Corporate Social Responsibility

We see social responsibility as a crucial element in running our business. In addition to our care for all of our employees who work for us worldwide, as well as their families, we also ensure that the environmental impact of our activities is minimal. Beekenkamp also sets high standards for hygiene. We implement very strict hygiene measurements to prevent diseases and discourage pests. All of these efforts have resulted in gaining various certificates. Our provisions regarding working conditions, the environment and hygiene are subject to external monitoring.

Maatschappelijk Verantwoord Ondernemen

We zien sociale verantwoordelijkheid als een cruciaal element bij het runnen van ons bedrijf. Naast onze zorg voor al onze medewerkers die wereldwijd voor ons werken, en hun gezinnen, zorgen we er ook voor dat de milieu-impact van onze activiteiten minimaal is. Beekenkamp stelt ook hoge eisen aan hygiëne. We voeren zeer strenge hygiënemaatregelen uit om ziekten en ongedierte te voorkomen. Al deze inspanningen hebben geresulteerd in het behalen van verschillende certificaten. Onze bepalingen inzake arbeidsomstandigheden, milieu en hygiëne worden extern gecontroleerd.

Certifications and guarantees

Together for the best result

Our Product Management team is testing our own genetics and breeding from partners to extend their technical knowledge for you. Improved product quality from unrooted to finished product, tolerances to pests and diseases, reducing the usage of PGR's and extending the shelf and garden life are the four main research targets. The application of modern breeding techniques is the key to success at Beekenkamp Plants today. Investments are based on a clear vision of the future needs of all the links within both contemporary ornamental horticulture production as well as in the supply chain.

Test locations in different parts of the world are very important to us, as it is Beekenkamp's goal to provide the consumer with the best product available in their climate zone. It also allows us to monitor the effects of our genetics in different growing circumstances. Beekenkamp Plants' comprehensive cultivationdatabase contains

extensive information from all over the world, taking each and every growing situation into account. All this, in order to provide you with the latest advice and information. The Marketing team is lucky enough to draw inspiration from the whole chain including the consumer. If you would like any visuals or designs please contact our office. Our experience in working in partnership is what makes it successful, but it takes time to develop. It is evident that the most successful partnerships have built upon a long history of collaboration. The Marketing department, where Sales, Product Management and Breeding, come together in order to see how we can assist you in the best way.

Know that you are invited at any time to our premises in the Netherlands where you can feel free to take a look at our shelf-life testing room or trial garden. Or visit the new Beekenkamp Inspiration Center, make an appointment all year round both online and offline.

Ons productmanagementteam test onze eigen genetica en teelt van partners om hun technische kennis voor u uit te breiden. Verbeterde productkwaliteit van onbeworteld tot afgewerkt product, tolerantie voor plagen en ziekten, vermindering van het gebruik van PGR's en verlenging van de houdbaarheid en de levensduur in de tuin zijn de vier belangrijkste onderzoeksdoelstellingen. De toepassing van moderne veredelings technieken is vandaag de dag de sleutel tot succes bij Beekenkamp Plants. Investerings zijn gebaseerd op een duidelijke visie op de toekomstige behoeften van alle schakels binnen zowel de hedendaagse sierteeltproductie als in de toeleveringsketen. Testlocaties in verschillende delen van de wereld zijn erg belangrijk voor ons, want het is Beekenkamp's doel om de consument het beste product te bieden dat verkrijgbaar is in hun klimaatzone. Het stelt ons ook in staat om de effecten van onze genetica in verschillende groeiomstandigheden te volgen. De uitgebreide teelt database van Beekenkamp Plants bevat uitgebreide informatie van over de hele wereld, waarbij rekening

wordt gehouden met elke teeltsituatie. Dit alles om u van het laatste advies en informatie te voorzien. Het marketingteam heeft het geluk zich te laten inspireren door de hele keten, inclusief de consument. Neem voor afbeeldingen of ontwerpen contact op met onze marketing afdeling. Onze ervaring met het werken in partnerschap is wat het succesvol maakt, maar het kost tijd om te ontwikkelen. Het is duidelijk dat de meest succesvolle partnerschappen zijn gebaseerd op een lange geschiedenis van samenwerking. De afdeling Marketing; waar de afdelingen Verkoop, Productontwikkeling en Veredeling samenkomen om te kijken hoe we u het beste kunnen helpen.

Weet dat u ten alle tijden welkom bent in ons pand in Nederland waar u gerust een kijkje kunt nemen in onze houdbaarheidstestruimte of showtuin. Of bezoek het nieuwe Beekenkamp Inspiration Center, maak het hele jaar door zowel online als offline een afspraak.

Samen voor het beste resultaat

BEEKENKAMP PLANTS COMPANY MOVIE

SCAN HERE FOR THE MOVIE:

The Beekenkamp Group. An established presence in the world of horticulture. A family business since 1951, we now have over 2,900 employees worldwide and produce over 2 billion young plants every year, with a total greenhouse area of 90 hectares. The Beekenkamp Group combines the forces of our three businesses.

We work together for the best result.

De Beekenkamp Group. Een begrip in de tuinbouw. Een familiebedrijf pur sang, met sinds 1951 ruim 2.900 medewerkers wereldwijd, een productie van meer dan 2 miljard jonge planten per jaar en een totaal areaal aan kassen van 90 hectare. Beekenkamp Group bundelt haar krachten in drie bedrijven.

Samen gaan we voor het beste resultaat.

Peter Persoon & An Beekenkamp
CEO's of the Beekenkamp Group

Marc Driessen Director Plants Ornamentals
Cor Bremmer Commercial Director Plants Ornamentals

The new corporate company film by Beekenkamp Plants Ornamentals, includes experience combined with processes. This short video, shows the audience the production processes that are required to produce a finished plant in store for the end consumer.

The story line is the LaBella® Dahlia which is being followed throughout in the video, in which you follow the processes from breeding to the finished plant going home with the end consumer. The recently introduced sustainable BKX tray and the automatization processes are also included. The video explains the processes involved at Beekenkamp Plants Ornamentals and shows the viewer how complex this actually is. An informative film that's easy watch.

In de nieuwe allesomvattende bedrijfsfilm van Beekenkamp Plants Ornamentals wordt beleving met proces gecombineerd. In deze film is te zien welke processen er nodig zijn om een stekje uit te laten groeien tot een klare plant die in de winkel gekocht kan worden.

In de film wordt een LaBella® Dahlia stekje gevolgd. Het proces wordt vanaf het kruisen tot aan het mee gaan met de eindconsument als klare plant gevolgd. De pas geïntroduceerde BKX tray, de productielocaties, de robotisering en nog een hoop andere onderdelen komen aan bod. De film geeft de kijker in het kort weer wat Beekenkamp Plants Ornamentals allemaal doet en hoe complex de branche eigenlijk is. Een informatieve film die makkelijk weggijkt.

Alfresco

*Homemade fresh food
in the open air.*

Beekenkamp Plants has a wide range of hobby vegetable plants. Grafted and not grafted. Due to our experience in the cultivation of both ornamental and vegetable plants, we are a strong player in the hobby vegetables market. All our seeds are from well-known companies with high-quality breeding and are certified. We work closely with the breeding companies to ensure you get the best plants. Alfresco literally means: "good food in the open air" and that is exactly the goal of our hobby vegetable range. Besides a great taste and a wide range of vegetables, Alfresco has more to offer. Alfresco responds to all current trends. The name "Alfresco" says it all: Fres(h). The consumer growing their own vegetables and fruit in the comfort of their own home and garden. It doesn't get Fresher than that. It offers relaxation, contributes to a more sustainable world (less packaging, more greenery) and provides fun and education for young and old. The hobby vegetables from Beekenkamp Plants are grown according to strict hygiene rules.

Beekenkamp Plants heeft een ruim assortiment aan hobbygroenteplanten. Geënt en niet geënt. Door onze ervaring in de teelt van zowel sier- als groenteplanten zijn wij een sterke speler in de hobbygroentenmarkt. Al onze zaden zijn afkomstig van bekende bedrijven met hoogwaardige veredeling en zijn gecertificeerd. We werken nauw samen met de veredelingsbedrijven om ervoor te zorgen dat u de beste planten krijgt. Alfresco betekent letterlijk: "lekker eten in de buitenlucht" en dat is precies het doel van ons hobbygroentenassortiment. Naast een lekkere smaak en een breed assortiment aan groenten heeft Alfresco meer te bieden. Alfresco speelt in op alle huidige trends. De naam "Alfresco" zegt het al: Fres (h). De consument verbouwt zijn eigen groenten en fruit in het comfort van zijn eigen huis en tuin. Verser dan dat wordt het niet. Het biedt ontspanning, draagt bij aan een duurzamere wereld (minder verpakkingen, meer groen) en zorgt voor plezier en educatie voor jong en oud. De hobbygroenten van Beekenkamp Plants worden geteeld volgens strikte hygiëneregels.

Campanula Campala® Mila & Nina®	104	38-20	11 - 13 weeks	10 - 15 cm	20 - 25 cm

THE PLANT

Campala is the brand name for a range of different Campanula varieties. The Campala fits into any living room, patio or garden, is easy to combine with other plants, shows excellent results in the shelf life tests and is perfect for the gift market.

The Campala is available in different pot sizes and is very suitable for running large retail promotions.

FLOWERING TIME

The Campala can be offered as a houseplant early in the season. With its white and deep blue colours is a prelude to the coming spring.

The Campala is very suitable as an outdoor plant from May to September. Due to its vibrant colour this strong plant attracts the end consumer and bees love the Campala too!

GOOD RESULTS IN THE SHELF LIFE TESTS

FITS IN EVERY LIVING ROOM, PATIO OR GARDEN

EASY TO COMBINE

IDEAL AS A GIFT FOR HIM AND HER

POS MATERIAL
Various POS material is available, such as printed pots, hanging, and stick labels, banners, shelves, etc. For more information about the possibilities, please contact: marketing@beekenkamp.nl
