For varieties, traysizes or deliveries not mentioned in this catalogue we maintain the following minimum quantities per delivery :

TRAYSIZE	MIN
Varieties in 84 hole trays:	8 trays
Varieties in 220 hole trays:	4 trays
Varieties in BKX 264 hole trays:	NEW 20 trays

KEYS TO SYMBOLS

- TRAY SIZE
- DELIVERY WEEKS
- PRODUCTION TIME
- POT SIZE
- PLANT HEIGHT

TRAY 84

- Transplanted plant
- Plant is 13 weeks old
- Suitable for 12 cm pot and larger
- More mature plant
- Verspeende plant
- Plant is 13 weken oud
- Geschikt voor 12 cm pot en groter
- Volwassenere plant

TRAY 220

- Glue plug: optimal rooting
- For a very uniform startup
- Sown directly into the tray
- Sorted tray
- Young plants 10-11 weeks old
- Lijmplug
- Optimale beworteling
- Direct op de tray gezaaid
- Gesorteerde tray
- De jonge planten zijn 10-11 weken oud

NEW BKX-TRAY

BKX-TRAY 264

- Glue plug
- Sown directly on the tray
- Sorted tray
- Plant is 10-11 weeks old
- Multi-use tray
- Perfect retrieval
- Reducing environmental impact
- Extremely suitable for automatic potting
- Proven advantage X-tray
- Lijmplug
- Direct op de tray gezaaid
- Gesorteerde tray
- Plant is 10-11 weken oud
- Meermalige tray
- Perfect uit te halen
- Verminderd milieu-impact
- Uitermate geschikt voor automatisch oppotten
- Bewezen voordeel X-tray

BEEKENKAMP CYCLAMEN – THE BEST STARTING MATERIAL FOR THE BEST CYCLAMEN!

For several decades already, Beekenkamp Plants Ornamentals has been active as producer of cyclamen young plants. As a result of that experience we produce strong young plants in an excellent quality, which we produce and which we supply all over Europe and other parts of the world. The best starting material begins with the choice of the best genetics. Over the years, Beekenkamp Plants Ornamentals has built a very close relationship with various breeders. We value these relationships and are happy that due to this collaboration, we are able to offer you the right genetics. A further step in the process is the production of cyclamen young plants. Our committed colleagues in the various departments ensure a fluent process in which cooperation and quality are key. The broad assortment we produce has over the years proved to be the right base for excellent flowering cyclamen.

NEW: cyclamen in 264 BKX-tray

We offer different genetics in the right trays and in the right delivery weeks so that the grower can rely on a good start of the crop. As of this year, it will also be possible to order cyclamen of a number of series in our catalogue in the 264 BKX-tray. **The 264 BKX tray is a reusable. This reusable tray is ideal if growers want to pot automatically and it can be used several times, by which it contributes to sustainability.**

We proudly present a number of new series for the coming season. With the **new Universe series** we offer a uniform cyclamen series suitable for 12 to 14 cm pots. This series is ideal for if you want to grow 2 colours in 1 pot. This series also makes it possible for the grower to choose the right young plants and to combine these for the rest of the chain. The **Melange Micro** offers the perfect solution for the production in small pots. The uniformity within the various colours makes it easier to pack the flowering plants. Growing cyclamen in hot conditions is not easy. The **Super Series Leopardo** performs excellent in hot conditions and produces beautiful flowers. If you are looking for a cyclamen which can be grown in in the dark and cold period of the year, the **Super Series Vintro** is a the perfect solution. This serie is less sensitive to botrytis and very suitable for flowering in winter due to its sturdy plant habit. Who doesn't like the scent of a cyclamen?! The **Super Series Odora** is a series that consists f a selection of perfumed. Apart from a lovely scent these plants are also very floriferous. All-in all enough to look forward to!

If you need more information, our team of professionals is always at your service!

BEEKENKAMP CYCLAMEN – HET BESTE UITGANGSMATERIAAL VOOR DE BESTE CYCLAMEN!

Al decennia lang is Beekenkamp Plants Ornamentals actief in het produceren van jonge cyclamen planten. De ervaring die wij in de afgelopen jaren hebben opgedaan vertaalt zich in de kwalitatief goede, stevige jonge planten die wij produceren en in Europa en daarbuiten leveren. Het beste uitgangsmateriaal begint bij de keuze voor de beste genetica. Door de jaren heen heeft Beekenkamp Plants Ornamentals een zeer nauwe relatie met verschillende veredelaars opgebouwd. Wij koesteren deze relaties en waarderen dat wij u, mede door deze goede samenwerkingen, de juiste genetica kunnen aanbieden. Een vervolgstap in het proces is de productie van de jonge cyclamen planten. Onze betrokken collega's van verschillende afdelingen zorgen voor een vloeiend proces waar samenwerking en kwaliteit centraal staat. Het brede assortiment dat wij voeren, heeft in de afgelopen jaren bewezen de juiste basis te zijn voor mooie bloeiende cyclamen.

NIEUW: cyclamen in 264 BKX-tray

Wij bieden verschillende genetica in de juiste trays in de juiste leverweken zodat de kweker kan vertrouwen op een goede start van de teelt. Dit jaar staat de 264 BKX-tray cyclamen voor een aantal series nieuw bij de bestelmogelijkheden in de catalogus. **De 264 BKX tray is een meermalige tray. Deze meermalige tray is uitermate geschikt voor het automatisch oppotten en de tray kan meerdere keren gebruikt worden en draagt op deze manier bij aan duurzaamheid.**

Met trots presenteren wij komend seizoen een aantal nieuwe series. Met de **nieuwe Universe serie** bieden wij een uniforme serie cyclamen geschikt voor de 12 tot 14 cm pot. Deze serie is ideaal bij het opkweken van 2 kleuren in 1 pot. Deze serie maakt het de kweker gemakkelijk om de juiste jonge planten te kiezen en te combineren voor de rest van de keten. De **Melange Micro** biedt de perfecte oplossing voor de productie in de kleine pot. De uniformiteit tussen de verschillende kleuren maakt het inpakken van bloeiende planten makkelijker. Het kweken van cyclamen onder warme omstandigheden is niet eenvoudig. De **Super serie Leopardo** kan goed tegen warmte en geeft prachtige bloemen. Mocht u op zoek zijn naar een cyclaam voor de opkweek in de donkere en koudere tijden van het jaar, dan is **Super Serie Vintro** een passende oplossing. Deze serie is minder gevoelig voor botrytis en met zijn stevige plantopbouw zeer geschikt voor de winterbloeï. En wie houdt er niet van de geur van een cyclaam?! De **Super Serie Odora** is een serie die bestaat uit een selectie van geurende cyclamen. Naast een heerlijke geur geven de planten ook een rijke bloei. Alles bij elkaar genoeg om naar uit te kijken!

Mocht u behoefte hebben aan meer informatie, dan staat ons team van professionals voor u klaar!
