Love Flowers? Welcome to Your Happy Place!

If you want the best flower seeds in the industry for your business, you've come to the right place!

With an almost 200 year old legacy as a family-owned business, you might think of Benary as an old or old-fashioned company... On the contrary.

Throughout our long history, world events have played a significant role in the necessity to continuously reinvent ourselves, giving us the spirit of a multigenerational startup.

Despite many challenges and transitions throughout the years, Benary has not only survived, every obstacle we have faced has made us stronger, better.

Together we are striving to be the most professional, innovative and personal company in global floriculture.

Thank you for working with us!

Future oriented eco-friendly solutions for sustainability

Look for the BeGreen logo to identify our new sustainable seed options.

BeGreen

is the new sustainable company
and product concept by Benary

“Being green” –
This task involves many
facets of entrepreneurial
responsibility such as:

- Sustainable production
- Preserving our resources
- Acting socially minded

BeGreen regarding our seed
means: Chemical and micro
plastics free seed treatments

- for healthier plants
- for happier customers
- for being a true green
thinking and acting
company in our industry

Breeding goes hand in hand with seed technology

Esthetics, performance and sustainability are our breeding ambitions. Our breeding teams strive to continuously develop excellent new varieties in professional seed quality.

BeGreen with Benary – for healthier plants and happier customers

Benary seed technology has developed chemical free priming for your eco-friendly production. Neonicotinoid-free production has been our standard at Benary since 2017. Benary is GLOBALG.A.P. certified.

Our in-house lab provides support and eco-friendly, innovative solutions for our Seed Technology Lab and Breeding Departments.

**At Benary, we care about you,
your customers and the environment.**
