLECTRANTHUS** *Plectranthus argentatus***Silver Crest** 

**Height:** 8 to 10 in./20 to 25 cm  
**Spread:** 18 to 24 in./46 to 61 cm

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 4 to 6 weeks

- Compact accent plant is an easy and economical choice for mixed containers, baskets and landscapes.
- Tolerant of heat and water stress.
- Silvery green, fuzzy foliage and small, blush white flowers on well-branched, trailing plants.

**Silver Shield** 

**Height:** 24 to 30 in./61 to 76 cm  
**Spread:** 24 to 30 in./61 to 76 cm

**Seed supplied as:** Pelleted

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 8 to 9 weeks

- Robust, vigorous and stress-tolerant accent plants have a bushy, upright habit, excellent in landscapes and combination planters.
- Economical, easy-to-produce seed-grown plants offer better branching than vegetative varieties, with no pinching needed.

**POPPY**

See **Papaver** in **Perennials**, page 153.

Silver Shield Plectranthus

**PRIMULA** *Primula acaulis***Heritage Crème F1**

**Height:** 5 to 6 in./13 to 15 cm  
**Spread:** 5 to 6 in./13 to 15 cm

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 15 to 17 weeks

- Unique breeding delivers a natural "English Primrose" look in a professional-quality product.
- Long-flowering, mid-size blooms and deep green foliage are produced on compact, mounded plants.
- Contains a small percentage of smaller, white-flowered plants.
- Programmable crop can be grown pot-tight in 3.5-in./9-cm programs.

Southern Star Pink Ruellia

Southern Star Blue Ruellia

Toucan Scarlet Shades Purslane

**PURSLANE** ●  
*Portulaca oleracea*

**Toucan Series**

**Height:** 3 to 4 in./8 to 10 cm  
**Spread:** 14 to 16 in./36 to 41 cm

**Seed supplied as:** Raw

**Plug crop time:** 4 to 5 weeks  
**Transplant to finish:** 6 to 7 weeks

- Economical, reliable and programmable seed-grown purslanes for mass-market baskets and containers.
- Requires little or no PGRs, no pinching.
- Colourful buds develop into 2-in./5-cm blooms.
- Heat loving and drought tolerant.

NOTE: We recommend to sow 4 seeds per cell.

**PERENNIAL RUDBECKIA**  
See page 154.

**RUELLIA** ●  
*Ruellia brittoniana*

**Southern Star Series**

**Height:** 10 to 12 in./25 to 30 cm  
**Spread:** 16 to 18 in./41 to 46 cm

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** Spring 10 weeks, Summer 8 weeks

- The first dwarf ruellia from seed is easy to program and produces clean green foliage.
- Low-maintenance; tolerates both wet and dry conditions.
- Great for southern perennial programs – hardy to Zone 8 (10°F/-12°C minimum temperature).
- Can be used as an in-ground or container annual in other regions, but not recommended for the far North.

Big Blue US PVP 201700218

**SALVIA INTERSPECIFIC** ●

*Salvia longispicata x farinacea*

**Big Blue**

**Height:** 24 to 36 in./61 to 91 cm  
**Spread:** 18 to 20 in./46 to 51 cm

**Seed supplied as:** Raw

**Plug crop time (288 tray):** 4 weeks

**Transplant to finish:** 8 to 13 weeks, depending on light, heat and daylength conditions

- Great performer in heat and low-water conditions.
- Low-maintenance plant does not need deadheading.
- Hummingbirds, bees, butterflies and more flock to Big Blue in the garden.
- At its best in full sun, but will tolerate dappled shade or partial sun.

**SALVIA** ●●

*Salvia canariensis*

**Lancelot**

**Height:** 36 to 42 in./91 to 107 cm  
**Spread:** 24 to 30 in./61 to 76 cm

**Seed supplied as:** Raw

**Plug crop time:** 4 to 5 weeks

**Transplant to finish:** 5 to 6 weeks, foliage only

- A unique plant for the border.
- Produces silvery-white, felted leaves plus lavender flowers in July, with rosy-lavender bracts and a pleasant sage fragrance.
- A water-wise plant and a great pollinator plant, attracting hummingbirds, bees and butterflies.

SELECTABLE  
BEDDING STOCK

**Hot Cakes Series**

Height: 10 to 16 in./25 to 41 cm  
Spread: 6 to 8 in./15 to 20 cm

Seed supplied as: Raw

Plug crop time: 4 weeks  
Transplant to finish: 5 to 7 weeks

- Easy-to-select, fully double plugs produce more attractive plants than comparable grey-leaf, non-selectable types that can show up to 50% singles.
- Very well-branched, dwarf plants with fragrant, bright blooms deliver outstanding performance in landscapes and garden beds.

BEDDING STOCK

**Vintage Series**

Height: 15 to 20 in./38 to 51 cm  
Spread: 12 to 14 in./30 to 36 cm

Seed supplied as: Raw

Plug crop time: 4 weeks  
Transplant to finish: 7 to 8 weeks

- Dwarf series blooms up to 1 week faster, with better branching than comparable varieties.
- Non-selectable Vintage produces over 55% double flowers.
- Sturdy, well-branched plants are excellent outdoor performers.
- Prefers cool growing conditions; no vernalisation needed.

Limón Talinum

Verde Talinum

Susie Yellow with Eye Thunbergia

Susie White with Eye Thunbergia

Susie Orange with Eye Thunbergia

**TALINUM** ●  
*Talinum paniculatum*

**Limón** ●

**Height:** 28 to 32 in./71 to 81 cm  
**Spread:** 16 to 18 in./41 to 46 cm

**Seed supplied as:** Raw

**Plug crop time:** 5 weeks

**Transplant to finish:** Foliage 4 to 5 weeks; add 2 weeks to flower

- Mounded, bright lime-green foliage with airy inflorescences covered in tiny rose-pink flowers.
- Handles stress well, including heat and drought.
- When exposed to stressful conditions, the foliage shows off an even more vibrant chartreuse colour.
- Ideal for containers, hanging baskets and in-ground plantings.
- Also works well as a fresh or dried cut flower.

**Verde** ●

**Height:** 32 in./81 cm  
**Spread:** 24 in./61 cm

**Seed supplied as:** Raw

**Plug crop time:** 5 weeks

**Transplant to finish:** Foliage 4 to 5 weeks; add 2 weeks to flower

- Dark green-leafed companion to Limón has small flowers that open hot pink and then form orange berries that ripen to dark red.
- Flexible flower spikes make it easy to grow and ship.
- Durable accent plant handles heat and stress well, including both low water and soggy conditions.
- Excellent for mixed containers; also a long-lasting landscape option.

**TANACETUM**  
See **Matricaria**.

**VERBENA** ●  
*Verbena x hybrida*

**Quartz Blue**

Height: 10 to 12 in./25 to 30 cm  
Spread: 12 to 14 in./30 to 36 cm

Seed supplied as: Raw, Primed

Plug crop time: 5 weeks  
Transplant to finish: Spring 7 to 9 weeks, Summer 6 to 7 weeks

- Approximately 2 weeks later to flower than Quartz XP varieties.

**Quartz XP Series**

Height: 8 to 10 in./20 to 25 cm  
Spread: 10 to 12 in./25 to 30 cm

Seed supplied as: Raw, Primed

Plug crop time: 4 weeks  
Transplant to finish: Spring 6 to 8 weeks, Summer 5 to 7 weeks

- Quartz XP verbenas are more uniform with overall longer garden performance than competing varieties.
- Delivers a tight, 7-day flowering window, earlier and significantly better branching, and reduced internode length.
- Strong seed quality, high germination and great young plant vigour assure superior performance in packs and 4-in./10-cm pots.
- Slightly spreading, mounded plants make brilliant beds and trail over the edges of mixed containers.

**XP Purple** Largest florets and slightly more vigour than others in the series.

**XP Merlot Mixture** Strong burgundy, red and purple shades.

**Plug crop time:** 5 weeks

**Transplant to finish:** 3 to 4 weeks

- The Valiant series is more vigorous than the competition AND it comes with disease resistance (IR\*) to aerial Phytophthora under field conditions – a “Win-Win” for landscape programs.
- Makes well-branched, market-ready plants with large flowers that show off high-impact colour at point of sale and in the landscape.
- Superior hybrid vigour allows Valiant vinca landscapes to better survive environmental stresses such as sun, heat, drought, salt and cool/damp conditions.
- Low maintenance with good landscape longevity.

**Orchid** Slightly less vigorous than others in the series.

**Mixture** Apricot, Burgundy, Lilac, Punch, Pure White.

**\*Intermediate resistance (IR):** Plant varieties that restrict the growth and/or development of the specified pest and/or the damage it causes but may exhibit a greater range of symptoms or damage compared to high resistant varieties. Intermediate resistant plant varieties will still show less severe symptoms or damage than susceptible plant varieties when grown under similar environmental conditions and/or pest pressure. *Adopted by the ISF Vegetable and Ornamental Crops Section in May 2017.*

UPRIGHT VINCA

**Tattoo™ Series**

**Height:** 10 to 14 in./25 to 36 cm  
**Spread:** 6 to 8 in./15 to 20 cm

**Seed supplied as:** Raw

**Plug crop time:** 5 weeks  
**Transplant to finish:** 5 to 6 weeks

- Very floriferous and well-branched plants display one-of-a-kind flowers.
  - Tight flowering window with an easy-to-grow, uniform, upright habit across all colours.
  - Outstanding in hot and sunny conditions.
- NOTE: Tattoo blooms display the best colour contrast under warm conditions with moderate light; colours lighten with increased temperatures and light. Grown under cooler conditions and lower light, colours appear darker overall with less contrast and more purple colouration being expressed.

**Black Cherry** Swirls of cherry and raspberry are lightly airbrushed with purple tones.

**Blueberry** A unique colour perfect for combining with other plants to create heat-loving red, white and blue mixes.

**Papaya** Beautiful, soft "orangesicle"-toned petals are marked with an inky, dark eye.

**Raspberry** Deep raspberry blooms mature to a soft rose colour, each accented with an inky, dark eye.

**Tangerine** Dark purple swirls airbrushed onto tangerine-colour blooms with a bright eye.

**American Pie Mixture** Includes Tattoo Blueberry, plus two Pacifica XP varieties, Really Red and White.

**Make your mark on vinca sales!**

The art of plants comes alive on every Tattoo bloom - each petal looks like it is inked or airbrushed with soft brush strokes of dark purple. Adding these novelties to your lineup shows that you have your finger on the pulse of what today's gardener really wants: bold, fun, head-turning. Tattoo... without a doubt, the most unique vinca on the market today!

**Try Tattoo Vinca for an instant hit in Plug & Play Combos like this!**

**Plug & Play Combo Ink'd,** see page 245.

VIOLA   
*Viola cornuta*

**Quicktime™ Series F1**

**Height:** 6 to 8 in./15 to 20 cm  
**Spread:** 6 to 8 in./15 to 20 cm  
**Flower size:** 1 to 1.5 in./3 to 4 cm  
**Seed supplied as:** Raw, Primed  
**Plug crop time:** 4.5 to 5 weeks  
**Transplant to finish:** Spring 5 to 6 weeks, Autumn 3 to 4 weeks

- Early-blooming, free-flowering plants provide bright colour in early Spring and Autumn gardens.
- Reduced daylength sensitivity and free-flowering selection criteria make Quicktime viola the best option for saving growing time in cold-grown, overwinter-produced viola crops.
- Compact plants are covered in 1 to 1.5-in./3 to 4-cm blooms.
- A well-branched, full-bodied plant that fills out the pot or pack.
- Features 'Hyperflora' flowering power, so it has multiple blooms at first flower and continues with fast secondary and tertiary flowering.

**Shorter production time = cost savings**

Flowering two weeks faster than comparable series, Quicktime allows you to sow your viola crop two weeks later and still ship on time in Spring. With reduced labour and less heat needed in the greenhouse, the cost savings are quick to add up!

Yellow Blue, Purple Blue and Lemon Jump Up

L: Competing Yellow Jump Up, R: Quicktime Yellow Violet Jump Up flowering 2 weeks earlier in northern European trials in 2017.

Sorbet XP Citrus Mixture

**Send the best-looking violas to retail**

Grow, ship, sell and plant the best-looking violas for Spring and Autumn - Sorbet XP genetics deliver a uniform plant habit and the tightest bloom window.

VIOLA continued

**Sorbet® XP Series F1**

PRO LANDSCAPE PERFORMER

**Height:** 6 to 8 in./15 to 20 cm

**Spread:** 6 to 8 in./15 to 20 cm

**Flower size:** 1 to 1.5 in./3 to 4 cm

**Seed supplied as:** Raw, Primed

**Plug crop time:** 4.5 to 5 weeks

**Transplant to finish:** Early Spring 6 to 8 weeks, Autumn 4 to 5 weeks

- Sorbet XP needs fewer PGRs, with superior holdability and less shrink.
- F1 vigour assures greater germination, earliness, and excellent plug and garden performance.
- Violas are a key pro landscaper item and Sorbet XP excels at every turn: plants cover the soil at flowering, with more blooms on every plant and less stretching; stay compact in both heat and cold; excellent overwintering; wide range of clear colours allows for custom mixes.
- Well-suited to Spring and Autumn packs and 3.5-in./9-cm pots.

XP Beaconsfield

Sorbet XP Delft Blue, Lemon Chiffon and XP Beaconsfield

**XP Deep Orange** Deepest orange-flowered viola on the market; uniform, controlled plants for ease of production. Superior to competing varieties in colour, timing, uniformity.

**XP Morpho** Bicolour pattern changes with environment; more blue under cool Spring conditions.

**XP Neptune** Beautiful cream with blue picotee colour is now available with XP performance.

**XP Pink Wing** Highly sought-after pink cap/white face colour pattern.

**XP Red Blotch** Best plant structure and timing of any red blotch variety for Autumn production; more branched and uniform plant and up to 1 week earlier in Autumn production than other red blotch varieties.

**New XP Rose Blotch** Rose with a defined blotch. Times on the early side of the series.

**XP True Blue** Best true blue *V. cornuta*. Less stretch, better plant structure and truer blue colour than competing varieties.

**XP Yellow Burgundy Jump Up** Yellow face with burgundy cap.

**XP Yellow Pink Jump Up**

Lavender-pink cap fades with age and heat or PGR stress, similar to other pink cap types.

**XP YTT** Opens white, then changes to azure blue.

**XP Autumn Select Mixture** Bold seasonal colours selected for optimal timing and habit uniformity in Autumn.

**Sorbet® Series F1**

**Height:** 6 to 8 in./15 to 20 cm

**Spread:** 6 to 8 in./15 to 20 cm

**Flower size:** 1 to 1.5 in./3 to 4 cm

**Seed supplied as:** Raw, Primed

**Plug crop time:** 4.5 to 5 weeks

**Transplant to finish:** Early Spring 6 to 9 weeks, Autumn 4 to 6 weeks

- Plants cover the soil at flowering with more blooms and less stretching, and fewer PGRs are needed.
- Superior holdability and less shrink.
- Use in Autumn and Spring programs - the novelty colours have good retail and home garden appeal.

**Fire** Colour pattern varies by environment.

**Honeybee** Yellow/copper-orange bicolor; bright and sunny for Spring production. 30% more vigorous and longer peduncles than other Sorbet varieties.

**New Tiger Eye** Unusual striped pattern is excellent for Fall sales. Habit and timing match Sorbet XP.

**Frizzle Sizzle  
Mini Series F1**

**Height:** 6 to 8 in./15 to 20 cm  
**Spread:** 6 to 8 in./15 to 20 cm  
**Flower size:** 1.25 to 1.5 in./  
 3 to 4 cm

**Seed supplied as:** Raw, Primed

**Plug crop time:** 4.5 to 5 weeks  
**Transplant to finish:** 6 to 7 weeks

- Adds a unique frilly flower form to violas!
- Great for containers or "close-up" landscapes.
- Moderate vigour and a mounding habit.
- Best for cool seasons in early Spring or Autumn; stonger ruffling occurs in cool conditions.
- Spring production is recommended.

**Purple Shades** Frilled purple flower with an attractive dark eye.

**Tapestry** Flowers contain shades of purple, burgundy and yellow, providing a tapestry of colour.

**Yellow** Frilled yellow flower with an attractive dark eye.

**Mixture** Yellow, Purple Shades and Tapestry.

**ZINNIA** ●

*Zinnia marylandica*

**Zahara® Series**

**Height:** 12 to 18 in./30 to 46 cm  
**Spread:** 12 to 18 in./30 to 46 cm

**Seed supplied as:** Raw, Coated

**Plug crop time:** 3 weeks  
**Transplant to finish:** Spring 8 to 9 weeks, Summer 5 to 6 weeks

- 20% larger flowers than competing varieties means more colour on the bench than any other disease-resistant zinnia... more retail impact... flower power that lasts in the landscape.
- Less care needed at retail for faster turns, less dump and better sell-through.
- Outstanding performer in heat, drought.

**Fire** Colour intensifies outdoors.

**Red** One of the largest flowers in the series. Colour varies by environment.

**Starlight Rose** Colour pattern varies by environment; best colour from high light, good fertilisation and cool nights.

**Bonfire Mixture** Red, Fire, Yellow.

**Raspberry Lemonade Mixture** Raspberry, Yellow, Starlight Rose.

# PERENNIALS

KieftSeed™

## PERENNIALS FOR EVERY SEASON

Kieft Seed™ perennials from PanAmerican Seed cover a broad spectrum of colour and interest, providing high-performance options for **early Spring through Fall**. NEW White Lion Leucanthemum is ready for early **Spring sales** from overwintered production (comparable to vegetative varieties) and for Spring sales from an annual program, while Madonna Leucanthemum covers the **late Spring into Summer** sales under long day conditions. For **regionally focused** *Lavandula angustifolia* programs, we have four outstanding varieties available: Blue Spear, Avignon Early Blue, the Ellagance Series and Lavance Deep Purple. The Artisan™ Collection is the first F1 hybrid Echinacea **individual colour collection** from seed, offering consistent vigour and uniformity in two beautiful colours. You can count on us for strong bench-to-garden performance and reliable availability.

Earlybird Purple White

Red Yellow

**AQUILEGIA**   
*Aquilegia x hybrida*

**Earlybird™ Series F1**

**Height:** 9 to 11 in./23 to 28 cm  
**Spread:** 8 to 10 in./20 to 25 cm  
**Flower size:** 2 to 3 in./5 to 8 cm

**USDA Hardiness Zones:**  
3a to 9b (-40 to 25°F/-40 to -4°C  
minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 6 to 9 weeks  
**Transplant to finish:** 12 to 16 weeks  
(20 to 30 weeks overwintered)

- Strong, new colours and colour combinations spark new interest in Aquilegia!
- This series has a low cold requirement and short juvenility for growing in warm Winter climates.
- Features a controlled habit, with relatively short stems on well-mounded plants.
- A flowering window of 10 to 12 days, plus a short harvest window, make it an excellent choice for early-Spring programs.
- Purple White, Purple Yellow and Red Yellow are unique colours in F1 Aquilegia.

**Blue White** Features a slightly more slender plant habit compared to the rest of the series.

**Purple White** Flowers 2 to 3 days earlier than the rest of the series.

**Purple Yellow** Flowers 5 to 7 days later than the series average, and is 2 in. (5 cm) taller.

**Swan Series F1**

Height: 20 to 24 in./51 to 61 cm  
Spread: 12 to 14 in./30 to 36 cm

USDA Hardiness Zones:  
3a to 9b (-40 to 25°F/-40 to -4°C minimum temperatures)  
A First-Year-Flowering Perennial.

Seed supplied as: Raw

Plug crop time: 6 to 9 weeks  
Transplant to finish:  
22 to 28 weeks

- The true garden Aquilegia! Abundant large blooms in vibrant colours make this an excellent home garden cut flower.
- Early and economical to grow - can be flowered in Spring from an Autumn sowing when grown in a cool greenhouse (night temperatures lower than 60°F/16°C) with no special vernalisation treatment.
- Multi-stemmed plants are well-matched for uniform size, exceptional garden performance and large blooms.
- Easy to force into flower in containers.
- Very high bud count for more flowers per plant.

**Pink And Yellow** Slightly earlier than other Swan colours, flowering 2 to 3 weeks faster.

**ARABIS** ●

*Arabis blepharophylla*

**Barranca™ Series**

Height: 6 to 8 in./15 to 20 cm  
Spread: 7 to 8 in./18 to 20 cm  
Flower size: 0.5 in./1 cm

USDA Hardiness Zones:  
4a to 9a (-30 to 20°F/-34 to -7°C minimum temperatures)

Seed supplied as: Raw

Plug crop time: 6 to 8 weeks  
Transplant to finish:  
26 to 32 weeks

- The Barranca Series offers two colours in *A. blepharophylla*, producing a highly uniform crop that is short-stemmed with a lot of flower power.
  - The series includes Deep Rose and Pink (violet pink), a unique colour in this floriferous, early-Spring flowering perennial.
- Pink** 3 to 5 days earlier than Deep Rose, with more clear green foliage.

**Seed supplied as:** Pelleted

**Plug crop time:** 5 weeks

**Transplant to finish:** 8 to 14 weeks

- Robust, early-blooming plants are strong landscape performers in cool climates.
- Needs no vernalisation to flower.
- Displays an abundance of large, fully double flowers.

**Rapido White Campanula**

**CAMPANULA** ●●  
*Campanula carpatica*

**Rapido Series F1**

**Height:** 5 to 7 in./13 to 18 cm  
**Spread:** 5 to 8 in./13 to 20 cm

**USDA Hardiness Zones:**  
3a to 9b (-40 to 25°F/-40 to -4°C minimum temperatures)

**A First-Year-Flowering Perennial.**

**Seed supplied as:** Pelleted

**Plug crop time:** 7 to 10 weeks

**Transplant to finish:** 9 to 12 weeks

- Earliest *C. carpatica* - up to 4 weeks earlier than other varieties.
- Delivers good young plant and finished plant vigour, while maintaining compact habit.
- Very short harvest window.
- Showy Spring perennial is ideal for high-volume bench run potted plant programs for 4-in./10-cm pots or gallons.
- Versatile - suited to patio planters and gardens, as well as an indoor novelty potted plant.

**CAMPANULA** Also see page 161.

**The early bird gets the...Sales!**

There's early...and then there's Double the Sun! This bright variety is 2 to 3 weeks earlier than our Early Sunrise and other comparable varieties earlier in the season. In Summer, it finishes 1 to 2 weeks earlier. Get this favourite perennial class into the store before any other compact, semi-double yellow Coreopsis.

**Double the Sun** *Fleuroselect Novelty*

**COREOPSIS** ●  
*Coreopsis grandiflora*

**Double the Sun**

**Height:** 12 to 14 in./30 to 36 cm  
**Spread:** 12 to 14 in./30 to 36 cm  
**Flower size:** 2 to 3 in./5 to 8 cm

**USDA Hardiness Zones:**  
4a to 9b (-30 to 25°F/-34 to -4°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Primed

**Plug crop time:** 5 to 7 weeks  
**Transplant to finish:** 9 to 10 weeks

- Semi-double, clear golden yellow flowers are the same large, 2.5-in./6-cm size as SunKiss and Early Sunrise, and bigger than Sunfire.
- Great controlled habit with strong flowering.
- Ideal for quart and 1-gallon production in Spring and Summer with 13-hour critical daylength. For 2-gallon and larger containers in Summer, Early Sunrise is the optimal choice.

**Early Sunrise**

**Height:** 24 in./61 cm  
**Spread:** 22 to 24 in./56 to 61 cm

**USDA Hardiness Zones:**  
4a to 9b (-30 to 25°F/-34 to -4°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Primed

**Plug crop time:** 5 to 7 weeks  
**Transplant to finish:**  
11 to 13 weeks

- Our most vigorous coreopsis.
- Produces golden yellow, semi-double flowers constantly all Summer.
- Can also be marketed as an annual in premium packs.

**Early Sunrise** *All-America Selections National Winner, Fleuroselect Gold Medal*

**Sunfire** *Fleuroselect Quality Mark*

**Sunfire**

**Height:** 24 in./61 cm  
**Spread:** 22 to 24 in./56 to 61 cm

**USDA Hardiness Zones:**  
4a to 9b (-30 to 25°F/-34 to -4°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Primed

**Plug crop time:** 5 to 7 weeks  
**Transplant to finish:**  
10 to 12 weeks

- Naturally compact in a pack or 4-in./10-cm pot, requiring less PGRs, or no PGRs in certain conditions.
- Can also be marketed as an annual in premium packs.

**Plug & Play XXL Combo Golden Era,** see page 248.

**SunKiss** *US PVP 201700014, EU PBR 46544*

**SunKiss**

**Height:** 12 to 14 in./30 to 36 cm  
**Spread:** 14 to 16 in./36 to 41 cm

**USDA Hardiness Zones:**  
4a to 9b (-30 to 25°F/-34 to -4°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Primed

**Plug crop time:** 5 to 7 weeks  
**Transplant to finish:** 9 to 10 weeks

- A colour breakthrough in seed *C. grandiflora*: SunKiss is the brightest yellow with large blotch available.
- Larger, deep red blotch and larger flowers than Sunfire.
- Controlled habit - fewer PGRs needed, or no PGRs in certain conditions.
- Well-branched and floriferous.
- Excellent heat-tolerant plant for novice and expert gardeners alike - reliable, easy to grow and the colour blends well with almost everything.

## What you want, when you want it

It's easy to program your crop to meet shipping dates with Guardian. It offers very uniform blooming, especially under short days. Plus, it's up to 6 weeks faster from transplant to bloom than O.P. types, for more turns in the greenhouse. For programmability and efficiency, Guardian is leading the charge.

### DELPHINIUM ●

*Delphinium elatum*

#### Guardian Series F1

**Height:** 30 to 39 in./76 to 99 cm  
**Spread:** 10 to 12 in./25 to 30 cm

**USDA Hardiness Zones:**  
4a to 7b (-30 to 5°F/-34 to -15°C minimum temperatures)

**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 6 to 7 weeks  
**Transplant to finish:** 16 weeks

- Breeding breakthrough makes it easy to program your crop to meet shipping dates.
- Very uniform blooming within each variety, especially under short days.
- Works well as a tall landscape/perennial variety, as a commercial cut flower, and in potted plant programs.
- Up to 6 weeks faster from transplant to bloom than O.P. types for more turns per sq. ft./metre of greenhouse space.
- Also suitable as a greenhouse cut flower or for garden cut flower production.
- As a greenhouse cut flower, Guardian can be grown under the same conditions as dianthus and snapdragons.
- Produces excellent stem quality for good cut flower shipability.

#### Dasante Blue F1

**Height:** 28 to 34 in./71 to 86 cm  
**Spread:** 10 to 12 in./25 to 30 cm

**USDA Hardiness Zones:**  
4a to 7b (-30 to 5°F/-34 to -15°C minimum temperatures)

**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 6 to 7 weeks  
**Transplant to finish:**  
11 to 13 weeks

- Dasante Blue shows off vibrant true blue flowers with light purple accents and white bees.
- The grower-friendly, uniform plants are more compact, more responsive to PGRs and naturally earlier than other *D. elatum* types.

- Easy-care, cool-season crop can be grown with little or no heat for energy savings.
- Plants ship well, with more plants per rack in flower than any other delphinium for tremendous retail impact.
- Best for gallons with 3 plants per pot.
- Suitable for greenhouse, field or garden cut flower production.

### DELPHINIUM ●

*Delphinium grandiflorum*

#### Diamonds Blue F1

**Height:** 16 to 24 in./41 to 61 cm  
**Spread:** 10 to 12 in./25 to 30 cm

**USDA Hardiness Zones:**  
4a to 9b (-30 to 25°F/-34 to -4°C minimum temperatures)

**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 6 to 7 weeks  
**Transplant to finish:**  
10 to 12 weeks

- The first F1 spurless delphinium from seed, Diamonds Blue eliminates the need for tissue culture inputs and is supplied with up to 25% higher germination than O.P. types for more efficient young plant production.

### DELPHINIUM ●

*Delphinium x belladonna*

#### Blue Donna

**Height:** 32 to 40 in./81 to 102 cm  
**Spread:** 8 to 10 in./20 to 25 cm

**USDA Hardiness Zones:**  
5a to 9b (-20 to 25°F/-29 to -4°C minimum temperatures)

**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:**  
12 to 16 weeks

- True blue Delphinium has improved uniformity and colour, increased productivity and more stems per sq. ft./sq. m.

**DELPHINIUM** Also see **Cut Flowers**

Rose

**DIANTHUS** 🌞🌱

*Dianthus x barbatus interspecific*

**Rockin'™ Series F1**

**Height:** 18 to 24 in./46 to 61 cm  
**Spread:** 10 to 12 in./25 to 30 cm

**USDA Hardiness Zones:**  
 5a to 8b (-20 to 15°F/-29 to -9°C minimum temperatures)

**A First-Year-Flowering Perennial.**

**Seed supplied as:** Pelleted

**Plug crop time:** 4 to 6 weeks

**Transplant to finish:** 8 to 9 weeks

- The Rockin' series opens the door to premium product sales in perennial quart and gallon programs for mid-Spring and the Autumn decorating season.

- Lacy, slightly scented flowers top full and long-lasting plants - this one delivers *lots of plant for the money*, and that's sure to satisfy shoppers.

- Reliably overwinters to USDA Zone 5 (-20°F/-29°C minimum temperatures) to assure multi-year performance.

- The best colour intensity occurs in the high light and cool temperatures of outdoor production.

**Pink Magic** Blooms open white and mature to light pink, then deep pink.

**ANNUAL DIANTHUS**

See page 40.

**CUT FLOWER DIANTHUS**

**Artisan™ Collection F1**

**Height:** 16 to 28 in./41 to 71 cm  
**Spread:** 10 to 25 in./25 to 64 cm  
**Flower size:** 3 to 4 in./8 to 10 cm

**USDA Hardiness Zones:**  
4a to 10b (-30 to 35°F/-34 to 2°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Amplified

**Plug crop time:** 5 to 6 weeks

**Transplant to finish:**  
13 to 17 weeks

- The first F1 hybrid Echinacea individual colour collection from seed!
- Offers consistency of plant structure for a uniform, highly branched, full plant.
- Features uniform flowering, so all plants are ready to sell at the same time.
- Seed input provides flexibility for production and labour management.
- Amplified seed form is enhanced through a proprietary process, resulting in faster and more uniform germination compared to non-enhanced seed.

**Red Ombre** Flowers open red and soften in colour as they mature.

**Soft Orange** Flowers open deep orange and soften as they mature.

The first F1 hybrid seed Echinacea collection is just better!

The Artisan™ Collection elevates seed Echinacea to offer consistency of plant structure for uniform and highly branched, full plants. It also provides uniformity of flowering, so all plants are ready to sell at the same time. Plus, the benefit of a seed input provides flexibility for production so it fits better in your schedule.

**Soft Orange** Medal of Excellence Industry's Choice US 7,982,110

**Cheyenne Spirit** All-America Selections National Winner, Fleuroselect Gold Medal, Medal of Excellence Best Performing Variety  
US 7,982,110

**More colours!  
More flowers!  
More sales!**

Award-winning Cheyenne Spirit gives you the more economical way to bring these high-demand colours to market, compared to traditional tissue-culture material. This incredibly vibrant segregating mix delivers maximum flower power at retail, and continues to shine in landscapes with its superior performance.

Create dramatic Plug & Play Combos like this with Cheyenne Spirit Echinacea!

**Plug & Play XXL Combo Paris in Springtime**, see page 249.

**Cheyenne Spirit**

**ECHINACEA** ●  
*Echinacea purpurea*

**Cheyenne Spirit**

**Height:** 18 to 24 in./46 to 61 cm first year; 22 to 30 in./56 to 76 cm second year

**Spread:** 10 to 16 in./25 to 41 cm first year; 14 to 20 in./36 to 51 cm second year

**USDA Hardiness Zones:** 4a to 10b (-30 to 35°F/-34 to 2°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 13 to 17 weeks

- Plants are shorter, better branched and fuller than many tissue-culture varieties. This makes it possible to grow without PGRs and offers the ability to ship on tightly spaced racks.
- Flexible scheduling is possible to meet a range of market dates.
- Fits a broad range of sizes from premium packs to gallons. Packs are suitable for in-colour or green plant sales for landscape or prairie-to-go uses.
- Broad and consistent palette includes shades of red, orange, purple, scarlet, cream, yellow and white.
- Long retail shelf life, heat and drought tolerance, and excellent Winter hardiness.

Create eye-catching Plug & Play Combos like this with PowWow Echinacea!

**NEW Plug & Play XXL Combo Pink Pursuit**, see page 248.

**PowWow® Series**

**Height:** 16 to 20 in./40 to 50 cm first year; 22 to 24 in./56 to 61 cm second year  
**Spread:** 12 to 16 in./30 to 41 cm

**USDA Hardiness Zones:** 4a to 10b (-30 to 35°F/-34 to 2°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 13 to 17 weeks

- PowWow puts more flowers on every plant than any other seed Echinacea, for a terrific, nonfading colour show!
- Colour-packed pair is well-matched for habit and timing.
- Fuller, shorter and better branched than many tissue culture Echinacea - can be grown without growth regulators and shipped tight on racks.
- Programmable to meet market dates.
- Versatile series works well from gallon containers to premium packs.
- Packs are suitable for landscaper in-colour or green plant sales, and for prairie-to-go programs.
- Very drought-tolerant, easy-care plants stay tidy at retail with long holdability.

**Fast, non-fading colour that won't quit**

The first seed F1 gaillardia fills quart and gallon containers quickly with bold, brilliant colour. These plants hold up under dry conditions, and they put out intense, nonfading colour all season long. Create more colourful landscapes and mixed containers with Mesa.

**Create sun-filled Plug & Play Combos like this with Mesa Gaillardia!**

**NEW Plug & Play XXL Combo Sun Sea and Rosé, see page 248.**

Mesa Bright Bicolor adds colour and interest to perennial displays.

**GAILLARDIA** ●  
*Gaillardia x grandiflora*

**Mesa™ Series F1**

**Height:** 14 to 16 in./36 to 41 cm  
**Spread:** 20 to 22 in./51 to 56 cm

**USDA Hardiness Zones:**  
5a to 10b (-20 to 35°F/-29 to 2°C minimum temperatures)

**A First-Year-Flowering Perennial.**

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:**  
11 to 13 weeks

- The first F1 gaillardia from seed puts out lots of fast colour on sturdy plants.
- Strong, early-flowering, well-branched plants fill quart and gallon containers quickly while maintaining the controlled height.
- Compared with other seed gaillardia, Mesa varieties are more uniform in habit and flowering time, for easier scheduling and shipping.
- Very drought tolerant once established, with intense, non-fading colour all season.
- Upright, well-balanced plants perform well in landscapes and mixed containers.

**Red** Surpasses the competition in several areas: more consistent, redder colour; more uniform vigour/habit; 1 week earlier flowering. Flowers uniformly at 10 hours. Within the series, in Spring production, Red is 14 to 20 days earlier to flower than Bright Bicolor and Yellow. In Summer production, it is 1 week earlier than Bright Bicolor and 14 to 20 days earlier than Yellow.

**Sparkle White Gaura** All-America Selections National Winner, Fleuroselect Gold Medal

**GAURA** ●●  
*Gaura lindheimeri*

**Sparkle White**

**Height:** 12 to 24 in./30 to 61 cm  
**Spread:** 12 to 20 in./30 to 51 cm

**USDA Hardiness Zones:**  
5b to 9a (-15 to 20°F/-26 to -7°C minimum temperatures)

**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 5 weeks

**Transplant to finish:** 7 to 8 weeks

- Early, naturally compact and long-flowering variety is easy to grow, with no pinching necessary.
- Significant timing improvements over older seed Gaura genetics – 2 to 3 weeks faster. At 12 to 13-week crop time, it compares with vegetative varieties.
- Can be finished in 4 to 6-in./10 to 15-cm pots to save labour and bench time.
- Durable, drought-tolerant variety is compact enough for containers and floriferous enough to use as a bedding plant.

**GYPSOPHILA** ●●  
*Gypsophila cerastioides*

**Pixie Splash**

**Height:** 3 to 5 in./8 to 13 cm  
**Spread:** 4 to 7 in./10 to 18 cm

**USDA Hardiness Zones:**  
4a to 7b (-30 to 5°F/-34 to -15°C minimum temperatures)

**Seed supplied as:** Primed

**Plug crop time:** 5 to 6 weeks

**Transplant to finish:**  
26 to 40 weeks

- Early Spring perennial offers reliable seed quality and germination, uniform and compact habit, and short harvest window.
- Long-lasting on the shelf for minimum waste.

**Palace Purple Heuchera**

**Pixie Splash Gypsophila**

**HEUCHERA** ●●  
*Heuchera micrantha*

**Palace Purple**

**Foliage height:** 10 in./25 cm  
**Flower height:** 20 in./51 cm  
**Spread:** 14 to 16 in./36 to 41 cm

**USDA Hardiness Zones:**  
4a to 8b (-30 to 15°F/-34 to -9°C minimum temperatures)

**A First-Year-Flowering Perennial.**

**Seed supplied as:** Pelleted

**Plug crop time:** 6 to 8 weeks

**Transplant to finish:**  
10 to 12 weeks

- Compact variety has highly attractive foliage of strong bronze-purple, with small white flowers appearing later.

**Melting Fire Heuchera** EU PBR 20557

**HEUCHERA** ●●  
*Heuchera x hybrida*

**Melting Fire**

**Foliage height:** 8 in./20 cm  
**Flower height:** 18 in./46 cm  
**Spread:** 12 to 14 in./30 to 36 cm

**USDA Hardiness Zones:**  
4a to 8b (-30 to 15°F/-34 to -9°C minimum temperatures)

**Seed supplied as:** Pelleted

**Plug crop time:** 8 to 10 weeks

**Transplant to finish:**  
12 to 16 weeks

- Uniform, excellent-quality plant is cost-effective and easy to grow as a plug.
- Strong garden performer has good weather tolerance.
- Large plants have strong curled leaves in intense purple-red.
- True tissue culture alternative.

Luna White Hibiscus

Luna Pink Swirl Hibiscus

Luna Rose Hibiscus

Luna Red Hibiscus

Luna White Hibiscus

Luna Mixture Hibiscus

**HIBISCUS** ●  
*Hibiscus moscheutos*

**Luna™ Series F1**

**Height:** 24 to 36 in./61 to 91 cm  
**Spread:** 24 in./61 cm

**USDA Hardiness Zones:**  
5a to 9b (-20 to 25°F/-29 to -4°C  
minimum temperatures)

**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 3 to 4 weeks  
**Transplant to finish:**  
10 to 13 weeks

- Produces big, bushy, well-branched plants without pinching.
- Numerous 6 to 8-in./15 to 20-cm flowers.
- Ideal for large containers or in perennial gardens.
- Very responsive to PGRs.
- Higher germination than other seed varieties.

**ANNUAL HIBISCUS** See page 52.

**IBERIS** ●  
*Iberis sempervirens*

**Whiteout**

**Height:** 6 to 8 in./15 to 20 cm  
**Spread:** 8 to 12 in./20 to 30 cm

**USDA Hardiness Zones:**  
3a to 8b (-40 to 15°F/-40 to -9°C  
minimum temperatures)

**Seed supplied as:** Raw

**Plug crop time:** 3 to 4 weeks  
**Transplant to finish:** 26 to 36  
weeks; sow May to mid-August,  
finish March to May

- Delivers more uniform flowering and plant habit than other seed varieties.
- Improved branching and centre fill provides a more attractive finished plant.
- No pinching needed, for less labour and plant loss.

Whiteout Iberis

Whiteout Iberis

**Avignon Early Blue** EU PBRAF

**Lavance Deep Purple** EU PBR 48822

**Ellagance Purple** Fleuroselect Gold Medal

**LAVANDULA** ●

*Lavandula angustifolia*

**Avignon Early Blue**

**Height:** 10 to 12 in./25 to 30 cm  
**Spread:** 9 to 11 in./23 to 28 cm

**USDA Hardiness Zones:**  
6a to 8b (-10 to 15°F/-23 to -9°C  
minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:**  
10 to 14 weeks (24 to 36  
weeks overwintered)

- *Grow early, grow easy, grow beautiful!* This tight, well-branched and strong-stemmed plant shows deeper blue blooms earlier than similar English Lavenders.
- Grown as annual in the early cool season, Avignon Early Blue finishes about 2 weeks earlier than our Ellagance Purple and 1 week before the competition.
- Critical daylength is only 10 hours, like Ellagance Purple, but Avignon Early Blue grows better in cool conditions.

**Lavance Deep Purple**

**Height:** 10 to 12 in./25 to 30 cm  
**Spread:** 10 to 12 in./25 to 30 cm

**USDA Hardiness Zones:**  
5a to 8b (-20 to 15°F/-29 to -9°C  
minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 9 to 11 weeks

- Produces the deepest purple-blue Summer colour with no bleaching, on the most controlled *L. angustifolia* available.
- The only well-bulked Summer English Lavender - does not break in shipping.
- Strong branching.
- 1 to 2 weeks earlier than Lavance Purple.
- Best for Summer production, longer days and higher temperatures. Can also be scheduled for traditional overwintering production with potting Weeks 28 to 32.
- Highly scented.
- Attracts bees and butterflies, but does not attract deer and rabbits.

**Ellagance Series**

**Height:** 12 to 14 in./30 to 36 cm  
**Spread:** 10 to 12 in./25 to 30 cm

**USDA Hardiness Zones:**  
5b to 8b (-15 to 15°F/-26 to -9°C  
minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 10  
to 14 weeks (24 to 36  
weeks overwintered)

- Ellagance stands out from other seed and vegetative lavenders for its excellent uniformity, colour range, earliness and spike quality.
- Outstanding branching fills pots quickly and finishes with large, dense flower spikes and very strong stems.
- Spreading and upright plants have rich grey-green foliage.
- Winter hardy, cold tolerant and durable performance; foliage holds up better compared to other lavenders.
- High uniformity means harvest times are short and comparable to any vegetative variety.
- Ships well; long-flowering in perennial beds and patio planters.
- Great as a garden plant and for drying and arranging.
- Large, elegant flowers bloom all Summer and attract butterflies.

Find detailed information in our regional Lavender Scheduling Tool at [panamseed.com/perennials](http://panamseed.com/perennials).

LAVANDULA continued

**Blue Spear**

**Height:** 11 to 13 in./28 to 33 cm  
**Spread:** 9 to 11 in./23 to 28 cm

**USDA Hardiness Zones:** 6a to 8b (-10 to 15°F/-23 to -9°C minimum temperatures)

**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 11 to 15 weeks (24 to 36 weeks overwintered)

- *The showiest English Lavender you can grow and sell!* Blue Spear shows off bigger, taller spikes than any other seed lavender, with more upright flower stems that stand closer to each other for huge impact from a distance.
- Very easy to grow, with high uniformity, good habit and earliness (if grown with minimum 12-hour daylength).

**Transplant to finish:** 11 to  
14 weeks (28 to 35 weeks  
overwintered, only in high light/  
low humidity areas)

- Professional-quality seed *L. stoechas* series produces quality comparable to vegetative varieties.
- Compact to medium habit with good branching and uniformity - easily fills 4-in./10-cm pots to gallons.
- One to three weeks earlier to flower than the competition.
- Flowers heavily to almost cover the plant.
- Short harvest window - fits bench run programs.
- Long-flowering and self-cleaning with good secondary flush of flowers.
- Holds dense, mounded habit in the garden without falling open.
- A "Gateway to Gardening" variety for young shoppers - great nursery and grocery store impulse item, gift plant, indoor potted plant.

**Purple** 1 week later to flower than the rest of the series.

**LAVANDULA** ●  
*Lavandula multifida*

**Spanish Eyes**

**Height:** 16 to 25 in./41 to 64 cm  
**Spread:** 20 to 30 in./51 to 76 cm

**USDA Hardiness Zones:**  
7a to 10b (0 to 35°F/-18 to 2°C  
minimum temperatures)

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:**  
10 to 12 weeks

- Fast-growing tender perennial/annual variety flowers all Summer, right up until frost.
- Soft-textured and finely cut fernleaf foliage is topped by branched, 4-in./10-cm spikes that are beautiful in bud and stunning when blooms open.
- Free-flowering in pot and garden.

**Make the change to seed *L. stoechas* today!**

Professional-quality *L. stoechas* Bandera is an excellent seed option for this class. This compact, bushy, no-pinch plant has great flower power just 11 to 14 weeks from transplant, and it's quick to finish compared to vegetative varieties. Plus, no pinch means less production time, making it an all-around perennial winner.

Spanish Eyes

NEW

White Lion

NEW

White Lion

**Complete your seed shasta  
Leucanthemum F1 package!**

Use NEW White Lion for early-Spring sales from overwintered production (previously only possible with vegetative varieties) and for Spring sales from annual production. White Lion has a critical daylength of only 10 hours.

Use Madonna for late Spring and Summer sales in long-day conditions. Madonna has a critical daylength of 14.5 hours.

Both offer better uniformity in height and habit over their seed counterparts, plus they provide an excellent alternative to vegetative Leucanthemum with no vernalisation needed and no risk for bacterial infection. With these two options, you'll have easy-to-ship plants for early Spring into Summer on the bench and in the store.

Week 10 - Madonna (left) and NEW White Lion (right)

Madonna Fleuroselect Gold Medal, Fleuroselect Novelty

**LEUCANTHEMUM** ●  
*Leucanthemum x superbum*

**New White Lion F1**

**Height:** 8 to 10 in./20 to 25 cm  
**Spread:** 8 to 12 in./20 to 30 cm  
**Flower size:** 3 to 3.5 in./8 to 9 cm

**USDA Hardiness Zones:**  
3b to 9a (-35 to 20°F/-37 to -7°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** annual, 9 to 12 weeks; overwintered, 18 to 26 weeks (18 in southern regions)

- The Spring Shasta! This unique compact seed Leucanthemum can be grown in short days (10-hour daylength requirement) – perfect for early Spring sales!
- An alternative to vegetative varieties that doesn't require vernalisation and has no risk of bacterial infection.
- Ideal for an annual production schedule. No supplemental lighting needed, flowers under natural days.
- Perfect for overwintered production in natural short days, finished under natural short days, when it will bulk more uniformly. No supplemental light or Night Interruption needed.
- No other seed variety offers this early programming solution!

**Madonna F1**

**Height:** 8 to 10 in./20 to 25 cm  
**Spread:** 8 to 12 in./20 to 30 cm  
**Flower size:** 2.5 to 3 in./6 to 8 cm

**USDA Hardiness Zones:**  
3b to 9a (-35 to 20°F/-37 to -7°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:**  
10 to 14 weeks

- Madonna offers better uniformity in height and habit over the competition.
- An alternative to vegetative varieties that doesn't require vernalisation and has no risk of bacterial infection.
- Compact, first-year-flowering F1 shasta with a critical daylength of 14.5 hours.
- Features excellent vigour and leaf quality for optimal finishing in quarts to large containers using multiple plugs.
- It also offers a reduced percentage of "too small" plants compared to standard seed varieties.
- With a larger percentage of saleable plants, Madonna requires less labour for harvesting and grading.
- Up to 15% of petals may have laced-edge petals for a unique look.

**LOBELIA** ●  
*Lobelia x speciosa*

**Starship™ Series F1**

**Height:** 20 to 24 in./51 to 61 cm  
**Spread:** 8 to 12 in./20 to 30 cm

**USDA Hardiness Zones:**  
6a to 10b (-10 to 35°F/-23 to 2°C  
minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Pelleted

**Plug crop time (288 tray):**  
Scarlet, 7 to 9 weeks; all  
others, 8 to 10 weeks  
**Transplant to finish:**  
14 to 18 weeks

- Earlier flowering; improved branching; low stretch; uniform, controlled habit; and huge flower power assure a better-quality finished plant than the competition.
- Pretty Summer plant for beds and borders - prefers higher temperatures, humidity and moisture.
- Good germination and plug yield.
- Versatile series works well from 5-in./13-cm pots to higher-value 1 and 2-gallon containers.
- Performs well in both annual and perennial combos.
- Attracts hummingbirds and butterflies.

**Blue** This variety has a height of 24 to 28 in./61 to 71 cm, which is 6 to 8 in./15 to 20 cm taller than the rest of the series. It also has green leaves, in contrast to the bronze leaves of the other varieties.

**Burgundy** Features the same habit as Scarlet.

**New Rose** A bright rose colour. Matches Scarlet for timing and uniformity. Replaces Deep Rose.

**Scarlet Bronze Leaf** The most bronze-leaved variety in the series grows to 24 to 26 in./61 to 66 cm in height, about 4 to 6 in./13 to 15 cm taller than Scarlet, and is one week later to flower. Replaces Vulcan Red, which was 3 weeks later to flower than the series. Features an in-demand combination of deep bronze leaves with intense scarlet flower power.

**ANNUAL LOBELIA** See page 59.

Mon Amie Pink Myosotis

Mon Amie Blue Myosotis  
US PVP 200800070

**MYOSOTIS (FORGET-ME-NOT)** ●●  
*Myosotis sylvatica*

**Mon Amie Series**

**Height:** 8 to 10 in./20 to 25 cm  
**Spread:** 6 to 8 in./15 to 20 cm

**USDA Hardiness Zones:**  
6a to 8b (-10 to 15°F/-23 to -9°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 4 weeks  
**Transplant to finish:** 5 to 9 weeks

- Send your crop to market 3 to 6 months earlier than biannual myosotis varieties, as no vernalisation is needed for flowering.
- Can be a good choice for annual programs and can be reliably scheduled for Autumn or Spring.
- Media/soil pH requirements are similar to *Primula acaulis*.

**Pink** Has the same habit as Mon Amie Blue, but the foliage is a bit lighter green, and first and 100% flowering is 2 to 3 days earlier.

**Mixture** Combines Blue, Pink and white (not available separately).

**ORNAMENTAL OREGANO Kirigami** See page 67.

Mon Amie Mixture Myosotis

**PAPAVER** ●  
*Papaver nudicaule*

**Champagne Bubbles Series F1**

**Height:** 15 in./38 cm  
**Spread:** 6 in./15 cm

**USDA Hardiness Zones:**  
4a to 8b (-30 to 15°F/-34 to -9°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Primed

**Plug crop time:** 4 to 5 weeks  
**Transplant to finish:** 5 to 6 weeks

- Hybrid vigour delivers uniform flowers, earliness and long-lasting garden performance compared to O.P. varieties.
- Many large, cup-shaped flowers top bushy, strong-stemmed plants.
- Performs well in hot-day, cool-night conditions.
- Good Winter item in Florida, California and similar climates.

Goldsturm Rudbeckia

Electric Blue Penstemon

**PENSTEMON** ●  
*Penstemon heterophyllus*

**Electric Blue**

**Height:** 18 in./46 cm  
**Spread:** 24 in./61 cm

**USDA Hardiness Zones:**  
6a to 8b (-10 to 15°F/-23 to -9°C  
minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 4 to 5 weeks  
**Transplant to finish:**  
12 to 13 weeks

- Good performer in warm climates, producing multiple stems with branched spikes holding intense blue flowers.

**RUDBECKIA** ●  
*Rudbeckia fulgida* var. *sullivantii*

**Goldsturm**

**Height:** 24 to 28 in./61 to 71 cm  
**Spread:** 14 to 18 in./36 to 46 cm

**USDA Hardiness Zones:**  
3a to 9b (-40 to 25°F/-40 to -4°C  
minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Primed

**Plug crop time:** 6 to 8 weeks  
**Transplant to finish:**  
20 to 24 weeks

- Superior seed quality compared to other Goldsturm strains.
  - Premium, late Summer-flowering perennial is considered "best in class" for landscapes.
  - Upright plants produce a large, single, scentless bloom on every stem, over tight, dark green foliage.
- Goldsturm needs early sowing and optimal natural growing conditions to provide 100% First Year Flowering.

**Patio Sky Blue Salvia**  
Fleuroselect Quality Mark

**Patio Deep Blue Salvia**  
Fleuroselect Quality Mark

**SALVIA** ●  
*Salvia patens*

**Patio Series**

**Height:** 12 to 14 in./30 to 36 cm  
**Spread:** 8 to 12 in./20 to 30 cm

**USDA Hardiness Zones:**  
8a to 10b (10 to 35°F/-12 to 2°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:** 7 to 11 weeks

- With its excellent branching plant habit, Patio is more compact and richer flowering than similar strains.
- Also works well as an annual.
- Well-suited to Summer containers and borders/beds.
- Series includes the most appealing deep blue colour on your bench.

**It's as tough as... STEEL!**

*A perennial first:* Grow high-quality, affordable Perovskia from professional-grade seed. Blue Steel has higher and much more uniform germination than other seed varieties so you'll grow top-notch plugs easily and efficiently. No vernalisation or overwintering is needed, so production time is slashed. And grown beside leading vegetative varieties, you can't see a difference.

**PEROVSKIA** ●  
*Perovskia atriplicifolia*

**Blue Steel**

**Height:** First year, 18 to 24 in./46 to 61 cm; second year and on, 30 to 36 in./76 to 91 cm  
**Spread:** First year, 14 to 22 in./36 to 56 cm; second year and on, 20 to 38 in./51 to 97 cm

**USDA Hardiness Zones:**  
4a to 9b (-30 to 25°F/-34 to -4°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 5 to 11 weeks  
**Transplant to finish:** 9 to 15 weeks

- Sturdy, controlled habit in the landscape is comparable to the vegetative leader.
- Combines the best Summer-blooming lavender-blue colour with outstanding late-season garden performance.
- Aromatic, silvery foliage carries clouds of small blue flowers on strong silver stems that do not break or split easily.
- High flower show rate with 1 to 3 plugs per 1-gallon container or 3 to 5 per 2-gallon container.
- It's affordable to use multiple plugs in each pot and always finish with huge retail appeal.
- Pinch for optimal branching.
- Heat/drought tolerant, very hardy.

**Blue Steel Perovskia**

**Opening the door to seed Salvia**

With the largest spikes and the deepest blue colour, Salvatore Blue is an excellent alternative to vegetative Salvia. Plus, it offers a critical daylength of 10 hours for finishing in early Spring, which previously was only possible with vegetative varieties.

**Salvatore Blue** *Fleuroselect Novelty*

**Salvatore Blue** *Fleuroselect Novelty*

**New Dimension Rose**  
*Fleuroselect Novelty*

**New Dimension Blue**

**SALVIA** ●

*Salvia nemorosa*

**New Dimension™ Series**

**Height:** 8 to 10 in./20 to 25 cm

**Spread:** 6 to 8 in./15 to 20 cm

**USDA Hardiness Zones:**

4a to 8b (-30 to 15°F/-34 to -9°C minimum temperatures)

**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw, Coated

**Plug crop time:** 5 to 6 weeks

**Transplant to finish:** 8 to 11 weeks

- The deepest blue and rose salvia from seed!
- Economical and easy to produce.
- Large, compact and well-branched plants feature strong-coloured flowers that last in the landscape.
- Well-matched series finishes fast with no PGRs needed.
- Fits into annual production schedules.

**Salvatore Blue**

**Height:** 10 to 12 in./25 to 30 cm

**Spread:** 6 to 8 in./15 to 20 cm

**USDA Hardiness Zones:**

4a to 8b (-30 to 15°F/-34 to -9°C minimum temperatures)

**Seed supplied as:** Raw, Coated

**Plug crop time:** 5 to 6 weeks

**Transplant to finish:** 8 to 10 weeks

- Premium-look Salvia features the largest spikes and the deepest coloured calyx, spikes and flower in *Salvia nemorosa* from seed.
- A good seed alternative to vegetative Salvia.
- More vigorous than New Dimension Blue, it is better suited for gallons.
- Features black stems on well-branched plants.
- Ideal for annual and overwintering production.
- With a critical daylength of 10 hours, it is possible to finish for early Spring, which previously was only possible with vegetative varieties.

**SAXIFRAGA** ●  
*Saxifraga x arendsii*

**Rocco Red**

**Height:** 3 to 5 in./8 to 13 cm  
**Spread:** 3 to 5 in./8 to 13 cm

**USDA Hardiness Zones:**  
4a to 7b (-30 to 5°F/-34 to -15°C minimum temperatures)

**Seed supplied as:** Pelleted

**Plug crop time:** 9 to 10 weeks  
**Transplant to finish:**  
28 to 36 weeks

- More uniform plant size, shorter stems and less colour variability than Highland Red.
- First professional-quality seed *S. x arendsii* on the market – an excellent conversion from vegetative varieties.
- Produces a vigorous, short-stemmed plant that fills the pot.

**SCABIOSA** ●●  
*Scabiosa columbaria*

**Blue Note**

**Height:** 8 to 10 in./20 to 25 cm  
**Spread:** 8 to 10 in./20 to 25 cm

**USDA Hardiness Zones:**  
5a to 9b (-20 to 25°F/-29 to -4°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 6 to 8 weeks  
**Transplant to finish:**  
12 to 14 weeks

- Uniform and compact, with no PGRs needed in production.
- Long-flowering, basal-branching plants have dense, dark green foliage and abundant, short-stemmed, clear blue flowers all season.

**SCABIOSA** ●  
*Scabiosa japonica var. alpina*

**Pink Diamonds**

**Height:** 8 to 10 in./20 to 25 cm  
**Spread:** 8 to 10 in./20 to 25 cm

**USDA Hardiness Zones:**  
5a to 9b (-20 to 25°F/-29 to -4°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Raw

**Plug crop time:** 6 to 8 weeks  
**Transplant to finish:**  
13 to 15 weeks

- Good companion to Blue Note.
- Plants maintain a perfect, well-branched shape all season.
- Long-flowering with dense, rich dark green leaves.

**SILENE** ●  
*Silene alpestris*

**Starry Dreams**

**Height:** 6 to 8 in./15 to 20 cm  
**Spread:** 8 to 10 in./20 to 25 cm

**USDA Hardiness Zones:**  
5a to 8b (-20 to 15°F/-29 to -9°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Pelleted

**Plug crop time:** 5 to 6 weeks  
**Transplant to finish:**  
10 to 12 weeks

- Produces a compact, fresh green leaf cushion from which small, star-shaped, upward-facing pure white flowers emerge.
- Excellent for container production, with elegant finished quality.

**VERBASCUM** ●  
*Verbascum x hybrida*

**Southern Charm**

**Height:** 24 to 30 in./61 to 76 cm  
**Spread:** 12 to 18 in./30 to 46 cm

**USDA Hardiness Zones:**  
5a to 8b (-20 to 15°F/-29 to -9°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Pelleted

**Plug crop time:** 4 to 5 weeks  
**Transplant to finish:**  
12 to 13 weeks

- Florets are arranged in pairs, doubling the life of the flower spike.
- Plants bloom in Spring, go dormant under high temperatures and rebloom in Autumn.

**VERBENA** ●  
*Verbena bonariensis*

**Buenos Aires**

**Height:** 40 to 50 in./102 to 127 cm  
**Spread:** 12 to 16 in./30 to 41 cm

**USDA Hardiness Zones:**  
7a to 9b (0 to 25°F/-18 to -4°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Primed

**Plug crop time:** 6 to 7 weeks  
**Transplant to finish:**  
16 to 18 weeks

- Tall, free-flowering Verbena with open plant habit is grown primarily as an annual and used as a pretty accent plant or height divider in the border.

**VERBENA** ●  
*Verbena rigida*

**Santos Purple**

**Height:** 12 in./30 cm  
**Spread:** 48 in./122 cm

**USDA Hardiness Zones:** tender perennial; 7a to 11 (0°F/-18°C minimum temperatures)  
**A First-Year-Flowering Perennial.**

**Seed supplied as:** Primed

**Plug crop time:** 6 to 7 weeks  
**Transplant to finish:**  
11 to 13 weeks

- Kieft Seed offers the first high-yield primed seed form of Santos Purple – count on reliable availability, high germination and excellent plug yield for this popular variety.
- One of the best tough and long-lasting landscape perennials available – very heat and drought tolerant, plus exceptional performance in cool climates.
- Compact and upright, well-branched plants bloom late Spring through Summer.
- High powdery mildew resistance.
- Good in baskets and combo planters, too.

**Mega Revolution™ Series F1**

**Height:** 6 to 10 in./15 to 25 cm  
**Spread:** 12 to 14 in./30 to 36 cm  
**Flower size:** 4 to 5 in./10 to 13 cm

**Seed supplied as:** Coated

**Plug crop time:** 6 to 7 weeks

**Transplant to finish:** 8 to 10 weeks

- Produces manageable, larger-sized plants with very large flowers - beats competing series for colour range, bloom size and seed quality.
- Ideal for larger container programs.
- Supplied with industry-leading seed quality.

**Bright Orange with Light Eye**

One of the fastest varieties in the series and one with the largest flowers.

**Bright Red** Contains a mix of dark and light eyes.

**Bright Rose with Dark Eye**  
Smaller flowers and slightly taller compared to the series average.

**Deep Rose with Light Eye**  
Superior dark colour is great for mixes and combo pots. Colour holds very well under high light levels.

**Salmon Rose with Light Eye**  
High percentage of double-petalled blooms.

**White with Light Eye**  
Cleaner white colour than the competition.

**Yellow with Dark Eye**  
Best dark-eyed yellow gerbera on the market.

**Select Mixture** A selection of the best colours in the series.

Revolution Deep Pink with Light Eye

Bicolor Rose White

**Hit your schedule every time**

Flower timing is synchronized across the colour range in each Revolution series, so your product flows smoothly. No surprises...you grow, pick, pack and ship just as you planned. High uniformity enables a consistent, fully programmable, high-density crop year-round.

GERBERA continued

**Revolution™ Series F1**

**Height:** 4 to 8 in./10 to 20 cm  
**Spread:** 10 to 12 in./25 to 30 cm  
**Flower size:** 3 to 4 in./8 to 10 cm  
**Seed supplied as:** Coated  
**Plug crop time:** 6 to 7 weeks  
**Transplant to finish:** 8 to 10 weeks

- When it comes to uniformity of flowering window across a complete colour range, Revolution is the leading standard-size pot gerbera.
- Industry-leading seed quality.
- Better second flush of flowers than the competition assures much longer bloom time for the consumer.
- Best for 5-in./13-cm pots.

**Bicolor Red Lemon** A unique bicolor in gerberas.

**Deep Orange with Dark Eye** More compact variety has a good, deep orange colour.

**New Orange with Light Eye Improved** Features a stronger, deep orange colour that doesn't fade under high light conditions; better flower quality, with more and wider petals; more compact flower stems with improved, uniform length, and a higher quantity of usable plants.

**Red with Light Eye** Puts multiple blooms up at one time and has the shortest cropping window of any gerbera.

**Salmon Shades with Light Eye** Features short stems, making it a good mix component, with shades from deep salmon to pink.

**Bicolor Mixture** Available in North America only. Includes all four bicolor varieties.

**Select Mixture** Uniform mix of bold, bright colours.

**Transplant to finish:** 6 to 10 weeks

- The ColorBloom series is specially designed for the quart/11-cm retail market.
- ColorBloom is the most uniform series on the market, with the best performance for consumers.
- The series is around 10 days faster to flower than competitors.
- More uniform with a shorter flower window.
- It has a higher amount of usable plants due to better seed quality.
- Offers a compact plant habit that requires less to no PGRs.
- Series holds its colour better and won't fade in high light.

**Bicolor Orange Yellow**

Around one week later to flower compared to other varieties in the series.

**New Bicolor Red White** A unique bicolor for this quart/11-cm pot market segment! Fits the series for controlled plant habit and consumer performance; 5 days later to flower like Bicolor Orange Yellow and NEW Deep Orange with Dark Eye.

**Cherry with Light Eye**

Can show more red under higher light conditions.

**New Deep Orange with Dark Eye**

Features a good orange colour that doesn't fade under higher light conditions. Fits the series very well for plant habit and consumer performance; 5 days later to flower like NEW Bicolor Red White and Bicolor Orange Yellow. Adding this top-selling colour means we can now offer growers a complete gerbera program!

**Red with Dark Eye**

More uniform in colour and around one week earlier to flower than competing reds.

**White with Dark Eye**

Clear white and uniform in colour.

**Yellow with Dark Eye**

Slightly smaller flowers than the rest of the series.

**Mixture** Includes all varieties in the series. Note that Bicolor Orange Yellow is slightly later to flower than the rest of the varieties.

**Height:** 24 to 30 in./61 to 76 cm

**Spread:** 6 to 8 in./15 to 20 cm

**Seed supplied as:** Raw, Treated

**Plug crop time:** 2 to 3 weeks

**Transplant to finish:** 8 to 9 weeks

- Excellent florist gift item or indoor plant; also well-suited to warm landscape markets like Florida.
- Pollen-free, dwarf sunflower produces well-formed, 4 to 5-in./10 to 13-cm flowers.
- Flowers at short height under short days; under long Summer days, plants are taller without growth regulators.

**Choco Sun**

**Height:** 10 to 12 in./25 to 30 cm

**Spread:** 12 to 14 in./30 to 36 cm

**Seed supplied as:** Raw, Treated

**Plug crop time:** 2 to 3 weeks

**Transplant to finish:** 8 to 9 weeks

- Very compact, well-branched plants set a large bloom on the central stalk, with several smaller flowers on side shoots.
- Excellent uniformity and earliness allow for easy scheduling and deliver a high yield of saleable plants.
- Ideal for containers, window boxes and gardens.

**Miss Sunshine F1**

**Height:** 10 to 16 in./25 to 41 cm

**Spread:** 6 to 8 in./15 to 20 cm

**Seed supplied as:** Raw, Treated

**Plug crop time:** 2 to 3 weeks

**Transplant to finish:** 7 to 8 weeks

- Dwarf, golden yellow sunflower is easy and economical to produce, needing fewer PGRs and flowering at a shorter height under short days.
- Pollen-free plants have 3 to 4-in./8 to 10-cm blooms with a fast flush of secondary flowers.
- Perfect for mixed and mono planters.

**SunBuzz F1** ●●

**Height:** 12 to 20 in./30 to 51 cm

**Spread:** 8 to 12 in./20 to 30 cm

**Seed supplied as:** Raw, Treated

**Plug crop time:** 2 to 3 weeks

**Transplant to finish:** 6 to 8 weeks

- Clear yellow-filled flowers make SunBuzz a real standout!
- Compact, smaller-leaved plants are more manageable and programmable on the bench, and more appealing in the store.
- Delivers better seed uniformity and needs fewer PGRs than similar varieties.
- Fast flowering and a compact habit.

**Mona Lisa Red Bicolor Anemone**

**NEW**

**Mona Lisa Mixture Improved Anemone**

**ANEMONE**

*Anemone coronaria*

**Mona Lisa® Series F1**

Form Supplied As: Raw

**Cultivation Type:**

Greenhouse, High Tunnel

**Planting Density:** 22 to 44 plants/sq. metre (2 to 4 plants/sq. foot).

**Usage:** Focal

**Stem Length:** 18 in./46 cm

**Bloom Size:**

4 to 4.5 in./10 to 11 cm

The large, bright blooms of Mona Lisa Anemone are a masterpiece in any bouquet. Mona Lisa varieties produce up to 18 flowers per plant and are best grown cool without the need for supplemental light. Low temperatures (8 to 12°C/46 to 54°F) promote optimum stem length.

**Harvest Recommendation:**

Harvest when flower buds are fully coloured and about 30-40% open/cupped stage. Avoid harvesting fully open flowers with pollen shed.

**Post-Harvest Recommendation:**

Avoid ethylene exposure; an ethylene-inhibiting treatment is recommended. Hydrate and store in cooler at 1-3°C (34-38°F) in commercial floral solution at recommended rates.

**Vase Life:** 5-7 days

**New Mixture Improved**

Reformulated for a better balance of all colours in the series, it now includes the recently improved Deep Blue and Orchid Shades, as well as Pink, Red Bicolor, Scarlet Eye, White and Wine White Bicolor.

**ASCLEPIAS**

*Asclepias curassavica*

**Silky Series**

Form Supplied As: Raw

**Cultivation Type:**

Greenhouse, High Tunnel, Field

**Planting Density:** 22 to 32 plants/sq. metre (2 to 3 plants/sq. foot).

**Usage:** Filler

**Stem Length:**

24 to 28 in./61 to 71 cm

High-quality series is bred for greenhouse and outdoor field production.

**Harvest Recommendation:**

Harvest early in the day when 50-65% of flowers are open. Do not sear the stems in hot water as you would do with other Asclepias.

**Post-Harvest Recommendation:**

After harvest, change solutions 2-3 times to eliminate any latex exudate. Holding solution is optional. Avoid ethylene exposure; an ethylene-inhibiting treatment is recommended. Store at 4-7°C (40-45°F). Transport in solution if possible.

**Vase Life:** Consumer floral preservative recommended to keep water clear. Vase life 8-10 days.

Campana Deep Blue Campanula

Campana White Campanula

Campana Lilac Campanula

Campana Pink Campanula

Grenade Orange Carthamus

**CAMPANULA**

*Campanula medium*

**Campana Series F1**

**Form Supplied As:** Pelleted

**Cultivation Type:**

Greenhouse, High Tunnel

**Planting Density:** 64 to 80 plants/sq. metre (6 to 8 plants/sq. foot).

**Usage:** Line, Secondary

**Stem Length:**

30 to 34 in./76 to 86 cm

Top-quality professional cut flower series is a low-energy crop, suitable for Summer or Winter production. See Technical Resources at bloomstudios.com for daylength requirements. Well-matched across the series for timing and habit, Campana delivers strong stems, good foliage and excellent uniformity.

**Harvest Recommendation:**

Harvest stems when two to three flowers are fully open.

**Post-Harvest Recommendation:**

Using cool water, use a hydrating solution upon harvest. Move to a holding solution and store at 2°C (37°F). Avoid ethylene exposure; an ethylene-inhibiting treatment is recommended.

**Vase Life:** Commercial

preservative is recommended. Vase life up to 10 days.

**CARTHAMUS**

*Carthamus tinctorius*

**Grenade Orange**

**Form Supplied As:** Coated

**Cultivation Type:**

High Tunnel, Field

**Planting Density:** 40 to 62 plants/sq. metre (4 to 6 plants/sq. foot).

**Usage:** Filler

**Stem Length:**

32 to 40 in./81 to 102 cm

Features thornless leaves and round flower buds atop stems of uniform length. Best grown as a direct-sown crop, in field and high tunnel applications. Good for fresh and dried green use; can also be used green when harvested young.

**Harvest Recommendation:**

Harvest when flowers are starting to open for blooming use. Cut stems young/green for use as green filler.

**Post-Harvest Recommendation:**

Hydration solution followed by holding solution. Short-term cold storage at 2-4°C (35-40°F) is tolerated. Not ethylene sensitive.

**Vase Life:** 5-8 days

**CELOSIA**

*Celosia cristata* (Cockscomb)

**Spring Green**

**Form Supplied As:** Pelleted

**Cultivation Type:**

Greenhouse, High Tunnel

**Planting Density:** 64 to 80 plants/sq. metre (6 to 8 plants/sq. foot).

**Usage:** Secondary

**Stem Length:**

40 to 48 in./102 to 122 cm

Programmable production and good for economical, high-density programs. High yields, strong stems and few off-shoot flowers. Flowers hold colour well and are well-suited to dried use.

**Harvest Recommendation:**

Harvest stems as crest is almost completely full.

**Post-Harvest Recommendation:**

Strip 50-75% foliage. Use distilled water; no need for hydration or holding solutions. Avoid cold storage if possible.

**Vase Life:** 7-14 days

### Grow your margin, grow your sales

Neo lets you grow over a longer period through the year and yield more usable stems from every sq. meter/sq. foot. Ship out better quality *C. cristata* and give florists a product that's easier to arrange and easier to sell. Less long-day sensitive, making it easier to produce over a longer period during the year for most growers. Features unique colours and a much better leaf habit. Easier to work with for bouquets or flower arrangements due to smaller leaves.

CELOSIA CRISTATA continued

#### Neo™ Series

**Form Supplied As:** Pelleted

**Cultivation Type:**

Greenhouse, High Tunnel

**Planting Density:** 64 to 80 plants/sq. metre (6 to 8 plants/sq. foot).

**Usage:** Secondary

**Stem Length:**

28 to 40 in./71 to 102 cm

**Harvest Recommendation:**

Harvest stems as crest is almost completely full.

**Post-Harvest Recommendation:**

Strip 50-75% foliage. Use distilled water; no need for hydration or holding solutions. Avoid cold storage if possible.

**Vase Life:** 7-14 days

**Gold** Deepest yellow colour available on the market. NOTE: More sensitive to fusarium wilt compared to the rest of the series.

**Orange** Unique colour for the market will stir up interest for growers, retailers and florists.

**Pink** Beautiful dark-stemmed variety, with slightly smaller bloom. 7-11 weeks transplant to finish.

**Red** Slightly shorter stem length. 9-13 weeks transplant to finish.

**Rose** The tallest of the series, with bigger flower heads. 9-13 weeks transplant to finish.

Bright Pink

**CELOSIA**

*Celosia plumosa*

**Sunday™ Series**

**Form Supplied As:** Pelleted

**Cultivation Type:** Greenhouse, High Tunnel, Field

**Usage:** Secondary

**Stem Length:**

28 to 40 in./71 to 102 cm

First professional cut version of the popular plume-shaped celosia. Full plumes and long, strong stems enhance high-end retail mixed bouquets. Short, programmable production time and high yield; ideal for high-density programs. Excellent shipability and vase life.

**Harvest Recommendation:**

Harvest stems as plume is 90-100% developed.

**Post-Harvest Recommendation:**

Strip 50-75% foliage. Use distilled water; no need for hydration or holding solutions. Avoid cold storage if possible.

**Vase Life:** 7-14 days

Guardian Mixture

Guardian Lavender

**DELPHINIUM**

*Delphinium elatum*

**Guardian Series F1**

**Form Supplied As:** Raw

**Cultivation Type:** Greenhouse, High Tunnel, Field

**Planting Density:** 25 to 45 plants/sq. metre (2 to 4 plants/sq. foot).

**Usage:** Line

**Stem Length:**

30 to 39 in./76 to 99 cm

Guardian is an F1 hybrid *delphinium elatum* that delivers programmable and reliable yields of stems.

**Harvest Recommendation:**

Harvest stems when the first 1 to 2 flowers are fully open. For local markets, harvest when 30% of florets have opened.

**Post-Harvest Recommendation:**

Delphinium are highly sensitive to ethylene; it is recommended to treat with an ethylene-inhibiting product immediately after harvest. Hydrate and store in a cooler at 1-3°C (34-38°F) in a commercial floral holding solution at the manufacturer recommended rate.

**DELPHINIUM**

*Delphinium x belladonna*

**Blue Donna**

**Form Supplied As:** Raw

**Cultivation Type:** Greenhouse, High Tunnel, Field

**Planting Density:** 9 to 18 plants/sq. metre (1 to 2 plants/sq. foot).

**Usage:** Line

**Stem Length:**

32 to 40 in./81 to 102 cm

Blue Donna is great for producing deep blue flowers during the warmer periods of growing.

**Harvest Recommendation:**

Harvest stems when 75-80% of the florets have opened.

**Post-Harvest Recommendation:**

Delphinium are highly sensitive to ethylene; it is recommended to treat with an ethylene-inhibiting product immediately after harvest. Hydrate and store in a cooler at 1-3°C (34-38°F) in a commercial floral holding solution at the manufacturer recommended rate.

## DIANTHUS

*Dianthus barbatus*

### Sweet™ Series F<sub>1</sub>

Form Supplied As: Pelleted

Cultivation Type: Greenhouse, High Tunnel

Planting Density: 64 plants/sq. metre (6 plants/sq. foot).

Usage: Filler, Secondary

Stem Length: 18 to 36 in./46 to 91 cm

Versatile and programmable series can be produced without vernalisation and is the best dianthus for cooler production seasons. A top-notch filler series that features large, long-lasting blooms on strong stems.

**Harvest Recommendation:** Harvest stems when 20-50% of florets are open.

**Post-Harvest Recommendation:** Dianthus are sensitive to ethylene; it is recommended to treat with an ethylene-inhibiting product. Hydrate and store in a cooler at 1-3°C (34-38°F) in commercial floral holding solution at the manufacturer recommended rates.

**Deep Pink Maxine** More intense color than Sweet Pink. A top-selling color in most markets.

**New Neon Purple** Bright purple colour really pops in bouquets. Similar to the colour of the very popular Amazon Neon Purple.

**New Rose Magic** New color option for the series! Flowers open white, change to pink, and then mature to a rich rose for a tricolor look on the stem. Similar to the pattern of the very popular Amazon Rose Magic.

**White** Pure white with no grey anthers.

Also available: **Mixture**

Purple White Bicolor

Magenta Bicolor

Red

Black Cherry

**QIS Carmine Gomphrena**  
Fleuroselect Quality Mark

**QIS Mixture Gomphrena**

**QIS Orange Gomphrena**

**QIS Red Gomphrena**

**GOMPHRENA**

*Gomphrena haageana*

**QIS Series**

**Form Supplied As:** Raw

**Cultivation Type:** High Tunnel, Field

**Planting Density:** 11 to 21 plants/sq. metre (1 to 2 plants/sq. foot).

**Usage:** Filler

**Stem Length:** 24 to 26 in./61 to 66 cm

Vivid colour range makes these a first-class professional cut flower for greenhouse and outdoor production; suited to fresh and dried use.

**Harvest Recommendation:**

Harvest when flowers are in colour and head is rounded, but before heads elongate.

**Post-Harvest Recommendation:**

Good-quality, clean water. No additional benefits from use of commercial floral solutions. Store at 3-4°C (36-41°F) if necessary for less than 7 days for best performance.

**Vase Life:** 14-16 days

**GOMPHRENA**

*Gomphrena pulchella*

**Fireworks**

**Form Supplied As:** Coated

**Cultivation Type:** Greenhouse, High Tunnel, Field

**Planting Density:** 11 plants/sq. metre (1 plant/sq. foot).

**Usage:** Filler

**Stem Length:** 36 to 48 in./91 to 122 cm

Vigorous, "tough as nails" plants are productive and make an excellent filler flower for mixed bouquets - fresh or dried. Easy to produce and suitable for field production.

**Harvest Recommendation:**

Harvest when flower heads are sized up and in colour.

**Post-Harvest Recommendation:**

Good-quality, clean water. No additional benefits from use of commercial floral solutions. Store at 3-4°C (36-41°F) if necessary for less than 7 days for best performance.

**Vase Life:** 14-16 days

**Fireworks Gomphrena**

**Frosted Explosion Grass Panicum**

**GRASS PANICUM**

*Panicum capillare*

**Frosted Explosion**

**Form Supplied As:** Multi-Seed Pellets

**Cultivation Type:** Greenhouse, High Tunnel, Field

**Planting Density:** 25 to 32 plants/sq. metre (2 to 3 plants/sq. foot).

**Usage:** Filler

**Stem Length:** 24 to 30 in./61 to 76 cm

This easy-to-grow grass adds a delicate texture to any bouquet. Dries well. Facultative short-day flowering response; see bloomstudios.com technical resources for key growing tips.

**Harvest Recommendation:**

Harvest stems when panicles are tufted green all the way to fully exploded and bronze tinged.

**Post-Harvest Recommendation:**

Use a sharp cut and place stems in a holding solution after harvest.

*First place winner, filler category at ProFlora 2019! ASCFG 2010 Dried Cut Flower of the Year!*

**Vase Life:** 10-14 days

**QIS Mixture Limonium**

**LIMONIUM (STATICE)**

*Limonium sinuatum*

**QIS Series**

**Form Supplied As:** Raw

**Cultivation Type:** High Tunnel, Field

**Planting Density:** 10 to 20 plants/sq. metre (1 to 2 plants/sq. foot).

**Usage:** Filler

**Stem Length:** 30 to 35 in./76 to 89 cm

Widely recommended by professional cut flower growers in the world, QIS ('Quality in Seed') is a considerable improvement over standard seed varieties in uniformity, colour, flower size and stem quality. Produces clouds of tiny, non-shattering flowers. Delivers shipability and long vase life. Popular for both fresh and preserved cut flower production. Stiff stems do not require netting.

**Harvest Recommendation:**

Harvest stems when 50% or more of florets are open, and sepals are coloured.

**Post-Harvest Recommendation:**

Harvested stems should be placed in a hydration solution, then moved to a holding solution for best performance. Ethylene-inhibiting treatments are recommended. Make sure moisture on the stems is dried off prior to storage to prevent botrytis. Store at 3-5°C (36-41°F).

**Vase Life:** Vase life average 8 days. Stems may also be dried.

**F1 DOUBLE-FLOWERED LISIANTHIUS**

*Eustoma grandiflorum*

**Flare Series F1**

**Form Supplied As:** Pelleted

**Cultivation Type:** Greenhouse, High Tunnel

**Planting Density:** 65 to 85 plants/sq. metre (6 to 8 plants/sq. foot).

**Usage:** Focal, Secondary

**Stem Length:** 36 to 45 in./91 to 114 cm

Flare Lisianthus, a group 2 series, has medium, double flowers, with a top-flowering habit ideal for use in bouquets. The series has been bred and selected for reduced sensitivity to rosetting, resulting in less risk in production.

**Harvest Recommendation:**

Harvest when the first flower has fully opened.

**Post-Harvest Recommendation:**

Hydrate flowers with a floral hydration solution for one hour at room temperature. Store in a cooler at 2-5°C (36-41°F) in a commercial floral holding solution at the manufacturer recommended rates.

**Vase Life:** 10-14 days

**QIS Apricot Limonium**

NEW

Orange

NEW

Orange

**Strong stems stand up to shipping**

Strong stems and rich colour make NEW Cut Flower Marigold Xochi Orange the best for bouquets and grower bunches. An excellent option for Summer and Fall cut flower programs, Xochi offers the uniformity, good shipability and durability to meet the increasing consumer demand for Dia de los Muertos and Halloween celebrations.

NEW

Xochi Orange

**MARIGOLD**  
*Tagetes erecta*

**New Xochi™ Orange F1**

**Form Supplied As:** Coated

**Cultivation Type:**

High Tunnel, Field

**Planting Density:** 80 to 100 plants/sq. metre (8 to 10 plants/sq. foot).

**Usage:** Focal, Secondary

**Stem Length:**

24 to 36 in./61 to 91 cm

**Bloom Size:** 3 to 4 in./8 to 10 cm

Xochi means “flower” or “princess of flowers” and is a shortened version of Xochitl, an ancient Aztec word used in Spanish today, most commonly in Mexico. Good for use in bouquets and grower bunches.

**Harvest Recommendation:**

For shipping, harvest flowers when blooms are at 7 cm (2.75”) in diameter. For local market, harvest stems when first flower is fully open.

**Post-Harvest Recommendation:**

Take care when handling flowers to avoid snapping flower heads off of stems. Marigolds can be stored either wet or dry at 2-5°C (35-38°F). If storing wet, use a commercial floral holding solution.

**Vase Life:** Marigolds have an excellent vase life of 10+ days.

### The power of caring & sharing

We are proud to support PANCAN for pancreatic cancer research by donating 5% of our net seed sales of Katz Matthiola in honor of Philip Katz.

PanAmerican Seed was honored to have Philip Katz as our Cut Flower Product Manager for 13 years. Philip spearheaded the drive to grow our business in this important

market into one that is now supplying commercial growers around the globe with outstanding, high-quality cut flower varieties. After a valiant battle, the disease took Philip from all of us. The debut of a new matthiola series was timely and let us honor Philip in a way he would have truly appreciated.

*Capsicum annuum*

Seed supplied as: Raw

Pepper plants are ready to place inside on a sunny counter or windowsill, or outside on a patio table. They are ideally sold with some ripe fruit - 'ready-to-harvest'. They continue to produce tasty vegetables over 4 to 6 weeks.

Name	Fruit characteristics	Plant habit	Plug crop time (weeks)	Potting to sale (weeks)	Pot size	Comments
HOT						
<b>Adobo</b> ))	Conical, light green to red 4.5 in./11 cm long x 1 in./3 cm wide	Large, upright	3-4	14-16	6-8 in./15-20 cm	Upright, conical peppers start out chartreuse green, then continue to mature in hues of yellow, orange and red, creating a colourful display on each plant. Wide fruit with thick walls will sweeten as it ripens and is great for roasting or stuffing with cheese for a mild, sweet-spicy dish.
<b>Cosmo</b> ))	Blunt conical, purple to red 2 in./5 cm long x 0.75 in./2 cm wide	Bush, large	3-4	16-18	6-8 in./15-20 cm	Brilliant purple, snack-sized fruit turn red when fully mature. Use fresh or cooked to add a medium amount of spice to any dish.
<b>Hot Burrito</b> )	Blunt conical, light green to red 4 in./10 cm long x 0.75 in./2 cm wide	Medium, upright	3-4	14-16	6-8 in./15-20 cm	Lime-green fruit will ripen to bright red for a colourful display of fruit on top of the foliage. Broad, conical fruit is mildly spicy and great for adding to a sauce or slow-cooking with braised savoury dishes.

) = mild    )) = mildly hot    ))) = medium hot    )))) = hot    ))))) = extra hot

Hot Lemon

Hot Joker

Hot Fajita

Name	Fruit characteristics	Plant habit	Plug crop time (weeks)	Potting to sale (weeks)	Pot size	Comments
<b>Hot Fajita</b> )))	Medium chili, light green to red 4 in./10 cm long x 0.5 in./1 cm wide	Large, upright	3-4	14-16	6-8 in./15-20 cm	Upright plant habit will show off eye-catching lime-green fruit that ripens to bright red. The long, tapered peppers are fleshy and spicy, perfect for cooking.
<b>Hot Joker</b> ))	Medium chili, light green to red 4 in./10 cm long x 0.5 in./1 cm wide	Bush, medium	3-4	14-16	4-6 in./10-15 cm	These peppers are no joke! Lime-green, skinny, tapered fruit hangs down within a broad canopy and will ripen to bright red. When left on the plant, fruit will dry down to a deep red and is perfect for making paprika or pepper flakes.
<b>Hot Lemon</b> ))))))	Habanero, green to yellow 1 in./3 cm long x 0.5 in./1 cm wide	Bush, large	3-4	15-17	6-8 in./15-20 cm	Don't be fooled by the gorgeous lemon-yellow fruit, these peppers pack a punch of heat. Small, teardrop-shaped peppers are great for spicing up a salsa or hot sauce!

Tamale

Taquito

Piñata

Fresh Bites Series

Name	Fruit characteristics	Plant habit	Plug crop time (weeks)	Potting to sale (weeks)	Pot size	Comments
<b>Piñata</b> )))))	Medium chili, light green to red 2.25 in./6 cm long x 0.3 in./1 cm wide	Bush, medium	3-4	14-16	6-8 in./15-20 cm	Get ready to party with lime-green and red fruit that pop out through dark green foliage! Thin-walled, medium-length peppers are spicy and perfect for crushed pepper flakes or chopped in a sauce.
<b>Tamale</b> )	Blunt conical, green to red 2 in./5 cm long x 0.75 in./2 cm wide	Bush, medium	3-4	14-16	4-6 in./10-15 cm	Jazz up your tamales and enchiladas with this crisp, juicy, thick-walled pepper with a mild, spicy flavour. Dark green fruit ripens to bright red and hangs down on a medium-sized plant.
<b>Taquito</b> )	Small chilli, green to red 1.5 in./4 cm long x 0.3 in./1 cm wide	Bush, compact, small	3-4	15-17	3-4 in./8-10 cm	This pint-sized pepper plant is perfect for a windowsill with decorative, upright, conical peppers and small foliage. Spicy fruit ripens from green to bright red and is great for adding to a stir-fry.
<b>SWEET</b>						
<b>Fresh Bites Series</b> <i>Capsicum annuum</i>	Snack, green to orange, red and yellow 2.25 in./6 cm long x 1.25 in./3 cm wide	Large, upright	3-4	15-17	5-6.5 in./13-17 cm	Deliciously sweet, thick-walled, vibrant red, orange and yellow snack peppers taste great eaten right off the plant, chopped up in a salad or grilled.

) = mild    )) = mildly hot    ))) = medium hot    )))) = hot    ))))) = extra hot

# VEGETABLES & HERBS

**FRESH IDEAS™  
WITH GREAT  
TASTE**

Our novel, high-quality group of vegetables and herbs is carefully curated for growers who supply **fresh market farmers**, as well as **hobby gardeners**. The varieties offer fresh, **home-grown flavour** and **exceptional fruit quality**, along with earlier and **longer harvests**, and loads of **tasty produce**. Included are varieties like NEW Candy Cane Chocolate Cherry Sweet Pepper that offers unique, appealing **variegated foliage** and flavourful green fruit with a unique white stripe that changes to chocolate and cherry red as it ripens. Check out the full lineup at [panamseed.com/HandPicked](http://panamseed.com/HandPicked)

**Gherking**

**Patio Snacker**

**Martini**

**CUCUMBER** ●  
*Cucumis sativus*

Seed supplied as: Raw

Name	Type	Fruit characteristics	Days to maturity from direct seed	Fruit size	Flower type	Disease resistance	Comments
<b>Gherking</b>	European pickler	Medium green skin, highly spined	55-60	3-5 in./ 8-13 cm long	Gynoecious, parthenocarpic	HR: CMV-1, S  IR: DM, PM	Early, large yields of bitter-free fruit; won't become bitter if left on the vine. Great for high-tunnel production and gardens lacking pollinators; vigorous vines are best when trellised. Cylindrical, dark green gherkins with white spines are perfect for pickling and fresh eating. Best in-ground.
<b>Martini F1</b>	American slicer	White skin, slightly spined	55-60	5-6 in./13-15 cm long x 1.5-2 in./ 4-5 cm wide	Monoecious	IR: PM	Stands out from the competition for its non-yellowing, white exterior and earlier yields. Very tender, "no peel" skin if harvested at 5 to 6 in./ 13 to 15 cm length, with white, bitter-free interior that is very sweet and crunchy. Staying power in the heat of Summer. Best in-ground.
<b>Patio Snacker F1</b>	American slicer	Medium green skin, moderately spined	50-55	6-8 in./15-20 cm long x 1.5-2 in./ 4-5 cm wide	Monoecious, parthenocarpic		Controlled yet vigorous variety produces short, branching vines. Fruit has good flavour, crunchy texture and non-bitter peel. High-yielding with continuous harvest. Great for large containers with a small trellis; works well in pack/pot programs.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance  
 Disease codes: CMV-1 - Cucumber Mosaic Virus Race 1, DM - Downy Mildew, PM - Powdery Mildew, S - Scab  
 Flower Type: Gynoecious - predominantly female flowers, Monoecious - plants contain both male and female flowers, Parthenocarpic - plant has the ability to set fruit without pollination

**EGGPLANT** ●  
*Solanum melongena*

Seed supplied as: Raw

Name	Days to maturity from transplant	Fruit size	Fruit characteristics	Calyx colour	Plant habit	Comments
<b>Asian Delite F1</b>	50-55	5-7 in./13-18 cm long (baby size)  9-12 in./23-30 cm long (full size)	Bright purple, elongated	Green and Black	Upright, semi-spineless	Slender, elongated eggplants are glossy with bright purple skin and white, tender, non-bitter flesh. Fruit can be sliced lengthwise for grilling or lightly frying, and tender skin does not need to be peeled. Sliced or diced fruit is great for a stir-fry or curry; its non-bitter flavour and tender texture will complement any sauce. Plants are upright and semi-spineless, so they are very easy and painless to harvest. Great in an in-ground garden or large container.
<b>Fairy Tale F1</b>	50-55	1-2 in./3-5 cm long (baby size)  2-6 in./5-15 cm long (full size)	Striped purple and white, elongated	Green	Upright, semi-spineless	Early-maturing, highly productive variety produces clusters of attractive white fruit with violet/purple stripes. Elongated tear-drop shaped fruit are sweet and non-bitter, with a tender skin and few seeds. Fruit can be harvested when very small or left on the plant until fully mature. Petite plant habit between 18 to 24 in. (46 to 61 cm) is perfect for growing in containers or small-space gardens, with or without support. <i>All-America Selections National Winner.</i>
<b>Gretel F1</b>	55-60	3-4 in./8-10 cm long (baby size)  4-6 in./10-15 cm long (full size)	White, elongated	Green	Upright, semi-spineless	Earliest white eggplant is highly productive, producing clusters of glossy mini-fruit that are tender and non-bitter. Indeterminate, 3-ft. (91-cm) plants can be grown in-ground or in large containers, with or without support. More productive and 5 to 7 days earlier to ripen than O.P. types. Slightly larger plant with slightly smaller fruit than Hansel. <i>All-America Selections National Winner.</i>
<b>Hansel F1</b>	50-55	2-3 in./5-8 cm long (baby size)  6-10 in./15-25 cm long (full size)	Black-purple, elongated	Green	Upright, semi-spineless	Early-maturing, highly productive variety produces clusters of glossy, black-purple eggplants. Non-bitter, tender fruit can be used in many culinary recipes. Like white Gretel, the petite, 3-ft. (91-cm) plants can be grown in-ground or in large containers, with or without support. <i>All-America Selections National Winner.</i>
<b>Patio Baby F1</b>	40-45	2-3 in./5-8 cm long (baby size)	Purple, mini egg	Green	Compact, spineless	Unique, high-yielding, compact variety produces baby-size eggplants very early, and continues producing throughout the season. Fits well into retail patio programs. Best in-ground and in containers. <i>All-America Selections Regional Winner.</i>

Seed supplied as: Raw

Name	Days to maturity from transplant	Fruit characteristics	Plant habit	Disease resistance	Comments
HOT					
<b>Aji Rico F1</b> <i>Capsicum baccatum</i> )))	70-75 to full ripe, 50-55 to green	Conical, green to red 3-4 in./8-10 cm long x 1.25-1.75 in./3-4 cm wide	Extra large, vigorous		Unique, hybrid hot pepper has more vigour, higher yield and earlier ripening than O.P. heirlooms. Narrow, conical fruit with delicate citrus flavour and medium heat is crispy and thin-walled - perfect fresh or cooked, green or red. Best in-ground; large indeterminate plants benefit from a support. <i>All-America Selections National Winner.</i>
<b>Cajun Belle</b> <i>Capsicum annuum</i> ))	60-65 to full ripe, 45-50 to green	Mini bell, green to red 2-3 in./5-8 cm long x 2-3 in./5-8 cm wide	Medium		Produces bell peppers with mildly spicy taste just right for fresh eating and salsa. Harvest green or red. Best in-ground and in containers. <i>All-America Selections National Winner.</i>
<b>Golden Cayenne</b> <i>Capsicum annuum</i> ))	85-90 to full ripe, 70-75 to green	Cayenne, green to yellow 3-5 in./8-13 cm long x 0.5-0.75 in./1-2 cm wide	Bush, medium		Cayenne-shaped fruit will mature from green to golden-yellow and increase in heat as they ripen. Golden Cayenne fruit are excellent for cooking or fresh eating in salsa and sauces, or dried and ground into a unique, golden-yellow powder. Compact bush plant performs well in medium-sized containers or in-ground, with or without support.
<b>Habanero Primero Red F1</b> <i>Capsicum chinense</i> ))))	75-80 to full ripe, 60-65 to green	Habanero, green to red 2.75-3.5 in./7-9 cm long x 1.25-1.5 in./3-4 cm wide	Large, vigorous	IR: TSWV	One of the earliest ripening habaneros on the market, with fruit ready to harvest as early as bell peppers. Produces huge yields of fruit larger than other standard habaneros, with just about one-third the heat. Early flowering - can be sold in large pots with flowers and immature fruit. Best in containers or in-ground.
<b>La Bomba II F1</b> <i>Capsicum annuum</i> )))	65-70 to full ripe, 50-55 to green	Jalapeño, green to red 3-3.25 in./8 cm long x 1-1.15 in./3 cm wide	Tall	HR: BLS 1-3, TMV	Upgraded for superior disease resistance. Bears very large, high-quality jalapeños with little to no checking. Best in containers or in-ground.

) = mild    )) = mildly hot    ))) = medium hot    )))) = hot    ))))) = extra hot

<b>HOT</b>				
<b>New</b> <b>Pot-a-peño F1</b> <i>Capsicum annuum</i> 	60-65 to full ripe, 45-50 to green	Jalapeño, green to red 3-4 in./8-10 cm long x 0.75-1.25 in./2-3 cm wide	Bush, cascading, medium	Pot-a-peño's unique cascading habit is perfect for a hanging basket or container - a perfect addition to any patio or small-space garden. Early maturing means this will be one of the first peppers to fruit in the garden. Tons of jalapeño fruit grow under a dense canopy of small, dark green leaves. Harvest fruit green for a traditional spicy zip in any dish or allow to ripen to red for a sweet, spicy flavour. <i>All-America Selections Regional Winner, Great Lakes, West/Northwest.</i>
<b>Sweet Heat F1</b> <i>Capsicum annuum</i> 	55-60 to full ripe, 40-45 to green	Snack, green to red 3.5-4 in./9-10 cm long x 1.25-1.75 in./3-4 cm wide	Compact	One of the earliest peppers to bear fruit! Compact, bushy plants let you ship or sell larger containers with developing fruit. Sweet and mildly spicy peppers can be harvested green or red. Best in containers or in-ground.
<b>Mad Hatter F1</b> <i>Capsicum baccatum</i> 	85-90 to full ripe, 65-70 to green	Unique disc, green to red 2-3.5 in./5-9 cm long x 2-2.5 in./5-6 cm wide	Extra large, vigorous	Flat-disc peppers are crunchy and crisp, with a delicate floral scent and rich flavour that intensifies/sweetens as it matures. In hot, dry climates, a small number of fruit will have a touch of heat close to the seed cavity, but fruit wings are always sweet. Best in-ground with support. <i>All-America Selections National Winner.</i>
<b>SWEET</b>				
<b>New</b> <b>Candy Cane Chocolate Cherry F1</b> <i>Capsicum annuum</i>	70-75 to full ripe, 55-60 to green	Mini bell, green/ white stripe to chocolate/red stripe 3.5-3.75 in./9-10 cm long x 2.5-2.75 in./6-7 cm wide, 3.5-4.5 oz. (99 to 128 g)	Medium	Mini bell pepper plant has unique, eye-catching variegated foliage. Early-maturing fruit ripens from green and white stripes to unique chocolate and cherry red stripes. Sweet flavour and crisp texture make it perfect for fresh eating at any stage of ripeness. Best in containers or in-ground, with or without support.
<b>Candy Cane Red F1</b> <i>Capsicum annuum</i>	60-65 to full ripe, 40-45 to green	Snack, green/white stripe to red 3.5-4 in./9-10 cm long x 1.25-1.75 in./3-4 cm wide	Medium	Snack pepper has unique, eye-catching variegated foliage, plus fruit that ripens from green striped to solid red. Sweet flavour, thin walls, crispy texture. Perfect for fresh eating at any stage of ripeness. Best in containers or in-ground, with or without support.

SWEET continued					
<b>New Peppi Cornissimo F1</b> <i>Capsicum annuum</i>	95-100 to full ripe, 80-85 to green	Corno, green to red 6-7 in./15-18 cm long x 2.25-2.5 in./6 cm wide, 4-4.5 oz. (113 to 128 g)	Large, tall, vigorous		Extra-large corno-shaped fruit ripens from green to red, with outstanding thick walls, rich flavour and more sweetness than most large-fruited peppers. Fruit is often seedless, for less preparation time for chopping and cooking. To produce seedless fruit, grow in isolation from other (non-seedless) pepper varieties. If not isolated, it will produce larger, great-tasting fruit with just a few seeds. Best grown in-ground with support of stakes or a cage.
<b>New Peppi Red and Yellow F1</b> <i>Capsicum annuum</i>	75-80 to full ripe, 55-60 to green	Red: Snack, green to red Yellow: Snack, green to yellow 3.5-4.5 in./9-11 cm long x 1.25-1.75 in./3-4 cm wide	Large, tall, vigorous		These small, pointed fruits offer incredible sweetness and rich flavour. The fruit are often seedless and are great for snacking fresh off the plant. To produce seedless fruit, grow it in isolation from other (non-seedless) pepper varieties. If it is not isolated, it will produce larger, great-tasting fruit with just a few seeds. Best grown in-ground with support of stakes or a cage.
<b>PeppiGrande Red F1</b> <i>Capsicum annuum</i>	80-85 to full ripe, 60-65 to green	Corno, green to red 5-6 in./13-15 cm long x 1.5-2 in./4-5 cm wide	Large, tall, vigorous		Corno-shaped pepper has outstanding crisp texture, rich flavour and more sweetness than large-fruited peppers. Fruit is often seedless, which means less preparation time for chopping and cooking. To produce seedless fruit, grow it in isolation from other (non-seedless) pepper varieties. If it is not isolated, it will produce larger, great-tasting fruit with just a few seeds. Best grown in-ground with support of stakes or a cage.
<b>Snackabelle Red F1</b> <i>Capsicum annuum</i>	70-75 to full ripe, 55-60 to green	Mini bell, green to red 2-2.25 in./5-6 cm long x 2-2.25 in./5-6 cm wide	Compact	HR: BLS 1-3, 7, 8, TMV	Thick-walled, blunt-end peppers have rich, sweet flavour great for fresh eating from green to red, and hold up well through grilling and stuffing. "Easy-out" stem and seeds - simply push down or cut around cap to release seed cavity for quick cleaning. Best in containers or in-ground.

CHERRY					
<b>Artemis F1</b>	50-55	Round, medium, red 1-1.3 in./3 cm long x 1 in./3 cm wide, 0.3-0.5 oz. (9 to 14 g)	I	HR: LM, N, TMV, ToMV	One bite of these super-sweet, rich, red cherry tomatoes will have you craving more. The unique, crisp, firm texture is great in a salad or for sauce. High disease resistance to root-zone and foliar disease will ensure excellent plant health. Best grown in-ground, including high tunnels.
<b>Chocolate Sprinkles F1</b>	50-55	Elongated, medium, dark red with green stripes 1.5 in./4 cm long x 1 in./3 cm wide	I	HR: F1, N	First in this type with a disease-resistance package. Unique dark red with green stripe exterior and purple flesh colour. Produces more fruit with better flavour than similar O.P. varieties. Best in-ground.
<b>Helix F1</b>	50-55	Elongated, medium, bright red 1-1.4 in./3-4 cm long x 1 in./3 cm wide, 0.3-0.5 oz. (9 to 14 g)	I	HR: LB, N, TMV, ToMV	Experience the taste of Summer with a perfect balance of sweet and acid from Helix red cherry tomato. With early-ripening fruit and high yields, Helix is perfect for fresh eating. High resistance to root-zone and foliar diseases, including Late Blight resistance, will help ensure excellent plant health. Best grown in-ground.
<b>Little Bing F1</b>	60-65	Round, medium, red 1 in./3 cm long	CD	HR: F2, V	Part of the Little Collection of dwarf determinate varieties. Fruit sets and ripens over a period of a few weeks, allowing harvest of many tomatoes at one time. Yields large amounts of flavour-filled, red cherry tomatoes for fresh eating or to add to recipes. Best in containers, with or without support.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance  
 Disease codes: EB - Early Blight, F1 - Fusarium Race 1, F2 - Fusarium Race 2, LB - Late Blight, LM - Leaf Mold,  
 N - Nematodes, SLS - Septoria Leaf Spot, TMV - Tobacco Mosaic Virus, ToMV - Tomato Mosaic Virus, V - Verticillium  
 Growth: CD - Compact Determinate, CI - Compact Indeterminate, D - Determinate, I - Indeterminate, SD - Semi-determinate

**Midnight Snack** All-America Selections

**Sugar Rush**

**Tidy Treats**

Name	Days to maturity from transplant	Fruit characteristics	Growth	Disease resistance	Comments
CHERRY					
<b>Midnight Snack F1</b>	65-70	Round, medium, red with black overlay 1.5 in./4 cm long	I		Unique cherry tomato ripens red with an overlay of glossy black-purple on the skin when exposed to sunlight due to the accumulation of anthocyanin pigment. Sure to capture attention at retail and on the farm stand! Productive all season, yielding fruit that is well-balanced and flavourful. Great in salads or eaten straight off the plant, Midnight Snack is a guilt-free treat any time of the day or night. Best in-ground, grown with support. <i>All-America Selections National Winner.</i>
<b>Orange Zinger F1</b>	60-65	Round, large, dark orange 1.5-2 in./4-5 cm long	I	HR: F1	The high-quality, crack-resistant, tasty, dark orange tomatoes have big tomato flavour with a balance of sweet and tangy. Best in-ground.
<b>Sugar Rush F1</b>	50-55	Elongated, medium, red 0.75-1.25 in./2-3 cm long x 0.5-1 in./1-3 cm wide	I	HR: F1	Super-sweet elongated fruit has one of the highest Brix ratings of this type. Fast-maturing and very productive all season; produces long trusses of fruit with great flavour and texture. Best in-ground.
<b>Tidy Treats F1</b>	50-55	Round, small, red 0.75-1 in./2-3 cm long	CI	HR: F1, V	Tons of fruit power on a compact plant! Good in small-space gardens and containers, but unlike other patio types, Tidy Treats continues to produce red cherry tomatoes all season. Habit stays compact like a determinate but produces like an indeterminate. Best in containers or in-ground grown with support.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance  
 Disease codes: EB - Early Blight, F1 - Fusarium Race 1, F2 - Fusarium Race 2, LB - Late Blight, LM - Leaf Mold,

**Tumbler**

**Topsy Tom**

**Candyland Red** (Fruit shown actual size) *All-America Selections National Winner*

**Marzito**

Name	Days to maturity from transplant	Fruit characteristics	Growth	Disease resistance	Comments
<b>CHERRY</b>					
<b>Topsy Tom F1</b>	50-55	Round, medium, red 1 in./3 cm long x 1.25 in./ 3 cm wide	SD		Perfect for "upside down" and traditional planters. Compact/mounded. Pliable stems ship well, hold abundant fruit, won't break in wind. Continues to put out branches with many trusses of split-resistant, sweet fruit.
<b>Tumbler F1</b>	48-50	Round, medium, red 1.25 in./3 cm long	D		This superior variety for baskets and containers has a graceful, cascading habit. Prolific, extra-early plants produce up to 6 lbs./2.7 kg of very sweet cherry tomatoes.
<b>CURRENT</b>					
<b>Candyland Red</b>	55-60	Round, small, red 0.5 in./1 cm long x 0.5 in./ 1 cm wide	I		Stays compact and tidy, so it won't take over like the other sprawling currants; easy to grow and earlier, too. Branched trusses make for accessible harvest and fruits detach without damage for more usable fruit. Very high yields of tiny, red fruit deliver very sweet flavour. Best in-ground. <i>All-America Selections National Winner.</i>
<b>SPECIALTY SMALL-FRUITED</b>					
<b>New Marzito F1</b>	50-55	Elongated, mini marzano, red 2-2.25 in./5-6 cm long x 0.5-0.75 in./1-2 cm wide	I	HR: F1, LM, N, TMV, ToMV	<b>A multi-purpose tomato!</b> Versatile and perfect for all occasions - eating fresh off the vine or cooking up in a quick sauce. The elongated shape is reminiscent of a small Roma tomato, which is great for cooking. The firm texture and sweet, rich flavour mean it can be eaten fresh like cherry and grape tomatoes. Great disease resistance, too! Resistant to leaf mold, Fusarium, nematodes and tobacco mosaic virus. Best grown in ground, including high tunnels.

Heirloom Marriage Big Brandy

Heirloom Marriage Marzineria

Heirloom Marriage Genuwine

Heirloom Marriage Cherokee Carbon

Heirloom Marriage Perfect Flame

**New twists on old garden favourites**

We trialed hundreds of heirlooms for key traits like colour, flavour, quality, yield. Our favourites were selected...crossed...tested and evaluated. The result: Heirloom Marriage hybrid tomatoes, with much higher yields and earlier maturity than their parents, plus all of the great flavour and less fruit blemishes.

<b>BEEFSTEAK</b>					
<b>New DarkStar F1</b>	70-75	Oblate, ribbed, purple 2-2.25 in./5-6 cm long x 3-3.25 in./8 cm wide, 8-10 oz. (227 to 283 g)	I	HR: LB, V	Upgrade your garden with heirloom tomato flavour <i>and</i> modern hybrid tomato performance. Early-maturing, rich, purple beefsteak fruit has higher yield potential and fewer blemishes than most heirlooms. Large, purple beefsteak fruit is perfect for eating fresh on a sandwich or try preserving in sauce. Offers high disease resistance to late blight, too. Best grown in the ground with support of a trellis or cage.
<b>Tidy Rose F1</b>	60-65	Deeply ribbed, pink 5-7 oz. (142 to 198 g)	CI		Popular Tidy Treats has a deep pink beefsteak companion - both remain compact like a determinate but produce like an indeterminate. Beautiful, ribbed fruit with rich heirloom flavour is perfect for any culinary use. Best in containers or in-ground, grown with support.
<b>ROMA</b>					
<b>New Bellatrix F1</b>	65-70	Oval, red 2.75-3 in./7-8 cm long x 2-2.25 in./5-6 cm wide, 4.5-5 oz. (128 to 142 g)	D	HR: F2, F3, LB, TMV, ToMV	Bellatrix has high resistance to late blight, a common disease of tomato plants. It also has resistance to Fusarium, a common root zone disease. Red Roma/paste tomatoes ripen in a short period of time, allowing for a large harvest for cooking sauce or making salsa. Best grown in the ground or in a large container, with or without support of a trellis or cage.
<b>Little Napoli F1</b>	60-65	Red 2-2.5 oz. (57 to 71 g)	CD	HR: F1, V	One of the only patio Romas, with disease resistance for better garden success. High yields for such a small plant - harvest enough at one time for a batch of salsa or sauce. Best in containers.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance  
 Disease codes: EB - Early Blight, F1 - Fusarium Race 1, F2 - Fusarium Race 2, F3 - Fusarium Race 3, LB - Late Blight,  
 N - Nematodes, SLS - Septoria Leaf Spot, TMV - Tobacco Mosaic Virus, ToMV - Tomato Mosaic Virus, V - Verticillium  
 Growth: CD - Compact Determinate, CI - Compact Indeterminate, D - Determinate, I - Indeterminate, SD - Semi-determinate

Seed supplied as: Raw

Name	Days to maturity from transplant	Fruit characteristics	Growth	Disease resistance	Comments
ROMA					
<b>Sunrise Sauce F1</b>	55-60	Orange 3-4 oz. (85 to 113 g)	D	HR: F1, V	The only professional non-heirloom orange Roma/paste/cooking tomato on the market. Yields large amounts at one time to harvest enough to make a batch of sauce or salsa. Small plants are ideal for small-space gardens and large containers. Easy-to-peel tomatoes are sweet and meaty, with a taste like traditional Romas. Best flavour comes with cooking; can also be enjoyed fresh. Best in-ground.
SLICER					
<b>Homeslice F1</b>	60-65	Round, red 5-6 oz. (142 to 170 g)	D	HR: F1, V	Vigorous, compact variety produces very early and bountiful yields of exceptional slicers. Perfect for patio containers and small gardens.
<b>Little Sicily F1</b>	60-65	Round, small, red 3-4 oz. (85 to 113 g)	CD		Companion to Little Bing and Little Napoli, the compact, sturdy plants produce the majority of ripened fruit over a few weeks for a large harvest. Abundant, good-tasting, small, red slicer tomatoes are great eaten fresh or used in recipes. Best in containers, with or without a trellis.
<b>New Loki F1</b>	70-75	Medium, round, red 2.25-2.5 in./6 cm long x 3-3.25 in./8 cm wide, 6-8 oz. (170 to 227 g)	I	HR: F1, F2, LM, N, TMV, ToMV	Huge tomato flavour and performance. Early-maturing, round, red slicer fruit has high yield potential. Leaf mold resistance is great for growing in high tunnels or areas with high humidity. Best grown in the ground.
<b>Stellar F1</b>	70-75	Round, red 5-7 oz. (142 to 198 g)	D	HR: F2, LB, V  IR: EB, SLS	The perfect slicer for areas with high disease pressure. Produces lots of round, red fruit that is perfect for all uses. Best in-ground; benefits from trellis for support.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance  
 Disease codes: EB - Early Blight, F1 - Fusarium Race 1, F2 - Fusarium Race 2, F3 - Fusarium Race 3, LB - Late Blight, LM - Leaf Mold, N - Nematodes, SLS - Septoria Leaf Spot, TMV - Tobacco Mosaic Virus, ToMV - Tomato Mosaic Virus, V - Verticillium  
 Growth: CD - Compact Determinate, CI - Compact Indeterminate, D - Determinate, I - Indeterminate, SD - Semi-determinate

Seed supplied as: Raw

Days from transplant to ripe fruit: 85

- Produces medium-size berries from the start of Summer through Autumn.
- Best in baskets, containers and in-ground.

EasyPick Gold II Zucchini

Lemon Sun Squash

Fresca Strawberry

Name	Type	Exterior colour	Days to maturity from direct seed	Fruit size/weight	Plant habit	Disease resistance	Comments
<b>WINTER SQUASH</b>							
<b>Autumn Frost F1</b> <i>Cucurbita moschata</i>	Specialty Round	Dark tan	100-105	5-7 in./13-18 cm long x 5-6 in./13-15 cm wide	Medium Vine	IR: PM	Uniquely ribbed, round fruit ripens to dark tan with a frosted overlay. Fruit is similar in taste to a butternut squash, with superior quality, rich flavour. Shelf life of up to 4 months after maturity allows for a supply of high-quality fruit throughout the Winter season. Fruit can be prepared like a winter squash; cut lengthwise or cut the top 2 in./5 cm off, scoop seeds out and roast; perfect for stuffing. Best grown in-ground.
<b>Butterbaby</b> <i>Cucurbita moschata</i>	Mini butternut	Tan	100-105	4-6 in./10-15 cm long x 3-4 in./8-10 cm wide, 8-24 oz./3.6-10.9 kg	Restricted Vine	IR: PM	Produces many sweet, personal-sized butternuts. High proportion of uniform fruit - around 1 lb./454 g each - means less grading for the fresh market farmer and satisfaction for the home gardener. Best in-ground; can be grown on a trellis to save even more space.
<b>Honeynut</b> <i>Cucurbita moschata</i>	Mini butternut	Dark tan	105-110	4-5 in./10-13 cm long x 2.5-4 in./6-10 cm wide, 8-16 oz./3.6-7.3 kg	Restricted Vine		Produces exceptionally sweet, small fruit that are manageable to prepare. The first widely adaptable small-fruited butternut squash in a high-germinating, uniform strain. Higher yielding than traditional varieties. Best in-ground.
<b>SUMMER SQUASH</b>							
<b>Easy Pick Gold II F1</b> <i>Cucurbita pepo</i>	Zucchini	Gold	45-50	1-10 in./3-25 cm long	Bush	IR: PRSV, WMV, ZYMV	Open habit with nearly no spines on the petioles for easy and continuous harvests with no pain and less scarring on fruit. Parthenocarpic variety means that plants will produce fruit without insect pollination. Harvest from a very small size with a flower attached. Best in-ground.
<b>Lemon Sun F1</b> <i>Cucurbita pepo</i>	Patty Pan	Yellow	40-45	1-3 in./3-8 cm long x 1-5 in./3-13 cm wide	Bush		Vigorous and strong bush plant habit will produce exceptional yields of uniform, yellow, scalloped, disc-shaped fruit with no green on the blossom end. Fruit are sweet and tender; harvest from baby with the flower attached to full size, 4 to 5 in./10 to 13 cm wide. Large quantities of male flowers are perfect for frying. Best grown in-ground.

Disease terminology: HR = High Resistance, IR = Intermediate Resistance

Disease codes: PRSV - Papaya Ringspot Virus, PM - Powdery Mildew, WMV - Watermelon Mosaic Virus, ZYMV - Zucchini Yellow Mosaic Virus

NEW

Everleaf Thai Towers

Everleaf Emerald Towers

**Dolce Fresca**  
All-America Selections National Winner

Everleaf Genovese

### Towering over other basilis

The aromatic and vibrant licorice flavour of NEW Everleaf Thai Towers complements any dish, especially Thai cuisine. This well-branched Thai basil variety with short internodes makes a beautiful, tidy, towering plant that has huge harvest potential and brightens gardens or mixed containers.

HERBS ●

Seed supplied as: Raw

Name	Height	Spread	Days to maturity from transplant	Comments
BASIL				
<b>Dolce Fresca</b> <i>Ocimum basilicum</i>	12-14 in./ 30-36 cm	10-12 in./ 25-30 cm	28	Mid-size plant has a unique, bushy habit with shorter internodes that shows better at retail than traditional basilis and holds its controlled size in the garden without getting tall and leggy. More usable leaf yields, with traditional sweet Genovese basil flavour. <i>All-America Selections National Winner</i>
<b>Everleaf Emerald Towers</b> <i>Ocimum basilicum</i>	24-36 in./ 61-91 cm	8-12 in./ 20-30 cm	30-45	Flowers up to 10 to 12 weeks later than standard basil. Well-branched variety with short internodes makes a beautiful, towering plant with huge harvest potential that stays tidy for many uses, including in-ground, container gardens and hydroponics. Traditional Genovese flavour is perfect for eating fresh in Caprese salads or chopped fresh in recipes. Dark green, glossy foliage and tidy columnar habit stand out at retail.
<b>Everleaf Genovese</b> <i>Ocimum basilicum</i>	18-24 in./ 46-61 cm	12-18 in./ 30-46 cm	30-45	Flowers up to 8 weeks later than standard basil. First basil bred for season-long performance and continual harvesting. Compact variety has short internodes and excellent branching, perfect for in-ground or container gardens. Robust Genovese flavour stands up to cooking - perfect for pesto and adding to sauce. Intermediate resistance to downy mildew and standard resistance to Fusarium make it a standout in any garden!
<b>New Everleaf Thai Towers</b> <i>Ocimum basilicum</i>	24-36 in./ 61-91 cm	8-12 in./ 20-30 cm	30-45	Flowers up to 10 to 12 weeks later than standard Thai basil with huge harvest potential. Well-branched variety with short internodes makes a beautiful, columnar plant that stays tidy for many uses, including in-ground, container gardens and hydroponics. Aromatic and vibrant licorice flavour complements any dish, especially Thai cuisine. Blends well when cooked in a curry or chop fresh on Pad Thai to experience full licorice aroma. Masses of medium-green leaves with occasional purple flecks and soft purple stems will brighten any retail display.

**Newton Basil**

**Purple Ruffles Basil** All-America Selections National Winner

**Sweet Dani Lemon Basil** All-America Selections National Winner

**Fernleaf Dill** All-America Selections National Winner

Name	Height	Spread	Days to maturity from transplant	Comments
<b>Newton</b> <i>Ocimum basilicum</i>	12-20 in./ 30-51 cm	10-16 in./ 25-41 cm	21-30	Fast-growing variety with traditional Genovese flavour features high resistance to Fusarium. Unlike similar varieties, Newton does not have a licorice aftertaste, appealing to a wide range of consumers. Large, bright green, crinkled leaves are great for vegetable wraps and fresh chopped herbs.
<b>Purple Ruffles</b> <i>Ocimum basilicum</i>	18-24 in./ 46-61 cm	18-24 in./ 46-61 cm	28	Ornamental variety has fragrant, ruffled, deep purple leaves with mild anise flavour. All-America Selections National Winner.
<b>Sweet Dani Lemon</b> <i>Ocimum basilicum</i>	22-24 in./ 56-61 cm	18-24 in./ 46-61 cm	28	Flavourful and fragrant - up to 75% more total essential oils than standard lemon basil. Vigorous garden performer. All-America Selections National Winner.
<b>DILL</b>				
<b>Fernleaf</b> <i>Anethum graveolens</i>	12-15 in./ 30-38 cm	10-12 in./ 25-30 cm	28	Perfect for patio planters - dwarf, compact plants don't need staking and won't topple over. Can also be grown in-ground and used for traditional culinary purposes. Late flowering allows for a long harvest season and extended ornamental period. All-America Selections National Winner.

SimplyHerbs controlled seed input produces a healthy, uniform product for retail.

SimplyHerbs Basil and Try Basil grown with Precision Multi-Pellets in hydroponic production.

**SINGLE-SPECIES MULTI-SEED PELLETS** ●

**SimplyHerbs™ Series**

SimplyHerbs Basil, Try Basil, Dill, Curled Parsley, Large-Leaf Italian Flat Leaf Parsley, Rosemary and Sage are available as **Precision™ Multi-Pellets**.

For Growers, this offers reliable plug production, improved order fill rate, uniform quality in plug trays and improved margin, meaning more sales.

For Hydroponic Growers, this offers a higher percentage of transplantable plugs and more uniform finished product.

All varieties are best in-ground and in containers.

**MULTI-SPECIES & SINGLE-SPECIES MULTI-PELLETS** 

**SimplySalad® Series**

**Height:** 12 in./30 cm  
**Spread:** 12 in./30 cm

**Plug crop time:** 2 to 3 weeks

- SimplySalad introduced the first multi-species multi-seed pellets for salad.
- Easy to grow with very quick crop times and only one pellet needed.
- Can be direct-sown in 4 to 6-in./10 to 15-cm pots and colour bowls.
- Produces more vivid colours when finished cool.
- Gardeners will enjoy as both a colourful, mixed-texture ornamental and a delicious, nutritious edible.
- Performs best for consumers in full sun in cool weather, or partial shade as temperatures warm up.
- Best in containers.

Name	Seed supplied as	Seeds per pellet	Height	Spread	Days to maturity from transplant	Comments
<b>Alfresco Mixture</b>	MPL	10-12	12 in./30 cm	12 in./30 cm	2-4 weeks	Red and green leaf lettuces with arugula, endive and radicchio.
<b>Arugula</b>	PMPL	6	12-18 in./30-46 cm	12-18 in./30-46 cm	2-4 weeks	Quick to establish, upright variety with a mix of lobes and smooth shapes - perfect for bunching. Harvest as young leaves with a mild, nutty flavour; leaves become spicy as they mature or are exposed to high temperatures.
<b>City Garden Mixture</b>	MPL	7-9	12 in./30 cm	12 in./30 cm	2-4 weeks	Red and green lettuces.
<b>Global Gourmet Mixture</b>	MPL	10-12	12 in./30 cm	12 in./30 cm	2-4 weeks	Red and green leaf lettuces with spicy Asian greens.
<b>Kale Storm Mixture</b>	PMPL	8	12-24 in./30-61 cm	12-24 in./30-61 cm	2-4 weeks	The first all-kale SimplySalad includes an attractive mix of textures and colours, including purple, green and blue. Lasts longer in the container than lettuce and won't bolt. Can also be planted in the ground for all-season harvest.
<b>Pro San Mixture</b>	PMPL	6	8-12 in./20-30 cm	6-12 in./15-30 cm	2-4 weeks	A mix of Asian greens - mizuna and komatsuna - that were selected for late bolting and uniform growth. Bright purple and green shades. Cut at junior leaf stage 25-35 days from sowing or at full leaf stage 35-45 days from sowing. Cut leaves 2 in./5 cm above soil level and foliage will re-grow to junior leaf size approximately 10 days later.
<b>Pro Tatu Mixture</b>	PMPL	6	8-12 in./20-30 cm	6-12 in./15-30 cm	2-4 weeks	A mixture of Asian mustard and komatsuna greens that were selected for late bolting and uniform growth. Deep purple and bright green shades. Cut at a junior leaf stage 25-35 days from sowing or at full leaf stage 35-45 days from sowing. Cut leaves 2 in./5 cm above soil level and foliage will re-grow to junior leaf size approximately 10 days later.
<b>Summer Picnic Mixture</b>	MPL	10-12	12 in./30 cm	12 in./30 cm	2-4 weeks	A season extender! Heat-tolerant, late-bolting mix of red and green lettuces.
<b>Wonder Wok Mixture</b>	MPL	10-12	12 in./30 cm	12 in./30 cm	2-4 weeks	Mix of Asian greens including mustards, kale and bok choy.

MPL - Supplied as multi-species multi-pellets, with 3 or more seedlings per pellet.

# PLUG & PLAY<sup>®</sup> COMBOS

## GROW YOUR BEST COMBOS FROM SEED-RAISED PLUGS!

Every Plug & Play seed combo is tested over and over to prove that it delivers unstoppable performance from bench to store to garden. Trialing in saleable sizes begins in our research greenhouses and in our outdoor Summer containers. But we don't stop there – every potential introduction heads out to commercial greenhouses and to gardens for real-life testing. It's only when our customers give the combos they've seen in action two thumbs up that they move into the lineup.

### Good for growers: easy, economical production

- Superior, high-impact genetics plus recipe and culture support.
- Programmable finish times to hit store set dates.
- You're always in complete control of when to sow, grow and ship.

### Good for retailers: big retail shows = big sales

- Ready-to-use designer blends.
- On-trend colours that sell.
- The perfect magnet for repeat shoppers!

### Good for consumers: choices for Spring, Summer & Fall

- Easy, grab 'n go gardens appeal to today's shopper.
- Lots of instant, long-lasting, multicolour blooms.
- Balanced, attractive combos to enhance every décor.

Find recipes and planting information for all the Plug & Play Combos at [panamseed.com](http://panamseed.com).

With bright colours and early-season flowering, these combos featuring Cool Wave pansies are the first in stores to grab shopper attention.

12 in./30cm

SUMMER

All varieties in each Plug & Play Combo must be transplanted at the same time in order to finish at the same time. Sow times may vary. NOTE: Individual varieties sold separately.

Three bright ornamental pepper combos promise huge Summer through Autumn sales. These premium container combos love the heat and sun, and they deliver colour and interest from their early fruiting stage through Autumn.

### HOCUS POCUS

(A) Santos Orange Ornamental Pepper & (B) Hot Pops Purple Ornamental Pepper

10 in./25cm

12 in./30cm

#### AMAZING COLOUR AT ALL STAGES

These multicolour ornamental pepper plants can be sold when their fruit first starts to show – you don't have to wait for them to change from green to a sellable colour! This means they'll spend less time on the bench, and get to the store faster.

SUMMER/AUTUMN

### COLOR CARNIVAL

(A) Wicked Ornamental Pepper & (B) Santos Orange Ornamental Pepper

10 in./25cm

12 in./30cm

SUMMER/AUTUMN

### FIRELIGHTER

(A) Blaze Ornamental Pepper & (B) Hot Pops Purple Ornamental Pepper

10 in./25cm

12 in./30cm

SUMMER/AUTUMN

Dramatic good looks and predictable colour make these combos perfect for larger containers! Combining first-year-flowering, mid-season perennials with annuals makes a big statement on home patios from Summer through Autumn.

### GOLDEN ERA

(A) Double the Sun Coreopsis & (B) Blue Spear Lavandula

12 in./30cm

SUMMER/AUTUMN

### SUN SEA AND ROSÉ

(A) PowWow Wild Berry Echinacea, (B) Mesa Peach Gaillardia & (C) Blue Spear Lavandula

USE THE POWER OF RECOGNITION

The "stamp of approval" on these reliable, proven varieties assures landscapers and home gardeners that they are selecting and planting superior performers. Growers and retailers benefit from the added promotional efforts that these winners receive, both at their debut and for years to come.

**ACCEPTANCE OF TERMS**

These terms and conditions shall govern orders for Goods placed with Seller. Purchaser acknowledges that these terms and conditions and Seller's proposal, if any, constitute the entire agreement between Seller and Purchaser and supersede any prior agreements and representations. Any prior or contemporaneous promises, agreements, negotiations or representations whether oral or written or created the custom, usage or course of dealing are also superseded by these terms and conditions. No modification of these terms and conditions shall be effective unless in writing signed by Seller. Placement of the order shall constitute Purchaser's acceptance of these terms and conditions. All orders are subject to acceptance by Seller at our corporate office. Any different or additional terms in any documents from Purchaser are objected to and rejected, are deemed to materially alter these terms, and will not become part of any contract between Seller and Purchaser.

**PRICING**

Prices and availability are subject to change without notice. Although Seller tries to assure accuracy, it shall not be held responsible for typographical or other errors in the price list. Purchaser's price is determined by referring to the product price and deducting any discount for which Purchaser may qualify. Please contact your sales representative for more information.

**TERMS**

All payments must be received before Goods are shipped unless otherwise agreed to in writing by Seller. Payment terms can be seen on your Order Confirmation or at the appropriate Terms & Conditions page at panamseed.com for North American, European and International credit-approved customers. A 2% per month finance charge (24% annual rate) will be added to all past due balances at the end of each month. Seller has no obligation to ship any Goods until payment in full is received. PanAmerican Seed Company is a division of Ball Horticultural Company, an Illinois corporation in the USA. PanAmerican Seed Europe B.V. is a Dutch company owned 100% by Ball Horticultural B.V., which is 100% owned by Ball Horticultural Company.

**MINIMUM ORDERS**

The minimum quantity listed in the price list for each variety is the minimum order for that variety. Seller reserves the right to fill orders using pre-packaged inventory when available. Bulk quantities of items within a series cannot be combined to reach the minimum amount. Special packaging requests can be for any quantity as long as the minimum bulk requirement is met.

**ORDER CHANGES**

While order changes can be accommodated, there could be an impact to the delivery date. Please contact your customer service representative to discuss the implications of any order changes prior to submission.

**FREIGHT & HANDLING CHARGES, INSPECTION, DAMAGED GOODS**

(a) The freight and handling charge on Purchaser's invoice covers shipment of the Goods to Purchaser's destination. Seller will pay to return damaged goods, for replacement Goods or provide Purchaser with a credit for damaged Goods if the steps listed in Section (b) below are followed. PURCHASER WILL NOT REFUSE TO RETURN DAMAGED OR DEFECTIVE GOODS, OR THE RIGHT TO FILE A CLAIM IS LOST AND PURCHASER WILL STILL BE LIABLE FOR THE MATERIAL AND THE FREIGHT.  
 (b) When Purchaser receives shipment, it shall immediately: 1) count all cartons; 2) inspect all cartons for external damage; 3) check for open or resealed cartons; 4) note any damages, shortages, open or resealed cartons on the delivery receipt; the carrier's representative must also

sign the receipt; and 5) open all boxes immediately and inspect for damage, including, but not limited to, material shortages. PURCHASER MUST NOTIFY SELLER WITHIN TWO (2) BUSINESS DAYS IF A SHIPMENT IS DAMAGED by calling its Customer Service Representative to report the damage and receive details on what is needed to file a claim. The Goods shall be deemed accepted by the Purchaser on the earlier of (a) notice of acceptance to Seller, or (b) ten (10) days after delivery. Any claims for shortage, non-delivery, damage or defect which would reasonably be discoverable in the course of such inspection shall be waived unless Purchaser notifies Seller in writing within ten (10) days after delivery of the goods to which the claim relates.

**PACKAGING FEES**

All orders will be filled in bulk and/or predetermined packet sizes unless special packaging instructions are given. Special packaging requests must be at or above the Minimum Order requirements. If special packaging is requested, a packaging fee will apply and additional time may be required to complete the order. Purchaser shall contact Customer Service if it requires additional details.

**CUSTOM SEED TREATMENTS**

If a custom treatment is requested, a \$25 (U.S. Dollars) fee per batch will apply and additional time may be needed to complete the order.

**PHYTOSANITARY CERTIFICATES CHARGE**

Depending on the Goods ordered by Purchaser, and the location of the Purchaser, Phytosanitary Certificates may be required to comply with government regulations. If the shipment requires Phytosanitary Certificates, an additional cost will be charged.

**DELIVERY DATES**

Please indicate the required ship date when the order is being placed. No orders can be accepted without a requested ship date. All shipping and delivery dates provided by the Seller are approximate.

**DELAYS, SHORTAGES & SUBSTITUTIONS**

Seller shall not be responsible for delays in delivery or for losses resulting from such delays. Seller reserves the right to make partial shipment. Seller will not be liable for any delay in performing or for partial or complete failure to perform hereunder if such delay or failure is due to fire, explosion, flood, Act of God, force majeure, accident, war, intervention of governmental authorities, strikes, labor disputes, material shortages, transportation delays, any act or omission of Purchaser, its agents or employees or any party retained by, through or under the control of Purchaser, or any other cause similar or dissimilar which is beyond Seller's reasonable control.

**INSURANCE**

Seller does not insure shipments via Air Mail, but insures all other shipments in transit, in commercially reasonable amounts.

**SHIPPING**

Any shipment outside of the United States will be charged normal carrier rates.

**RETURNS**

No Goods may be returned without first obtaining written authorization. Authorized returns will only be considered if they are in original, unopened Seller packages. All returns are subject to a 15% service charge.

No credit or replacement will be given for Goods returned after nine (9) months from the ship date.

Upon receiving authorization, returns can be shipped to:

PanAmerican Seed  
 Attn: Returns  
 622 Town Road  
 West Chicago, Illinois USA 60185-2698

**SEED COUNT**

All seed counts given are approximate quantities due to variation based on a lot by lot comparison. Seed counts may also vary widely between colors and series.

**NOTICE REGARDING SEED-BORNE DISEASES**

Seller makes no representation regarding the freedom from seed-borne diseases of the seed sold and disclaims any liability relating to such diseases, whether previously known to exist or not identified until such seed is grown.

**RESERVATION OF OWNERSHIP**

In the event of bankruptcy, products delivered by the Seller remain the property of Seller until the Purchaser has paid the purchase price amount. This reservation of ownership is also extended to claims that Seller may obtain towards Purchaser on account of the Purchaser's failure to meet their obligations to Sale.

**LIMITATION OF WARRANTY**

Seller warrants, to the extent required by law, that Goods conform to the description appearing in Seller's catalog and on container labels, within recognized tolerances. THE FOREGOING WARRANTIES ARE IN LIEU OF AND EXCLUDE ALL OTHER WARRANTIES NOT EXPRESSLY SET FORTH HEREIN, WHETHER EXPRESSED OR IMPLIED BY OPERATION OF LAW OR OTHERWISE, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT.

**LIMITATION OF REMEDY**

PURCHASER'S SOLE AND EXCLUSIVE REMEDY SHALL BE REFUND OF THE PURCHASE PRICE. SELLER'S LIABILITY, WHETHER FOR BREACH OF CONTRACT, BREACH OF WARRANTY, NEGLIGENCE, PRODUCTS LIABILITY OR ANY OTHER THEORY OF LIABILITY, IS LIMITED TO THE AMOUNT OF THE PURCHASE PRICE. PURCHASER AGREES THAT IN NO EVENT, REGARDLESS OF THE FORM OF LEGAL ACTION OR THE THEORY OF RECOVERY, WILL SELLER BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL, INDIRECT OR PUNITIVE DAMAGES INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS OR REVENUES.

**USE RESTRICTION**

Merchandise is not intended for sale to large-scale commercial growers of herbs or vegetables. Use, transfer and/or acquisition of merchandise constitutes acceptance of a limited right to use the merchandise solely to grow a single crop for food, feed, processing or ornamental purposes. No other use is permitted. Any transfer of merchandise must be accompanied by this use restriction.

**MANDATORY ARBITRATION**

ANY CLAIM WHICH PURCHASER MAY HAVE AGAINST SELLER ARISING OUT OF OR RELATING TO THE SALE OF THE GOODS HEREUNDER MUST BE BROUGHT, IF AT ALL, WITHIN TWELVE (12) MONTHS OF THE DELIVERY OF THE GOODS WHICH ARE THE SUBJECT OF THE CLAIM AND SHALL BE SETTLED BY BINDING ARBITRATION IN ACCORDANCE WITH THE COMMERCIAL ARBITRATION RULES OF THE AMERICAN ARBITRATION ASSOCIATION, SAID ARBITRATION TO BE VENUED IN COOK OR DUPAGE COUNTIES, ILLINOIS.

**GOVERNING LAW, JURISDICTION & VENUE**

The laws of the State of Illinois, including but not limited to the Uniform Commercial Code as adopted therein, shall govern all matters arising out of or relating to Seller's sale of merchandise. ANY DISPUTE NOT SUBJECT TO ARBITRATION AND ANY ACTION TO ENFORCE AN ARBITRATION AWARD ARISING OUT OF OR RELATING TO THE SALE OF MERCHANDISE HEREUNDER SHALL BE MAINTAINED IN THE STATE OR FEDERAL COURTS LOCATED IN DUPAGE OR COOK COUNTIES, ILLINOIS, AND PURCHASER SUBMITS TO THE JURISDICTION OF AND VENUE IN SAID COURTS.

**INDEMNITY**

By accepting the Goods, Purchaser agrees to indemnify, defend and hold harmless Seller, its affiliates, successors and assigns from and against any claim or liabilities, claims, demands, damages, losses and expense (including attorney's fees) asserted by any or all transferees of such Goods or users of the products of such Goods (i) arising from any act or omission of Customer or its employees or agents, or (ii) who were not notified by Purchaser in writing of Limitation of Warranty, Limitation of Remedy, Mandatory Arbitration, Governing Law, Jurisdiction and Venue, and Notice Regarding Seed-Borne Diseases, in language substantially equivalent to that contained in these Terms and Conditions of Sale.

**TRADEMARKS**

Trademarks are and shall remain the property of Ball Horticultural Company, unless otherwise indicated. Nothing herein shall grant Purchaser a license to use any such trademark.

**SALE LIMITATIONS**

EXPORT CONTROL. PANAMERICAN SEED PRODUCTS ARE NOT AVAILABLE FOR SALE IN AND MAY NOT BE RESOLD INTO AUSTRALIA, NEW ZEALAND, KOREA, BRAZIL AND SOUTH AFRICA. THE COMPANY'S PRODUCTS MAY NOT BE SOLD, DIVERTED, TRANSFERRED OR RE-EXPORTED, DIRECTLY OR INDIRECTLY, TO ANY INDIVIDUAL, ENTITY, OR DESTINATION THAT IS SUBJECT TO UNITED STATES OR UNITED NATIONS SANCTIONS PROGRAMS OR EMBARGOES (INCLUDING, BUT NOT LIMITED TO, OFAC SANCTIONS PROGRAMS AND THOSE LISTED ON OFAC'S "SPECIALLY DESIGNATED NATIONALS" LIST) WITHOUT AN APPROPRIATE EXPORT LICENSE.

FOREIGN CORRUPT PRACTICES ACT. EACH PARTY REPRESENTS AND WARRANTS TO THE OTHER PARTY THAT IT WILL TAKE NO ACTION IN RELATION TO THIS TRANSACTION THAT WOULD BE IN VIOLATION OF THE APPLICABLE LAWS AND REGULATIONS OF ANY COUNTRY AND THE UNITED STATES OF AMERICA. NO PAYMENTS OF MONEY OR ANYTHING OF VALUE WILL BE OFFERED, PROMISED OR PAID, DIRECTLY OR INDIRECTLY, TO ANY OFFICIALS TO INFLUENCE THE ACTS OF SUCH OFFICIALS TO INDUCE THEM TO USE THEIR INFLUENCE WITH A GOVERNMENT OR AN INSTRUMENTALITY THEREOF, OR TO OBTAIN AN IMPROPER ADVANTAGE.

**IMAGES**

High and low-resolution digital images are available upon request. Please contact [photolibrary@ballhort.com](mailto:photolibrary@ballhort.com) or Fax: +1 (630) 562-7887. Copyright images from Ball Horticultural Company may be reproduced only in connection with the marketing of Ball Horticultural Company products. The correct marketing name as listed on images provided must be used in connection with any reproductions. Images may not be licensed or resold. Any unauthorized use is prohibited.
